MUST TALK OR GO TO JAIL

Uncle Sam Will Tolerate No Snubs from Refractory Iron Worker.

DEMOCRAT KEEPS HIS AFFAIRS TO HIMSELF

ensus Bureau Gives Headstrong Witness Another Chance to Divuige the Facts Before Proceeding to Final Measures.

There is one consistent democrat in Omaha who is not going to be guilty of giving aid and comfort to the opposition even if he has to go to jail to carry out his will. This person is a sheetiron worker who runs shop in the northern part of the city, and his opposition to the government is shown in his responses to the inquiries of the special agent of the census department charged with securing information relative to the

manufactures in this territory. When the enumerator called upon the tinker the following dialogue ensued: "I'm the special agent of the census bureau and I've called to ascertain the facts in relation to your business."

"I've no information to give the census bureau. "But it is a matter required by law and I

must have the information. "If that is so, get it the best way you can. I won't have anything to do with Mc-Kinley's administration. You fellows are not out to get the facts and I won't tell you

anything." "But if you do not answer it will be my duty to turn the matter over to the Department of Justice."

"Turn and be hanged to you. I wen't answer any of your questions and if I go to jail I can stay there." That settled it and the matter was referred to Washington. The bureau has acted and the man will be given another opportunity, refusing which he can become

a martyr to the cause of ignorance,

Cignr Denier Wenkens. This is the second case of the kind which has come to the attention of the bureau from the Nebraska district. The first man to refuse to make reply was a cigar manufacturer in a Nebraska town. The matter was referred to Washington, but before a reply was received the manufacturer had consulted an attorney and learned his mistake. The train which carried the matter to Washington brought to Omaha a letter from the Nebraska town asking permission to answer the questions and before the math ter was settled at headquarters the manufacturer had offered to pay all expenses of the appeal if the agent would accept his

replies and let the matter drop. Persons who were connected with the taking of the population census of Omaha declare that the reports sent out from Washington recently in relation to the population of Omaha are inaccurate. The figures from the department, they say, were probably taken from the first forty schedules received and compared with those of ten years ago. These first schedules approximated closer the corresponding schedules of 1890 than any of the others.

PLEA FOR HOME OWNERSHIP

Ideal City Would Be One in Which Every Resident Had a Home of His Ows.

At the regular weekly meeting of the Real Estate exchange yesterday John S. Knox read an interesting paper on home ownership in which he expressed the opin-& Quincy Railroad—"The Burlington Route"—Ticket every home should be owned by its occupant. He urged that the home owner makes Office. 1502 Farnam St. pant. He urged that the home owner makes the most patriotic, honest and loyal citizen, and that therefore it is the duty of real estate men and the public press to use every effort toward inducing every family to own

The sentiments expressed in the paper met the hearty approval of the members of the exchange. It is the intention to have at least two short talks on current real es-tate topics at each meeting of the exchange. and at the next meeting Mr. Seely will discuss the present and future of Omaha business property and Mr. Frenzer the law on

in sight yet," remarked Forecaster Weish yesterday. "Every indication points to thunder storms and showers, but as long as the barometer is low northwest of us we may expect warm weather." For a week or more the temperature has

been excessive in the Dakotas, Wyoming and Montana, and the mercury was generally higher in that part of the country-Tuesday than for the day before. The local weather does not promise much relief from a thunder storm with existing conditions, as a period of excessive humidity can be expected to follow.
