## STOP PREACHING IN PARKS

#### Commissioners Decide to Prohibit the Holding of Any Religious Services in City's Breathing Places.

Preaching in the parks of Omaha will be discontinued. At its meeting yesterday afternoon the Board of Park Commissioners. decided to notify the park policemen that the section of the rules which prohibits public metings shall be enforced to the letter. Complaints have come to the board concerning religious meetings that are held in Hanscom park and exhorters have also been gathering crowds on Jefferson square. The result has been that the sod has been damaged and shrubs have been broken by the congregations that listen to the itiner ant preachers. If any church were granted the right to hold meetings in the parks the same privilege would have to be extended to all and the beard has adopted the policy of prchibiting all public meetings unless they are of a patriotic nature.

Dr. S. D. Mercer has offered to give the board the ground necessary for the exten- terday sion of the drive in Bemis park west through his land to Fortieth street. "I had never once thought of over-hauling "dear old coffee," but when it finally occurred to me to make the trial and take up Postum, I immediately discovered where the difficulty all these years came from. I now eat anything for breakfast, as much as I desire, doing justice to a good meal, and the same at lunch and dinner, with never a headache or other disagreeable symptom. My only "crankiness" now is to know that I have Postum served as it should be made, that is properly boiled. There is a vast difference between poorly made Postum and good.

All Over With Leete. When Mrs. R. D. No sooner had their orders been taken than the injured husband walked in and re-monstrated with Debridge. The latter stopped not to parley, but went for Leete, vigorously using fist and foot. Made Love to 120 Girls. Probably the most successful suitor of modern times is Alois Frankenberg, a Ravarian, who has just been sentenced at Gratz, in Austria, to spend two years and a half in prison because he made love to too many girls and swindled them out of goodly sums of monoy. The son and heir of a wealthy man at Gratz, he quickly ran through his patrimony, whereupon he ad-vortised for a wife in several papers. Girls of all ranks in society answered his ad-vortisement, and, selecting among them those who were comely and who had money he promised to marry them. Gradually he invelsied their money from them, and then he disappeared, leaving the hapless women to mourn over his tekieness and his dishonesity. The was next heard of at Munich, where he played the same trick and with equal success on several young and old widows To the neighboring citles he also paid frequent visits, and ever with the same object in view, the result being that in a short time he had accumulated quite a handsome fortune.
