NEW YORK, July 13 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say.

If the great increase in failures to \$50.

\$70.134 in the first half of 1300, against \$42.

\$64.961 last year, and especially to \$42.

\$64.961 last year, and especially to \$42.

In the second quarier, against \$1.60.

Last year, gave no occasion for dilizent search failure returns will be worth nothing. But today it is shown that three banking failures for \$1.50.

\$65.162 against thirty-one last year for \$1.50.

\$67.153 in the office of \$1.50.

\$67.153 in the office of \$1.50.

\$67.154 against thirty-one last year for \$1.50.

\$68.163 in thirty-one last year for \$1.50.

\$68.163 in thirty-one last year for only \$2.52.

\$69.163 it is last year for only \$2.52.

\$69.163 it is last year for only \$2.52.

\$60.163 in and trade other part, and that in building and lumber working and trade other large failures distinctly held with those in real estate exchange much more of the difference between manufacturing and trade failures last year and this in those and much less important conditions in a few other lines are seen substantially all the commercial disasters as yef resulting from an amazing rise in prices last year, followed by weary, but largely successful efforts during the last few months to get to a normal state of business. When this is seen, and the remarkable steadiness in number and size of the great majority of failures not for exceptional satisfaction that business has been on the whole so soundly conducted under conditions of unusual dan
ser.

The Iron Age makes the output of pix Weekly Review of Trade tomorrow will say:

appears ground for special satisfaction that business has been on the whole so soundly conducted under conditions of unsmual danger.

The Iron Age makes the output of piz fron 282,432 tons weekly July, it but the decrease of 18.000 tons has by this time been exceeded, other furnaces having stopped this month, and repairs of works and of wage scales may yet occupy some weeks. The increase of 86,9% in stocks ussold implies decrease in manufacture more than double the decrease in output and works of five of the great corporations are waiting for a decline in wages just when the workers have looked for an increase. Open markets are now admitted at Pittsburg where operations have been for some time nominal, and Bessemer pig is offered there at \$15. Structural makers decide not to reduce prices, but steel bars there and plates at Philadelphila are said to have sold at \$1.15 in some cases. The sheet works open Monday with large orders. Coke works about 19 per cent idle have no demand now and in contracts it is suid that even \$2.50 would be shaded.

Cutton speculation has beld the price too high for the comfort of foreign somewaste but the arrangement by the Fall River committee to close for a month or more a large part of the New England mills will clear away dispute about the market for goods. The woolen manufacturer is in no better nosition, which some of the best mills closed in part or wholly on account of the uncertainty of demand.

Wool is growing weaker and even offered by some westerners at prices which were refused not long ago, but the mills do not yet know what goods they will be able to sell, and from a temporary idleness there seems to be no escape.

Prices of shoes are not weaker, but a larger proportion of the makers appear disposed to make concessions aiready mentioned. So light is new business that johers also seem to have modified their views. Leather grows weaker, though kid has held steadily owing to decreased production. Splits are a little lower, but most usper leather is steady.

The end of the

BRADSTREET'S REVIEW OF TRADE Beginning of Improvement in De-mand is Becoming Visible.

NEW YORK, July 13.-Bradstreet's to morrow will say: While trade is still only of moderate volume the beginning of improvement in demand is apparently becoming visible. The improvement is still one of tone rather than of demand, but with a vield of 540.000 bushels of wheat, a next to record-breaking yield of corn and a very large production of oats the western crop situation contains many encouraging features. The southern cotton crop has undoubtedly suffered and the condition is unprecedently low for this season of the year, but the acreage planted was a large one and prices are so much higher that a satisfactory financial return is confidently looked for. In addition railroad earnings point to the maintenance of the business of the country at a volume in excess of last year. While trade is still only of moderate vol-

addition railroad earnings point to the maintenance of the business of the country at a volume in excess of last year.

The effort of the big iron and steel concerns to control prices, if really made, has proven abortive and another wholesale slashing of quotations is to be reported this week. Production, however, is failing of and increases of furnace stocks, though considerable, would seem small if renewed ectivity occurred. It is hard to see how lower prices can be expected and it is expected present quotations will seem to the control prices of the country at a volume in excess of last year.

Colonel Hathaway, quartermagter of the Department of the Missouri, with the control of the North Omaha main sewer.

Philip H. Bender of Humphrey, Neb., has filed application to be declared a bankrupt. He has assets of \$1.485 and liabilities of the Vinton street viaduct and stone masons will begin in a few days to lay the stone foundations.

Colonel Hathaway, quartermagter of the Department of the Missouri, with the confidence of the Conference of the Civil see the North Omaha main sewer.

Find the extension of the North Omaha main sewer.

and increases of furnace stocks, though considerable, would seem small if renewed activity occurred. It is hard to see how lower prices can be expected and it is expected present quotations will advance, especially at Chicago.

The situation in cotton goods is an embarrassing one for the manufacturers Raw cotton, old crop, this week reached the highest price in ten years, but nothing like a proportionate advance is being secured in many of the inished products. Export trade with China has been checked, several mills have shut down and short time during the summer has been practically agreed upon by the Fall River print cloth mills. A rather better tone is noted in the dry goods market at New York, with symptoms of expanding demand, chiefly, however, for seasonable goods. Concessions in prices have induced rather freer buying of wool at some centers and the tone of the London sales is firmer, but the goods market shows little animation.

animation.

The industrial situation is rather better as a result of agreements upon wages by a number of iron and steel manufacturing concerns and their employes. Lower prices for lumber are apparently inducing more activity in building, though how much is due to this or how much to the settlement of labor disturbances is hard to tell.

Wheat, including flour, shipments for the week aggregate 2.285,295 bushels, against 5.018,322 bushels last week. 3.223,815 bushels in the corresponding week of 1899, 2.193,827 bushels in 1898, 1.522,002 bushels in 1897 and 2.962,949 bushels in 1898. Shipments to date this season amount to 5.848,742 bushels this season amount to 5.848,742 bushels, against 5.022,507 bushels last season and 5.629,459 bushels in 1898-9. Corn exports for the week aggregate 4.022,008 bushels, against 2.614,752 bushels last week 4.553,759 bushels in 1898, 2.723,510 bushels in 1897 and 1.110,871 bushels in 1895. From July 1 to date the season's corn exports are 7.635,552 bushels, against 8.66,882 bushels last season and 5.233,520 bushels in 1898.

Business failures in the Dountoin of Canada for the week number 22 as comanimation.
The industrial situation is rather better.

Business failures in the Dominion of Canada for the week number 22 as com-pared with 25 last week, 27 in this week a year ago, 28 in 1898, 33 in 1897 and 23 in 1898

BRADSTREET'S FINANCIAL REVIEW.

Market Though Narrow and Dull Has Shown Inderlying Strength. NEW YORK, July 13 .- Bradstreet's Finan-

NEW YORK, July IR.—Bradstreet's Financial Review tomorrow will say:

Much attention is paid by the speculative world to worn crop conditions and prospects. The news bearing on the prospect has been favorable, though drouth and hot winds in the western portion of the corn belt have furnished material for stories of a total loss to the crop in that section. This was the occasion for some selling of the granger stocks during the week. The Chinese troubles also commoned to look on the absence of news from Pekiras a good rather than a bad sign. London's sales of American stocks were partly counterbalanced by renewed purchases and it was noted that all the foreign offerings been very well taken in fact the market though a marrow and at times a very dull one, has shown a remarkable a very dull one, has shown a remarkable comfort discovery of the age.
