CROP REPORTS SOUND TOO CHEERFUL

Corn and Oats Unable to Overcome Strong Sympathy with Wheat-Provisions Spend a Rather irregular Day.

CHICAGO, Aug. 2 -- A decline of ic tool was withdrawn from the market, more favorable crop reports, disappointing cable and liberal receipts at primary points dampening the enthusiasm of traders. Corn was also weak on favorable crop news and declined &c. Oats closed &c lower. Provisions were irregular, lard declining 25-c. while perk advanced 125gc and ribs 25gttic Wheat opened with a material decline, initial trading in the September option ranging from 754c to 754c, compared with yesterday's closing price of 754a754c. Liverpool cables, showing little or no advance at that market, were disappointing to local at that market, were disappointing to local traders. In addition to this crop reports were more cheerful in tone and weather conditions were ideal for harvesting operations. Liberal receipts at primary points added to the depression. Yesterday's buyers were prominent in the early selling, which, however, soon ceased. The local demand improved enough at the decline to impart some temporary firmness to the market. September advancing to 157sc, but when closing Layerpool quotations showed. to impart some temporary firmness to the market. September advancing to 75%c, but when closing Liverpool quotations showed a deciline of 56%d the market again turned weak, and from that time until the cose of the session the tendency was downward, although sculping operations, which made up the bulk of the trading, resulted in several unimportant railies. There was but little demand for wheat until September had declined to a point below 5c, when the market again received support, but not enough to cause any substantial improvement, although the market became fairly steady toward the close. September gradually declined to 75%c and was quoted at 75%g/7%c at the close. Northwest receipts were 25 cars, against 235 hast week and 2.0 a year ago. Chicago receipts were 255 cars, 42 of contract grade. Total primary receipts were 75,000 bu, compared with \$23,000 bu, a year ago. Alamile port clearances were large—61,000 bu. A good demand was rejorted for new wheat and estimates of the amount worked ranged as high as 50,000 bu. An increase of about 1,00,000 bu, was looked for in the visible.

Corn was weak and lower all day and very dull. There was some sympathy with the wheat decline, but independent of this weakness was caused by the extremely favorable crop reports and corn ripening weather. Shipping business was stack both here and at the scaboard. Longs were 281 cars. September ranged from 37%c to 30 cand

here and at the scaboard. Longs were sell-ers of futures. Local receipts were 281 cars. September ranged from 374c to 38c and closed %c lower at 375c.
Oats were dull and a trifle easier, though the decline was small in view of the weak-ness of other grains. The cash demand continued to show improvement and this had a tendency to steady the speculative market. Country offerings, however, were liberal and elevator become were sellers. market. Country offerings, however, were liberal and elevator people were sellers. Shippers were the best buyers, Receipts were 25 cars. September ranged from 21% to 21% c and closed % lower at 21%. Provisions were fairly active and irregular. Early in the day the market declined all around, there being some disappointment over the small decrease in stocks. Weaker hog prices also had some influence. Later quite an active shipping demand for pork sent the price of that commodity up sharply and other meats followed, though lard did not entirely recover. The close was steady, September pork 12½c higher at \$12.20, September lard 2½c lower at \$5.51½cz.50 and September ribs 2½cc lower at \$5.51½cz.50 and September ribs 2½cc lower at \$7.17½.

Estimated receipts Friday: Wheat, 250 cars; corn, 250 cars; oats, 350 cars; hogs, 7½c.

The leading futures ranged as 6.75c. eaker hog prices also had some influe The leading futures ranged as follows:

Speculation in Baltimore & Ohio

Stock Not as Active as Expected. NEW YORK, Aug. 2.—The small amount f business done on the Stock exchange today was almost wholly concentrated in four stocks. In none of the four did the net change exceed by Baltimere & Ohlo showed the nearest appearance to animal tion and covered an extreme range of over 2 points, but it closed with a net loss of 2 points, but it closed with a net loss of 3 and was slightly below the London parity. The hope of an active speculation in anticleation of the dividend was quickly abandoned and the stock slipped back into a rat of duliness near to last night's price level. The action of the directors in providing for two semi-annual dividends of 2 per cent each was quite unexpected, as only one had been definitely promised. There was a slight flurry and some fever-ishness in the shares as a rule, but a downward course ensued on offerings of 8 some heavy blocks which looked like realizing. This carried the stock to 74%, which was the low point of the day. Apparently the realizing breame lighter below 75 and the room shorts covered, causing a slight raily. The friends of Union Pacine then attempted to make use of the discrepancy in the prices of that stock and Baltimore & Ohio both paying 4 per cent dividends and by a few large individual transactions gave Union Pacine a place in the active list. But this move quickly subsided.

There was some strength in Sugar and in Brooklyn Transit, the first being a few control of the discrepancy in the processor. net change exceed is. Bultimore & Ohio

SHEEP—The supply of sheep was a little more liberal than it was yesterday, but the domand was greater than the supply. So that the offerings were picked up at an early hour. Lambs sold about 25c higher than they did yesterday, a string going at 50.75 that brought \$5.50 yesterday, and another string sold at \$5.55 but they were in extra good condition. Sheep were also in active demand and sold at good, strong prices, generally a dime higher than yesterday.

Dry Goods, Furnishing Goods Stock in Sight. 

Failures for July. NEW YORK, Aug. 2—Reports to R. G. Dun & Co. show commercial failures in July 793 in number, with liabilities of \$9,771,755. Of manufacturing concerns there were 183 defaults, amounting to \$5,177,62, and of traders 550, with \$3,321,366 Habilities. The total last month was about double that of the same month last year, but it must the same month last year, but it must the same month last year, but it must be remembered that failures in July 1890, o were the smailest, with one exception, of any month of the eighty-two for which de-tailed statistics have been published by this concern. this concern.

Canadian failures in July were 21 in manufacturing for \$25,514, and 70 in trading for \$453,532, with only one other commercial for \$400, a total of 22 failures for \$706,546.

Dry Goods Market.

NEW YORK, Aug. 2.—DRY GOODS—
There has been rather more general business in progress today with no change in quotations. Heavy brown sheetings and drills and fine brown sheetings, easy, but print cloth yarn goods firmer. Wide sheetings, in moderate request at the reduced prices. Bleached muslins, quiet but steady. Denims, ticks, plaids and other coarse colored cottons, dull and irregular. More business doing in prints. Demand for woolen goods continues quiet. Dry Goods Market.
