regarded here as a bad sign. Simultaneously with Mr. Goodnow's dispatch came a characteristically diplomatic meesage from Yuan Shih Kai, the governor days ago that the Chinese government was arranging to deliver the ministers in safety at Tien Tsin. No effort is made to reconcile that statement with Earl Li's refusal

to allow communication with the ministers. General Chaffee's meseage as to the unexpected resistance of Chinese reconnaissance is regarded by military men here as forecasting a greater degree of resistance to military movements than had been expected and they are now satisfied that Chiness troops will furnish majerial for at least one severe battle before the way is

clear to Pekin, Army and Navy to Co-Operate.

The Navy department today issued an order for the co-operation of its officers abroad with the officers of the army in landing and transporting troops destined to Chinese service. This revives the situation that existed in Cuba when Shafter's army a steamer. There they witnessed the dewas landed largely through the efforts of struction of the Taku forts. The terrific

It is thought in the department that the navy can lend considerable assistance to General Chaffee's efforts, not only in landing the army, but possibly in furnishing them transportation if a move is made along the Pel Ho.
