Wheat After Early Weakness Rallies Under Lead of Corn.

SESSION IN CORN MARKET IS STRONG

Dats Dip Early and Rally Later, Following After the Big Markets-Provisions Open Strong on Light Hog Receipts.

CHICAGO, July 6.-Wheat, after a period of weakness, early railled under the leadership of a strong corn market and a reportake troops to China and closed strong, August 14/2%c over yesterday. Corn caught is bullishness from reports of dry weather in Kansas and parts of Nebraska, August closing 1814c higher. Oats closed Mc up

and provisions 121/2015c lower.

The wheat market opened with a degreof steadiness because Liverpool at the outset failed to show as much decline as had expected. August, to set the ball a-rolling sold at 785c to 795c at the opena-rolling sold at 78½c to 78½c at the opening and shortly afterward attained 79½c. Then the bears took a hand in the game. Argentine shipments were heavy, footing up 2,168,000 bushels, according to the Board of Trade figures, which were about 60,000 over Beerbohm's. Liverpool turned weak with Minneapolis and bearish, and there were more rains in the northwest. August on selling by persons who wotted of those facts slumped off during the forencen to 78½c. The official North Dakota report showed the spring wheat crop to be pretly much of a wreck. This may have had a bit of influence, but not much of it. Corn. report showed the spring wheat crop to be pretty much of a wreck. This may have had a bit of influence, but not much of it. Corn, meantime, was showing a deal of strength. New York reported a better export inquiry and 50 loads taken for foreign shipment. Attention to the gravity of the situation in China was directed by a report that Germany was chartering transports to take troops to the Flowery Kingdom. In these tiems shorts found reason to cover. One man was reported to have taken in 1.000,000 bushels. The seaboard and foreigners were fair buyers and some of the sales made earlier were taken back. This caused a reaction in August to 80% and the close soon after was strong, August 1.00 bushels. Primary receipts aggregated 604,000 bushels, compared with \$37,000 bushels a year ago. Minneapolis and Duluth reported 102 cars, against 194 last week and 424 the corresponding day last year. Receipts here were 157

neapoils and Duluth reported 102 cars, against 194 last week and 424 the corresponding day last year. Receipts here were 157 cars, 7 of contract grade. The Ohio crop report reduced the condition 4 points since June 1, making it 25, indicating a crop of 12,000,000 bushels, to be compared with last year's yield of 40,000,000. The winter whent movement gave indications of improvement, Stocks at Minneapolis and Duluth combined were reduced 250,000 bushels.

Corn was active most of the time and strong save at the beginning, when the dip in wheat led it from the straight and narrow path, which leads upward. At this stage of the game the baneful influence of wheat had an ally in the liberal receipts and the crop condition of 107 on an area of 3,061,000 acres. The hot, dry weather in Kansas was a consideration on the other hand Damage was reported from this state and from parts of Nebraska. The crop expert, with his little microscope, was in the field and when he acts that way woe betide the crop. The buils allowed the market to dip and then got to work. Shorts covered and the market responded with a rush. Receipts were 1,654 cars. August sold between 43c and 444c, closing 121/26 better at 441,27444c. 3.061,000 acres. The hot, dry weather in Kansas was a consideration on the other hand. Damage was reported from this state and from parts of Nebraska. The crop expert, with his little microscope, was in the field and when he acts that way woe betide the crop. The buils allowed the market to dip and then got to work. Shorts covered and the market responded with a rush. Receipts were 1,004 cars. August sold between 43c and 444c, closing 12/14c better at 44/2/44c. Shipping business here was put at 300,000 bushels. Country offerings were very small. Oats were quiet and toddled along after the big markets. The market dipped early with wheat and railied later with corn. August sold between 23c and 24/5c, closing 5c over yesterday at 23/5c. Receipts, 448 cars.

Provisions opened strong on light hog re Provisions opened strong on light hog receipts and an advance at Liverpool for product. There was a good demand for lard, but the market slumped off on the selling of a local line of ribs. September pork sold between \$13 and \$12.77½ and closed 12½615c under yesterday at \$12.77½; September lard between \$7.22½ and \$6.90, closing 5c lower at \$6.90, and September ribs \$7.17½ and \$7.02½, with the close 5c down at \$7.02½67.05.

ing and Market Suffers Relapse. NEW YORK, July 6.-The professional operators in stocks who have been able to manipulate prices for an advance, owing to manipulate prices for an advance, owing to the small amount of floating stock in the market, found their efforts to maintain the higher level unavailing today. There was nothing in the news of the day that exerted any marked influence on the market and the relapse must be attributed to the natural reaction attending profit-taking on an advance and the renewed selling for short account attracted by the higher level of prices and the palpably shaky condition of the market as the day progressed. The lower prices for Americans in London had little effect, as on previous days, and the professional buils resumed the tactus which were so successful yesterday in lifting the prices. But it became manifested during the day that the sustaining influence in the strength of New Jersey Central and its allied stocks was lacking today. Nevertheless a considerably higher level of prices was obtained in the grangers. Baltimore & Ohio and Missouri Pacific. Sugar, the local tractions and People's Gas were also strong. The steel stocks suffered from realizing on the published report that the steel interests were conferring to maintain prices. The London selling was persisted in later than usual and had an effect in combination with the break in the steel stocks. The later efforts of the bears ceatered on Louisville & Nashville, which, after rising 1, wes driven down 2%. In January the directors declared a 2 per cent dydend on this stock for the semi-annual period, which was called 12 per cent regular and 2 per cent, but would be 23 per cent. Later came intimidations that it would be 2 per cent, but would be called a regular semi-annual period, which was called 12 per cent. Later came intimidations that it would be 2 per cent, but would be called a regular semi-annual period when the coming semi-annual dividend. Cotton Market.

NEW YORK, July 6.—COTTON—Strong Liverpool cables dominated the local cotton market today and inspired comes. The bearish speculation in the foremoon: The bearish speculation in the foremoon: The bearish political news from China and a better tenon of crop testimony was for the time being small in comparison with the influence of a pronounced advance in both spot and future cotton abroad and especially as news of the latter was supplemented by generous buying orders from Liverpool. Our market started firm in one at an advance of 1 to 6 points and scored a net rise of 10217 points before a reaction set in. On the buile room shorts and the foreign representation in general were conspicuous as buyers. The south and the more courageous bears here supplied the cotton needed to satisfy the former demand. Private advices ascribed the firmness white advices ascribed the firmness from the entire belt. Short selling became quite active on the theory that Liverpool would respond to the fine weather accounts tomorrow. The market later turned strong on European purchases, which carried July to 51.00 and August 10 39.72. The close was steady, with prices 50212 points higher.

With a Moral. Chicago Tribune: "Have you the teeth-ache?" asked the customer, after the barber had shaved him and handed him a check for 15 cents.

"No, sir," answered the barber. "Boil anywhere on the jaw?" 1,000 "No. sir." "Bad cold?" "No. sir." "Anything the matter with your throat?"

"Nothing." "Any impedime speech?" "It doesn't hurt you to talk?" "Not at all."

"And you refrained from telling me my nair was harsh and dry and asking me if I didn't want seafoam or if I wouldn't like to have my hair singed, or from making any other suggestions of that kind, for the simple reason that you thought if I wanted anything else I'd have sense enough to know it without being bored to death about it?

"Yes, sir."

"Well, I'll come here regularly after this." The Everlasting Controversy. Chicago Tribune: "Well, said the doc-tor, who is slender, to the professor, who is rotund, "I see, you are well enough to be 'round."
"Yes," replied the professor, "You can

also see, I suppose, that I am considerably urther 'round than you are.' "Well, you are getting square with me,

anyhow. What is your girth? Thirty-"Pshaw!" replied the prefessor. "It is thirty years since I was 40." At the hour of going to press the dec-

tor was still trying to dig hidden meanings out of that rejoinder Social Philosophy.

Atchison Globe: A letter is not really important unless you burn it after reading.

You have made a fair success of your domestic affairs if you are on speaking terms with all of your kin. When any one over 35 gets an invitation

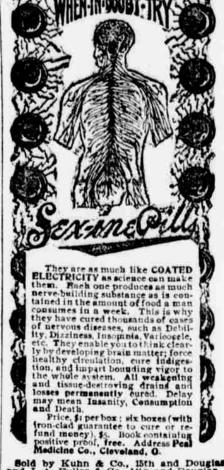

to a picule, it means that someone very much older is getting it up. Unless kin drop in every day to express their disapproval of you they are treating you worse than a stranger. "I don't enjoy my meals any more," an

old fellow said today. "I ate up all the geo's things twenty-nve years ago." When a boy bas a thing he is proud of his pleasure is greatly enhanced if there is someone around to whom he can "show"

A woman can whip her own children without consulting the neighbors, but she should ask their permission when a stepchild needs a licking.

An Atchison woman, who has been married three times, will shortly try it a fourth time. Marrying four times is next door to being talked about. "I can't see how you can shoot an innocent little dove," a girl said to her guilty

brother. "I just aim at it," the boy replied, "and pull the trigger." A girl child will believe longer than a boy child that eating the crusts will make the hair curl and this credulity is characteristic as she grows older.
