PAVING MATTERS LAID OVER

City Council Defers Final Action on the Street Improvements.

ASPHALT ADVOCATES MAKING A FIGHT

Effort to Supplant Brick Takes on a Vigorous Form and Prevents a Decision by the Aldermen.

The city council last night deferred action on the resolution calling for the paving with vitrified brick of the group of streets situated west of Main street until next Monday night. This postponement of the final determination of the resolution was deemed expedient in view of the fact that there were numerous petitions, some for brick and others for asphaltum, also several protests against paving at all, filed. This will give the aldermen time to examine the petitions and learn whether the majority of the property owners interested are in favor of brick or asphaltum.

Promises from Barber People.

W. C. Scarritt of Kansas City, attorney for the Barber Asphalt company, addressed the council. He urged the superiority of asphaltum for paving on the grounds of its sanitary properties, durability, freedom from potholes and uneven surface. The paving laid by his company, he said, would consist of a five-inch concrete base, a one and a half-inch binder and on top one and a half inches of asphaltum. There had never been a suit brought against his company, he said, for failure to fulfill its guarantee. No reference as to the cost of asphaltum paving was made by Mr. Scarritt. In answer to a question from Alderman McDonald, Mr. Scarritt said that if given the contract for paving the streets on which the property owners desired asphaltum by the middle of September his company could complete the work this fall. City Engineer Emery, in answer to a question from Mr. Scarritt, estimated that there were about 50,000 yards of asphaltum to be used.

Fender Ordinance Goes Over.

Alderman McDonald's ordinance compelling the street railroads to place fenders in front of their cars was read the third time and then laid over until next Monday night. Attorney Tinley, who significantly stated that he expressed the sentiments of both the Suburban and the bridge companies, urged that action on the ordinance be deferred, as it was a matter of great importance to the companies. The ordinance provided for one particular make of fender, or one similar, and Mr. Tinley urged that there might be some fender equally as good that the companies might prefer to adopt. This will make the condition of the ordinance they would be prohibited from using.

Alarm Box Held Up.

The fire and light committee reported adversely against placing a fire alarm box at Fifteenth avenue and High street for want of funds. At the suggestion of Alderman Brooks, who thought the cost could be paid out of the general fund, final action was deferred until next Monday. The cost of installing an alarm box at this point would be \$24.

Enclosing the Rockpile.

Work was commenced yesterday on building a stockade around the city rockpile, but has to be temporarily suspended, owing to an accident to E. Brooks, the foreman in charge of the work. He was cutting a post when the ad slipped, inflicting a deep gash in his leg. The wound had profusely oozed and a physician should be summoned. After the injury was dressed Brooks was removed to his home and it will be several days before he can resume work. The police are hopeful that now the stockade is being built, Alderman Boyer will see to it that the necessary hammer

It is hoped by Attorney General Remley to get the case before the supreme court at its October session and have it decided at once.

Marshalltown Jail.

MARSHALLTOWN, Ia., July 13.—(Special Telegram)—A number of the residents of State Center engaged in a battle early this morning with four burglars, who were discovered in the act of blowing open the safe in the store of Nason & Whitehill. A number of shots were exchanged, but both sides expected the levellers would make a fight when the attempt was made to take him and the sheriff surrounded the house with an armed posse. Levertown gave himself up without resistance, however.

Good Campaign Document.

GLENWOOD, Ia., July 11.—To the Editor of The Bee: A good campaign document for your state republican committee would be the editorial page of the World-Herald of Wednesday, July 11. Several columns are devoted to ripping up Uncle Sam up the back and—well, you have read it. In all of it is a brief notice (about a "stick of type"), which speaks of the "good news for Omaha, etc., in the new dry goods jobbing house to be opened in your flourishing city. Of course it is good news when jobbers, manufacturers and other industrial enterprises are knocking for admittance. But when a country is going to the demagogue how does there arise a knock by capitalists, by the republicans, democrats or populists. The little editorial shows the grand condition of our country and it "knocked into a cocked hat" all the weight or influence the balance of that editorial page had.
