

GOES AFTER ANOTHER TRUST

Attorney General Smyth Assails Nebraska Grain Dealers' Association.

BEGINS PROCEEDINGS IN CRIMINAL COURT

Complaint Filed Against Secretary Bewsher, Who Pleads Not Guilty and is Released Without Bail.

Attorney General Smyth filed a complaint in the police court Monday against A. H. Bewsher, secretary of the Nebraska Grain Dealers' association, charging him with violating the anti-trust law by seeking to control the price of grain throughout the state.

A significant feature of the case is that Bewsher, although formerly a democrat, had been telling his friends that he was going to vote for McKinley and against Bryan this year and that his position on this question is well known, but whether this fact had anything to do with selecting him for criminal prosecution is not known.

The eight counts are as follows: First, he is charged with conspiracy to form a trust for the control of the grain trade; second, with conspiring to form a trust for fixing the price of grain; third, with being a member of a trust for controlling the grain trade; fourth, with being a member of a trust for fixing the price of grain; fifth, with aiding and abetting a trust for controlling the grain trade; sixth, with aiding and abetting a trust for fixing the price of grain; seventh, with issuing orders and fixing rates in pursuance of a trust for the control of the grain market; eighth, with issuing orders and fixing rates in pursuance of a trust for fixing the price of grain.

It is set forth in the complaint that the Nebraska Grain Dealers' association controls all the grain elevators in the state and that the prices are fixed from the central office in Omaha. "Let us suppose there are two elevators in one town," said Attorney General Smyth, "there is no competition between them. The prices they sell pay for grain are regulated by the association of which they are members. If, at the end of the month, a comparison of their business shows that one elevator has bought more grain than another, a balance is struck between them, whereby the latter is paid for the share of business it failed to get. In this way competition is stifled. An independent elevator or grain buyer cannot do business in Nebraska because he can't find a market for his grain. Any market buying his produce is promptly blacklisted by the association."

LOTTIE IN TOILS OF LAW

Young Woman Who Worked Upon Affections of Yonkers to Their Undoing is Caught at the Circus.

After two years' work the United States marshal has succeeded in arresting Lottie B. Cooper, who was indicted in 1898 for using the mails for the purpose of fraud. The woman's scheme is an old one, but it still works. As a charming young woman with a fortune, it is alleged, she advertised for a husband to take charge of her property. Lottie couldn't work the scheme alone, as her fortune did not lie in her face. So she had a confederate who supplied the pictures. When an answer to her advertisement was received she would reply, sending her friend's photograph. When the day for the wedding was set Lottie would find herself short of cash and the prospective groom would be asked to send \$50 which would be repaid when the parties met. They never met, for, on receiving the coin, Lottie would quarrel with her lover and write one last letter telling him she had been deceived and would disappear to mourn in retirement.

The men taken in by the scheme seldom complained, but from a small postoffice in Kansas came a report that the woman had been working in that neighborhood. She was in Nebraska City then and her detained lover was prevailed upon by the postoffice inspectors to tell what he knew. When the officers went to Nebraska City, Miss Cooper had flown. She was located here Saturday and arrested just as she was leaving the circus grounds. A young woman and a farmer of Cass county are with her and will secure her release on bond.

SUPPLYING SOLDIERS' STORES

Omaha Falls to Get Its Fair Share of Business in the Orient.

THIS CITY HAS VALUABLE TIME ADVANTAGE

Packers Have Made Use of This Handicap to Secure Large Share of the Klondike Trade—Movement of Supplies is Increasing.

"For some reason or other," said an Omaha commercial traveler this morning, "Omaha is losing trade which should be deflected to this city and as it is a strictly cash trade it is worth going after. I refer to the supplies for the United States army now in the Philippines, Alaska and Alaska." "The stores sent to these places are generally purchased at San Francisco and Kansas City, the latter place getting the larger share. This trade could with a little effort, I think, be brought to the headquarters of the Department of the Missouri and it would mean thousands of dollars each quarter added to the bank account of the Omaha wholesale houses and meat packers. The stores purchased at Kansas City are known as staples, including salt pork, flour, sugar, canned goods and personal supplies, purchased by the commissary department. The purchases advertised for at Omaha include only the goods to be consumed within the department when a little effort on the part of the Commercial club or prominent business men would bring into this market the trade of the government in supplying the armies in the Orient.

"Omaha has one advantage over Kansas City in this matter and that is that goods shipped from here can be landed at Pacific coast points sooner than when shipped from the mouth of the Kaw. Merchants in the Alaskan territory realize this and the Omaha packing houses are now supplying more preserved meat for Cape Nome, Dawson and other northern points than any other source of direct supply outside of Chicago, while they are crowding the leaders in the Orient.

The movement of supplies through Omaha for the army in the Philippines and in China is increasing. Sunday afternoon eighteen carloads of wagons intended for the transportation service in those countries arrived from Jeffersonville and were forwarded to San Francisco. Every day large quantities of khaki clothing have gone west by express and fast freight.

Colonel Hathaway, chief quartermaster, is visiting Fort Robinson and Niobrara on a tour of inspection. A large number of troops at the several posts of the department is making additional work for the quartermaster's department, as buildings and supplies have to be protected from destruction while not in use. The property lost at a semi-deserted post is often greater than the cost of maintaining a full quota of troops for the length of time the troops are gone.

Frederick Fleishman of Manly, Neb., has been appointed watchman at the army building, vice Slinger, appointed messenger.

In New York City there is a druggist who no doubt will bring a damage suit against a doctor for damaging his reputation. Here's the story: A doctor wrote a prescription which a druggist filled. The doctor sent the medicine back with his patient, stating it was not properly compounded. The druggist called on the doctor and asked for an explanation. The doctor told him: "The druggist proved to the doctor that his prescription would not make any different mixture than what was put up in the first place. The doctor still continued to tell his patient he wasn't competent. Now comes the druggist, backed by the manufacturer of the ingredients, and says the druggist was right and the doctor was mistaken. Hence the suit. Now, why did that doctor continue to tell his patient that this druggist made a mistake? We will try to help you and say the druggist that filled the prescription was not the one that was supposed to get it in the first place.
