BALL PLAYERS ORGANIZE Permanent Organization of a Protective Association is Formed

The meeting today was the second held by the new organization. Unlike the first, however, when only three delegates from each club were allowed at the meeting, today's session was open to any member of the association and nearly 100 players attended.

The delegates present were: Jennings.

The delegates present were: Jennings, Keeler and Kelly, Brooklyn: Burkett, Young and Dorovan, St. Louis; Beckley and Corcoran, Cheinnati; Griffith, Ryan and Callahan, Chicago; Delehanty, Murphy and Bonohue, Philadelphia: Zimmer, O Brien and Ely, Pittsburg; Duffy, Clarke and Collins, Beston, and Doyle, Bowerman and Smith, New York.

The constitution was prepared by Harry Taylor of Buffalo, the organization's compsel. It was adopted unanimously, but just what the constitution contains none of those who were present would divulge.

what the constitution contains none of those who were present would divulge. Taylor stated that the principal object of the players as atton would be to fight the managers in the selling and farming of players. The present system of contracts will also be bitterly fought by the players organization.

"There are many things that are inequitable in the contracts recovered." "There are many things that are inequitable in the contracts presented to players now," said Mr. Taylor, "and we propose to remedy them. Well, we will probably draw up a form of contract and present it to the magnates this fall. I shall take the contracts used in the National, Eastern, Wesfern and American leagues and after modifying them draw up a new form. That will be presented to the magnates for consideration. Our demands are just and modest and we do not anticipate trouble. "A grievance committee has been appointed, but their names will be kept secret for the presnt."
"How strong is your organization?" was asked.
"There are just two pleases.

How strong is your organization?" was asked.

"There are just two players in the big league who are not members and they will be members in a day or two. We have received word from the Eastern and American leagues and every player in those two organizations is anxious to join. We expect to have as members every professional ball player in the country."

At the conclusion of the meeting Hugh Jennings said: "Our organization today is strong and we are ready to talk business. It is not our object to bring about a fight with the club owners. We want justice and intend to get it in a straight, above-board businessike way. We are chock full of enthusiasm. We are only fighting against methods in the contract system and the scheme of selling and farming players."

The next meeting of the association will be held in September, when the western teams are again in the cast.

Weldon, the dean of American sporting editors, who was stricken with paralysis last February and has become a hopeless invalid. It is now learned from the letters received that there will be co-operating committees in all of the larger cities composed of sporting editors, base ball men, turtmen, boxers and others. In addition to the athletic events amounced there for Getaber boxers and others. In addition to the athletic events announced there for October 5, it is now proposed to have a great carnival of boxers, as well as Weldon day at the races. Nearly all of the managers have pledged their men for contests. It is proposed to offer a purse of \$5,000 for seven games between the winners of the National and American league pennants. There are twenty committees in the organization, composed of prominent citizens, and the indications are that the benefit will not only be a success, but that it will also bring more sports together than on any previous occasion.

PROVIDENCE, July 29.—Jimmy Michael, the bicycle rider, was declared defeated by the referee in his match with Ben Monroe of Memphis at Crescent park this afternoon. The trouble grew out of the terms of the contest for the race, by which Michael's manager, J. C. Kennedy, controlled everything. The local track could get Michael here only by agreeing to such requirements for pace and when the referee called Monroe off the track and awarded him the race the big crowd, which had paid double admission price to see Michael, was furious. The race was fifteen miles, motor-paced, and Michael used a new motor with three and a half horse power and a fancy set of water coolers, which were nothing more than wind shields, so constructed as to evade the rules. The Race Proves a Finsco. which were nothing more than wind shields, so constructed as to evade the rules. The motor did not work well and at the end of ten miles it went up. The contract for the race called for Kennedy to furnish the pace for both riders. When Michael's pace went wrong he tacked onto the rear wheel of Monroe, whose pacemakers, being Michael men, slackened up. The next few miles were ridden at a 2:20 gait and the crowd howled with rage. The referee instructed the motoreers to give Monroe a pace, but they refused and the farce went one for a few miles, until the referee called Monroe from the track and awarded him the race at the end of the fifteen miles. As the amendment and the democratic ticket will run very close together, the populists and republicans have practically abandoned their state ticket in an effort to elect a majority of the legislature and return Butler to the United States senate. The battle has been fought on the race issue, brought on by the proposed franchise amendment by which 80,000 ignorant negro

voters are to be disfranchised. For the last month at least 1,000 speeches day have been made and the people are feared. So far there has been none, though in many eastern counties the "red shirt" men have declined to allow fusion campaigners to speak. On account of threats by Senator Butler and his followers to prevent the election by injunction or other methods, the legislature will convene here tomorrow and adjourn from day to day until election day. The democratic leaders say is taken. that if there is interference on the part of the opponents of the amendment it is certain that there will be serious trouble. During the first three months of the campaign the populists and republicans had two state tickets in the field, but about a

week ago the two tickets were consolidated. The offices assigned the republicans are governor, attorney general and chairman of tually broke the hot spell, the largest and the corporation council. Dr. Thompson, populist nominee for governor, issued an open letter announcing his retirement in the shah, who remained indoors today until

Itinerary of His Trip to Indianapolis. LINCOLN, July 29.-Mr. Bryan is so well along with his notification speech and his plans are so well developed that he hopes tomorrow to be able to an-

nounce his itinerary for the trip to Indianapolis and return. He has no knowledge of the time and place for his notification by the populists and free silver republicans and it is not believed his present itinerary takes into consideration that if it was to be in the west Mr. Bryan's home in Lincoln would be the place se lected, but it is now thought Topeka Kan., has the first call and will probably secure the meeting. It is thought pos sibly the trip to Chicago of Secretary Edgerton of the populist national committee may have some bearing on the question. Mr. Edgerton left this evening and will remain several days. He expects to see Charles A. Towne while in Chicago, but said that was no part of his

M'KINLEY SPENDS QUIET DAY

President Attends Church in Morn ing and Receives Number of Callers Later.

CANTON, O., July 29 .- President McKinley attended services at his own church, the First Methodist, this morning, where the boys' vested choir of Wheeling rendered special music. Rain during the afternoon prevented the customary drive and kept the family in the house and greatly reduced the number of callers.

This evening the president and Mrs. Mc-Kinley were dinner guests of Judge and Mrs. Day, together with Mr. and Mrs. W. A. Lynch and Mr. and Mrs. M. C. Barber. Senator Fairbanks of Indiana is expected in the city Monday. He will confer with the president, but will probably be a guest at the home of Judge Day.

WARRANT FOR CATTLE KING

Edward Swazey of Lansas City Charged with Being Second Grant Gillett.

KANSAS CITY, July 29 .- A warrant has een issued for the arrest of Edward L. Swazey, charging him with intent to defraud by selling to the Third National bank of Springfield, Mass., a mortgage of \$7,-259 on 261 head of cattle owned by J. H. Kenney of Hemphill county, Texas. It is alleged that Swazey represented that the mortgage was a first lien, whereas it was second lien. If true the operation is identical to those performed by Grant Gillett, the Kansas plunger, who remortgaged cattle to the amount of over \$1,000,000. Gillett crossed to Old Mexico, where he has

since resided.

According to a report from the office of the Bankers & Cattlemen's Protective association, the Swazey irregularities approximate \$79,000. Until the time of its financial collapse, three months ago, Mr. Swazey was a member of the local commission firm of Ladd, Penny & Swazey. The firm did a general cattle commission business at the stock yards. The loss is said to be generally distributed among banks, some of them in the east, so that it is not heavy on any one person or concern. Swazey

At the time of the failure of the cattle firm of Ladd, Penny & Swazey, it was impossible to discover the amount involved, especially as the company did business over such a wide range of country. "Mr. Swazey was the financial man of the firm. He handled all the paper and had exclusive control of that department of the firm's business. In the latter part of June we discovered that we had become overloaded with paper and it was then that Mr. Swazey informed us of certain big loans made in Oklahoma, which proved to be bad. This was a short time before his mind collapsed, which I believe was caused from worrying over these bad loans. His failure to inform us of the threatened financial crisis was probably due to his proud disposition, rather than any intentional wrong. Scon after Mr. Swazey suffered the colapse of his mental faculties he was taken to Chicago. I later heard that he had been placed in an asylum in Maryland."

The Journal tomorrow will say: "Derelopments in the alleged embezzlement of E. L. Swazey indicate that he has been operating on a much larger scale than was at first supposed and that the aggregated fraud may run up into the hundreds of thousands. Stockmen and others who know the status of the case comparatively well say that other arrests will follow if Swazey
