

CENSUS NOT YET COMPLETE

Final Schedules Cannot Be Closed Before Wednesday Night.

SPECIAL ENUMERATORS STILL IN THE FIELD

Reports from Second District, Outside of Omaha, Reach Omaha in Bad Shape—Farm Schedules the Worst.

As the work of closing up the census schedules progresses the amount of labor is becoming more apparent. Last night the Washington office expected the work in Omaha to be complete, but the final schedule will not be closed until today, as there are four special enumerators still in the field.

The reports from the second district outside of Omaha are coming in very poorly prepared and a number of the enumerators have been called upon to visit the office of the supervisor to complete their reports. The greatest trouble experienced is in the manner of the preparation of the farm schedules.

The department has announced that it will not pay for work where it shows upon its face that it is incomplete, so when an enumerator reports a man who runs a farm of 300 acres with no live stock the enumerator has done his work for nothing.

Monday evening a special enumerator in one district, supposed to be closed, found seventy-five persons who had never been turned in. They are laborers who occupy rooms and the principal tenant could not give their names.

The work on the manufacturing and other special schedules will begin as soon as the population schedules are completed. For this work enumerators will be appointed by the Washington office. They will report to Major Wheeler, but he will have nothing to do with their appointment.

They will be paid by the day and the extent of their work cannot be determined in advance, as no real census of this character has ever been taken in the Second Nebraska district.

American Enterprise at Paris. Among the striking and original exhibits at the Paris Exposition of 1900 few have occasioned more favorable comment than the great map of the United States, 18x15 feet, exhibited by the well known advertising agency of Lord & Thomas, Chicago and New York.

This map is constructed to show at a glance the various details concerning state areas and population, number of publications in each, circulation per issue, percentage of circulation to population, value of publishing plants, number of employees, average hours of labor, average wages paid and average cost per inch for yearly advertising. Information of this nature is of especial value to advertisers, showing as it does the best locations in which to place advertising to reach the greatest number of people and secure best results.

The firm of Lord & Thomas has been engaged in the general advertising business for over thirty years, and ranks among the largest in its line. They prepare advertisements for all classes of advertisers and place them in any publication in the world.

Copies of this valuable map will be sent free on request to all advertisers who address Lord & Thomas, Trade Building, Chicago.

SMITH TRYING TO KEEP OUT

New Board of Education Member Fights Story of the Secretary Muddle.

"It is a question in my mind whether I had better qualify as a member of the Board of Education until after the contest between Mr. Burgess and Mr. Gillan for the secretaryship of the board has been settled," said J. J. Smith, the member of the Board of Education who was elected to fill the vacancy caused by the resignation of President J. F. Burgess.

"I do not care to enter into the fight and hope that it will be possible for the matter to be settled by the old members of the board. The position on the board came to me without any solicitation on my part and I have no disposition to take up a fight in which I have not been interested. I know nothing about the merits of the contest and am not disposed to mix up in it."

Fables of the Rail—II. A Young man was going to Chicago to get married and he rode in the sleeping car so that he would be nice and fresh for the ceremony next day. But he was unable to sleep, and when the young woman saw his Red eyes and what a General Wreck he was she thought he had accumulated a jag and refused to marry him, whereat he got his Picture in the Paper for being dead.

Moral—Always go to Chicago via the North-Western Line and you will sleep like a brick and be as fresh as a daisy when you arrive.
