All Grain Markets Are Influenced by the Weather Conditions.

WHEAT OPENS STRONG-DECLINES LATER

Dpening Prices in Corn Show a Substantial Advance, but Are on Downgrade for the Rest of the Session.

CHICAGO, July 13.-Weather conditions influenced all the grain markets today. Reports of improvement in the northwest and the raising of the figures on the estimated yield were the principal factors in a decline of 11,011 in wheat. Corn closed 1,00%c lower and oats 14204c lower. Provision were steady on light receipts and good cash demand and closed 21-35c higher,

The opening tone of wheat was rather etrong, September starting at an advance of harme at 80%@80%c. This was due entirely to pit trading, local speculators being influenced by the fact that foreign markets did not show an adequate response to yesterday's decline here and to the seriousness of the Chinese situation. The strength disappeared almost immediately. Reports from the northwest told of an improved condition of wheat as a result of rains and the cooler weather prevailing and figures on the crop given out today by the Trade Bulletin were raised considerably. This quickly changed the balance of trading in favor of the bears. The northwest sold considerably and the steady decline in the price finally discouraged longs and resulted in considerable liquidation, which was kept up with more or less steadiness all day. Toward the close of the Session there was a slight improvement in tone, caused principally by covering by northwest traders who had put out wheat earlier in the week and who had geed profits in sight. The closing, however, was heavy, though at a little better than bottom prices. September sold down to 73c, but recovered to 75% on the late buying. The close was at 75%75% on the late buying. The close was at 75%75% on the late buying. The close was at 75%75% c. Northwest receipts were 12 cars. 13 of contract grade. Total primary receipts were 50%,600 bu., against 785,690 bu. a year ago. New York reported 50 loads taken for export. Seaboard clearances were equal to 216,000 bu.

Corn was strong early, influenced by reports of continued hot weather in Kansas and Nebraska and absence of rain, with decidedly pessimistic crop reports. Opening prices showed a substantial advance and did not show an adequate response to yes-

and Nebraska and absence of rain, with decidedly pessimistic crop reports. Opening prices showed a substantial advance and this fact induced enough profit taking to keep prices on the down grade for the rest of the session. Some liquidation was induced by predictions of rain in the drouthstricken districts. Country offers were light. The seaboard reported 50 loads taken for export. Local receipts were 535 cars september ranged from 55 to 43% 573% and closed 450% lower at 43% c.

The oats market followed closely the fluctuations of corn. Opening prices were slightly higher, but the market soon declined on selling by local traders, influenced by the weakness of other grains. Traders who bought early in the week on damage reports from the west were conspicuous

reports from the west were conspicuous in the selling. Receipts were 151 cars. Sep-tember ranged from 24%c to 24%c and closed tember ranged from 24%c to 24%c and closed 3,60%c lower at 24%c.
Provisions, though rather dull, showed steadiness throughout the session. Hog recepts were light and the cash demand for meats was good and prices were well sustained, even when grain markets were at their weakest. Fluctuations were unimportant. At the close September pork was 25,60%c higher at \$12,62%, and September land, 6c higher at \$5,22%, and September ribs, 25%c higher at \$5,22%, and September ribs, 25%c higher at \$7.
Estimated receipts Saturday: Wheat, 75%cars; corn, 500 cars; oats, 170 cars; hogs, 15,000 head.
The leading futures ranged as follows:

NEW YORK, July 13.—Today's stock market was but a dull and uninteresting the manipulated rise of the earlier part of the week which came into evidence yesterday. Selling to take profits was the order of the day and the bears put out some freh short lines. That neither of these operations was on a very extensive scale is sufficiently shown by the small figure of the total sales of the day and the greater part of even these small dealings took place in the forenoon, when the bull interests were still making futile efforts to continue the advance. The efforts were not put forth in the opening transactions and the sympathetic depression from foreign markets was allowed its full effect. The weakness there was due to renewed fours. markets was allowed its full effect. The weakness there was due to renewed fears regarding the Chinese situation and to the mishap to the British forces in South Africa. The effect here was purely sympathetic and when it was seen how small the selling for London account was the buils braced their energies and attempted to resume control of the market. The pressure of profit taking which met the advance when last night's level of prices was approached discouraged the attempt and the market was allowed to lapse into an almost lifeless state. The sharp break in the wheat market, which might be fairly construed as indicating a more hopeful feeling regarding the crop, was powerless to sustain the stock market. Small as the offerings were they were sufficient to drive construed as indicating a more hopeful feeding regarding the crop, was powerless to sustain the stock market. Small as the offerings were they were sufficient to drive prices sharply below last night's level. The grangers, southwesterns and some of the southern railroad stocks were most notably affected, but there were examples of weakness all throught the list, both of railroads and specialties. The steel stocks became notably weak late in the day on a growing apprehension that the general reaction in business will curtail the consumptive requirements for iron and steel, whatever the ultimate basis of prices may be. A further advance in the sterling exchange rate, the hardening of the London discount rate and the continued drain on the gold reserve of the Bank of England led to the opinion amongst international exchange houses that further shipments of gold from New York to Paris are likely to be made next week. At the same time today's reduction in the discount rate of the Imperial Bank of Germany and a further relaxation in the private discount rate in Berlin makes it probable that Berlin has been further reducing its loan obligations to New York. A liquidation of foreign borrowing, accompanied by an export movement in gold would present an astonishing state of affairs. Estimates of tomorrow's bank statement are rather tentative in view of the discrepancy last week between the preliminary indications and the actual results. The banks seem to have gained over \$1,000,000 from the subtreasury during the week and the movement of currency from the interior, though considerably reduced, is still in their favor. Call loans fell to 1 per cent this afternoon and the probability is in favor of an increase in surplus reserves.

The bond market continued duil and the prices changes were mixed. Total sales, par value, \$1.535,000. United States bonds were unchanged in bid quotations.

The Commercial Advertiser's London financial cablegram says: The markets here were exceptionally idle today, influenced by the dismal rumor

BERLIN, July 13.—Prices on the bourse oday were weak, the general gravity of the political situation being more protounced. Banks and industrials, not bly you shares, were affected by the sharps in America. But toward the close they improved, being stimulated by the bank rate and there were a few repurchases. The ate of discount of the Imperial Bank of lermany was today reduced from 5½ to 5 er cent.

LONDON, July 13.-American securities appened depressed on a lower over-night operation from New York and prices remained down with next to nothing doing, the market being obedient to the lead of Wall street. The trading was largely in St. Paul and Louisville & Nashville. The close was dull. Amount of bullion withdrawn from the Bank of England on balance today was \$2,000. Spanish 4s closed at 71. early advanced the trade was small; also a lack of outside speculative interest was manifested. At the opening there was an advance of 4213 points. The gain was brought about by several influences, including a better class of cable news and much less propitious crop conditions. The weather map was poor regarding the southeastern section of Texas and also the lower Mississippi valley. The bear contingent, however, was disposed to turn a deaf ear to builtish crop gossip in view of the lethargy of public speculation. As the session advanced the trade became dull, but in the late afternoon prices eased off under local pressure. The market finally quieted at a decline of 2214 points.

Wool Market.

Wool Market.

LONDON, July 13.—At the wool auction sales today 12.377 bales were offered, including a full and good selection, which was mostly sold. Good medium greasy merinos and coarse cross-breds were in strong demand. The improvement was due to a better demand from the continent. Fine cross-breds were lightly higher. The following is the sale in detail:

New South Wales, 2.400 bales; scoured, 6d wis 7d; greasy, 5140114d. Queensland, 100 bales; scoured, is 214001s 614d; greasy, 61401 10d. Victoria, 2.700 bales; scoured, 8d wis 514d; greasy, 3140114d. was rather active. Buyers were cut early and cattle began moving toward the scales before the morning was far advanced. The better than yesterday and the light receipts also made the commoner cattle move a little more freely than of late. It was a good, strong market as compared with yesterday on anything desirable and the yards were cleared at an early hour.

There was little change in the market on cow stuff. The better grade of grass stock brought about the same prices as yesterday, but as has been the case all along canners were slow sale, as there is but little demand for them at the present time.

Stock cattle are selling very mean. This applies to stock heifers, as well as to

HOGS-Favorable reports from other points and light receipts here made today's market active and higher. At the opening a few hogs changed hands on a basis of 75,9710c higher than yesterday, or at 25,1095
5,125. Later on, owing to a good demand on the part of packers, prices firmed up a trifle and sellers held their boss at \$5,121,4515. The bulk of the hogs sold at \$5,124,5515, with the long string at \$5,124,1 it was a good, active market from start to finish and everything was sold and weighed up at an early hour. The long string yesterday brought \$5,024, so that today's general market is a big loc higher.

As will be noted from the table of average prices, today's advance takes the market back to inst about where it was on Monday and Tuesday, the loss of the last two days being recovered. Representative sales?

STILL SHORT OF JURYMEN Prosecution Uses Its Last Peremptory Challenge to Excuse an Anti-

GEORGETOWN, Ky., July 13 .- The fifth day of the trial in the case of ex-Secretary of State Caleb Powers, on the charge of complicity in the Goebel assassination. found the jury not yet completed. Four jurors were to be supplied, eight having been accepted yesterday. The deputy sheriff last night summoned an extra venire of forty jurymen. The court was late in getting to work today on account of awaiting the arrival of Attorney Owens of the defense, who was elightly injured in a street car accident last night. The prosecution exhausted its number of peremptory challenges by excusing Erasmus Ware, anti-Goebel democrat, who had been temporarily seated as a juror yesterday afternoon.

At 11 o'clock the jury was completed as follows: W. O. Tinder, farmer, anti-Goebel democrat; I. Z. Stone, farmer, anti-Goebel democrat; A. W. Craig, merchant, democrat; W. P. Munson, farmer, democrat; W. H. Oldham, merchant, democrat; George Murphy, farmer, democrat; J. C. Porter, farmer, republican; Alonzo Kemper, farmer, anti-Goebel; George B. Ford, farmer, democrat; J. C. Crosthwalte, carpenter, democrat; J. T. Mulberry, blacksmith, democrat; Harris Musselmen, farmer, democrat, At 11:20 a recess was taken until 2 o'clock, when the prosecution will begin the statement of what that side expects to prove.

CHARLESTON, S. C., July 13,-Prof. W. M. Beardshear of the Iowa State Agriculthe State Normal school at Kirksville, Mo., were the speakers at the closing session of the department of elementary education. Among the speakers at the business education department was Dr. H. M. Rowe of Baltimore. The convention closes tonight.

Monatt is the Favorite. Moffatt and Al Neil are reported to be in perfect condition for their glove contest tonight. Betting opened a couple of days ago with Moffatt favorite at 19 to 8, but there seems to be more Moffatt money affoat than coin seeking investment on the Californian's chances. Last night the odds were 10 to 7 and at these figures business was brisk.
