Lack of Support Causes Late Break in Wheat.

CORN SUCCUMBS TO TALK OF BIG CROPS

Onts Are Dull and Are Contented to Pollow in Lead of Other Grains -Provisions Market is Quiet and Irregular.

CHICAGO, July 18.-Wheat was firm for hours today, but broke later with corn and on lack of support, September closing 1%c inder yesterday. Corn slumped on talk of a big crop and September concluded the session le lower. Outs closed %c down and provisions unchanged to 1921212c higher. Trade in wheat was only moderate and the course of the market Irregular. The pening was firm, September % over the close yesterday at 77% 2077%c. In this bulge were to be found as inflences higher cables from Liverpool, small northwest receipts and unfavorable reports from the Dakotas. and unfavorable reports from the Dakotas. On profit-taking, which met the initial bulge, September declined to 77%c; then, in an erratic mood, the market railied to 77%c, but dropped off with great rapidity from that to 77%c. Again the hard-fighting bulls forced the price back to 77%278c; in this they were assisted by coverings by scalping shorts for profits. It was following this bulge that the severest break of the day occurred and brought the market to an inglorious finish. Primarily the break in corn was an influence. In addition to this southwest receipts were large and the outside support a nerveless affair. The northwest, while claiming irreprarable damages for the Dakotas and asserting that the rains had found little of a cropleft to help, were sellers. September tumbled down to 78%c and closed soon after in a weakened state. 1%c under yesterday at 78%%6%c. Clearances at the scaboard in wheat and flour were equal to 242,000 bushels. At primary points receipts amounted to 765,000 bushels, compared with 1,000,000 bushels last year. Minneapolis and Dulluth reported 281 cars, against 195 last week and 476 a year ago. Local receipts were 76 cars. 15 on contract grade. New York reported 45 loads taken for export.

Corn opened firm, but thereafter acted like a market too worn from sickness to On profit-taking, which met the initial corted 46 loads taken for export.

Corn opened firm, but thereafter acted like a market too worn from sickness to fet well in a hurry. At the start there was moderate buying in the small country differings and on theory of some reaction seing due after a severe decline. The 2,00,000 bushels cash business done the two revious days was a natest consideration. 00,000 bushels cash business done the two previous days was a potent consideration. Add to this some desultory reports of moderate damages to the crop before the rain struck it and it gives the bull side. The market held well till about noon and then slumped. With talk of a big crop came more enthusiasm and at last started more liquidation, which had its natural result. September opened at 39% to 39% to 39% to touched 40c, slumped from that to 38% and closed le lower at 38% 93% c. Receipts were 338 cars.

Oats were dull, too lazy to assert any independence, and was apparently well contented to follow where corn led. When corn slumped oats breathed harder and got red in the face trying to keep up the pace, but nobody paid any picular attention to it. September sold between 20% and 23%c, closing %c under yesterday at 23%c. Receipts were 86 cars. Crop reports were favorable save from the northwest, where there was loss from the drouth.

Provisions were quiet and irregular, owing to the fact that packers were buyers of lard and ribs, but rather neglectful of pork. September pork sold between \$11.70; September lard between \$8.75 and \$5.67½, closing 5c higher at \$5.7066.72½, and September ribs between \$5.77½ and \$6.67½, with the close 10@12½c up at \$5.77½.

Estimated receipts tomorrow: Wheat, 105 cars; corn, 420 cars; oats, 145 cars; hogs, 25.600 head.

Market Fails Back Into Former Condition of Stagnation.

NEW YORK, July 18.—The buil party desisted from its efforts to advance prices today and the recent appearance of activity, due to irregular operations, promptiy gave place again to something near to stagnation. While the pressure to realize was not severe it was evident that the recent demonstrative buying by the buil party has failed utterly to attract any demand from outside sources so that no market is offered for the taking of profits. It is not difficult to foretel what would be the effect under the circumstances of the selling out of recent speculative purchases. Apparently the principal reason for the cessation of buil manipulation was the demonstrated futility of the attempt to attract outside buying. Predictions of dividend action on Baltimore & Onlo are is far discredited that that stock went backwards today, and even Union Pacific, which has been advanced by much more aggressive management, fell back almost as much the latter losing 14. The increase in the dividend rate of Illinois Central apparently did not add to the credence given to the predictions of other dividend proports of the Pacific railroad stocks was more fully explained by today's detailed reports of the Chartering of steamships in the Pacific by the United States government and in the Atlantic by the German government for use in the Pacific to transport military supplies to China. But the inviting prospect thus offered of lucrative tradic for the transcontinental railroad lines was offset today by some other considerable burdens upon the New York for foreign account and a reminder that forced litigation abroad might throw considerable burdens upon the New York stock market. The day's shipments of gold were a reflection of the money needs of foreign markets, which are not unlikely to grow accused by the unsettlement in China. The uneasiness caused abroad by reports of Boxer inroads upon the New York stock market. The day's shipments of gold an adaptic for war should become large. T Market Falls Back Into Former Con-

The Commercial Advertiser's London financial cablegram says: There was genteral flatness among glit-edged securities in the markets here today, owing to the spread of the Chinese rebellion and General Dewet's escape through General Roberts' cordon. The market was inclined to the view that a new war loan of £10,000,000 is imminent. It is rumored also that the Indian government is about to offer £6,000,000 is a per cents. Cotton Market.

Cotton Market.

NEW YORK, July 18.—This was a day of great anxiety for shorts on the Cotton exchange, and while the general course of events favored the bull faction there were several periods when they, too, were much at sea as to just which way to turn. The Liverpool cable board this morning showed that the English market had scored one of the most remarkable upturns in many months, if not in years. Futures abroad were \$\partial{Q}\$11\frac{1}{2}\$ points higher on the active months, and at the time of our opening were soaring at a nerve-trying rate at the best figures, showing a rise of 7\frac{1}{2}\frac{1}{2}\$ points. A hasty comparison of information from Liverpool showed that shorts abroad had been thrown into a veritable panic by a circular of Neill's, said to claim that the crop had been irreparably damaged and that fields were being deserted. Large foreign buying orders helped to increase the consternation of oversoid parties, and immediately after the market opened there was a wild scramble to protect short accounts and to buy cotton for investment, the latter being devoted more exclusively to European interests. First sales showed an advance of 12\textit{@}17\$ points. Then by leaps and bounds prices jumped upward, until August had reached 9.4c and January 8.3c. Then a partial relapse under heavy profitaking came, but soon after midday stop loss orders began to pour in from outside points and prices took the up course. A spurt of buying carried August to 9.52c, but failed to materially advance the new crop options. In midafternoon selling for both accounts became popular, under which prices crumbled rapidly. During the last hour the movement of prices was fitful, though in the main toward a lower level. The market at the close was steady, with prices net 16\tau36 points higher.

LONDON, July 18.—WOOL—At the wool auction sales Joday 11.891 bales were offered. American buyers paid full prices for suitable cross-breeds. There was a steady demand for Falkland island wools; scoured wools sold well. The attendance was large. The following are the sales in detail: New South Wales. 1,500 bales; scoured, 646@is 9d; greasy. 25@104d. Queensland. 900 bales; scoured, is 24@1s 24 Wool Market.

California Dried Fruits.

NEW YORK, July 18.—CALIFORNIA DRIED FRUITS—Inactive and nominal. There was little, if any, demand for evaporated apples today; offerings were scarce, however, and this fact gave a steady undertone to the market; at the close prices were unchanged; state evaporated apples, commission, 32/35c; prime, 54/355c; choice, 54/365c; fancy 7/375c. HOGS-Today's hog market was again against the selling interests, and, as a result, prices took another drop. Eastern points reported a decline of about 10c, and consequently buyers started out here to get their droves at considerably less money. Opening sales were largely at \$4.8569
4.90, or 5071½c lower than yesterday's general market. It took good hogs to bring the high prices, and the medium and mixed hogs sold largely at \$4.8569.87½. The market was rather slow on the start, as it took some time for buyers and sellers to get together. Later in the day, however, on the strength of some outside orders, the market took on more life and closed up stronger. The bulk of the hogs today sold at \$4.8564,90, with the long string at \$4.87½. In spite of the slow start everything was sold reasonably early.

The decline today makes the market down to the lowest point touched since about the middle of June. Representative sales:

Department of the Missouri Ordered to Rush the First Cavalry to San Francisco.

Some quick work has been done by the adjutant general and the quartermaster of the Department of the Missouri in the last twenty-four hours. Tuesday afternoon a telegram arrived from Washington telling the adjutant to rush the First cavalry to San Francisco as soon as practicable. Telegrams were immediately sent to the commandants at Forts Niebrara and Robinson telling them to rush preparations. The quartermasters department placed itself in ommunication with the rallroads and yesterday morning the necessary cars were started for Rushville and Crawford for the use of the troops. This morning the two troops at Fort Robinson will start for San Francisco and tomorrow the troop from Niobrara will be enroute.

The horses will not be sent with the troops. They will be put on transports at Seattle, while the men will sail from San Francisco, From Crawford to Seattle the horses will be in charge of an officer and a detachment to be selected by the commandant at Fort Robinson.

Captain Adrian S. Polhemus will proceed from Fort Leavenworth to Fort Robinson, whence he will accompany troops A and C of the First cavalry to San Francisco, returning to Fort Leavenworth upon the completion of this duty,

The court-martial which has been in session at Fort Crook for several weeks has been dissolved.
