PROPERTY LAID IN RUINS

Great Damage Done by Heavy Windstorm at Lawrence.

HOME OF NELSE DICK IS COMPLETE WRECK

Churches Are Moved from Their Foundations and Fronts of Buildings Blown In—No Loss of Life Has Been Reported.

LAWRENCE, Neb., Aug. 24.—(Special.)—The worst storm for years visited this place about 9 o'clock last night. The wind approached the velocity of a hurricane and a vast amount of damage was done.

The Baptist church was blown about four feet from its foundation and is badly wrecked. The dwelling house belonging to Nelse Dick is a complete wreck, hardly two boards being left together. The family that lived in the house was at one of their neighbors visiting and no one was hurt. J. K. Dooley's barn is blown to pieces and house badly wrecked. The front on C. T. Austin's new brick hotel is blown off and the building damaged. The implement house of Sherey & Cole was badly wrecked.

The large corncribs belonging to the Duff Grain company and T. Cole are literally torn to pieces. The Methodist Episcopal church is badly damaged. Awnings from T. S. Jackson's, Charles Neeland's and L. Wike's buildings were blown off and fronts badly damaged.

Scarcely a small building, corncrib or building is left standing in this place and it is feared that the storm was worse a few miles south. About one-half inch of rain fell, which was badly needed.

Windmills and Grain Destroyed.

NELSON, Neb., Aug. 24.—(Special Telegram.)—One of the severest wind and electrical storms in recent years passed over this section of Neokosh county last evening about 9 o'clock. The residence of George Norwood, a farmer living four miles north of here, was struck by lightning and burned to the ground, together with all the contents. A large barn belonging to John Seafeld, which was almost completed, was completely wrecked. His outbuildings and windmills were blown down and scattered to the winds. A large number of windmills were laid waste. Fortunately, no lives were lost.

AINSWORTH, Neb., Aug. 24.—(Special.)—During the last twenty-four hours Brown county has received a three-inch rain. This insures the largest corn crop and potato crop in the history of this county. Hay and all grains are full crops. Corn is estimated at from 40 to 45 bushels to the acre.

BERTRAND, Neb., Aug. 24.—(Special.)—A heavy and destructive storm struck this place and vicinity last night, raging furiously between the hours of 7 and 10 o'clock. Three windmills in town were blown over and the gable end of F. D. Child's livery barn was carried out by the wind. The fire bell tower, forty-four feet high, started to go over, but was rescued and guyed with ropes in the midst of the storm. Two inches of rain fell, accompanied by hail. No reports from the country have come in, but it is believed extensive damage was done by the wind.

Friend Suffers from Wind.

FRIEND, Neb., Aug. 24.—(Special.)—This place and vicinity was visited by one of the most destructive storms in its his-

tory at about 10 o'clock last evening. The wind came from the west, veering a little north of west and was not in the shape of a twister, but at times assumed a velocity of eighty-five miles per hour. The Seeger house is badly damaged, roof and cornice stripped off and most of the windows in both stories broken. Frank Hacker, who occupies one of the store rooms, had his stock badly damaged. One side of his store was filled with valuable lamps and they were swept from the shelves and broken. The Hotel Coronado is somewhat damaged and a portion of the west wall of Warren's block is blown down. Nearly all of the east wall of the building occupied by F. A. Moore as a pump repair house was blown down. The roof of Richard's livery barn was blown off, the steeple was blown from the Baptist church and W. H. Brown's barn was leveled to the ground. The residence of V. Stark, a farmer northwest of town, is so badly wrecked as to be untenable. Hardly a window is left standing and reports as they come in from the surrounding country indicate that hardly a farmer escaped some damage. But few accidents to residents are reported. During the storm the family of H. P. Schmidt took to the cellar and he not knowing that the door was open, fell down the stairs, breaking a bone in his right wrist, besides receiving other injuries. N. B. Murray, a farmer residing four miles south, went out during the storm to close a shutter and was hit in the back of the head by a flying missile and from which he received a severe cut. It is impossible at this time to give anything like a list of the damages or the extent of the storm, as reports are continually coming in.

Weeks Around Fremont.

FAIRMONT, Neb., Aug. 24.—(Special.)—A strong windstorm visited this vicinity last night about 9:30 o'clock. The day had been very warm and dark, ominous clouds began to gather about 6 o'clock in the west, but the wind changed from the south to the north and west about 9:30, accompanied by a most terrific wind, which leveled shade trees, corncribs and windmills. Thirty per cent of the windmills in this vicinity were wrecked.

SHELTON, Neb., Aug. 24.—(Special.)—The hot, dry weather which has prevailed for two weeks past came to an agreeable end last evening at 5 o'clock, when a nice shower came up and cooled the air and later in the evening rain came down in torrents. Fully one inch and one-half of water fell and a heavy wind accompanied by much thunder and lightning, prevailed for two hours. This morning the ground is soaked in splendid shape for fall plowing and sowing.

EDGAR, Neb., Aug. 24.—(Special.)—A storm of considerable magnitude broke over this part of Nebraska last night about 9 o'clock. The rainfall was heavy for an hour, then gentler for several hours. The precipitation amounted to nearly three-quarters of an inch. Heavy wind and brilliant lightning preceded the rain. The rain was very welcome, as the drought was becoming severe.

Corncribs a Freight Car.

PLATTSBURGH, Neb., Aug. 24.—(Special.)—A terrific electrical storm, accompanied by heavy rain and hail, struck Plattsburgh at 10:20 last night, and the rain continued to fall until morning. The entire roof was blown from a car, which was loaded with merchandise and in fact freight train No. 76, a few miles west of this city. The car was set out of the train at this place. The hail cut the leaves from the stalks of corn in the fields, but it is generally believed that very little, if any, damage was done to the corn.

GIBBON, Neb., Aug. 24.—(Special.)—A

fine rain fell here yesterday evening and during last night. It is too late for corn generally, but is fine for plow planting and pastures. The most of this month has been very hot, with frequent showers and the change is most acceptable.

CRETE, Neb., Aug. 24.—(Special.)—A very severe windstorm visited Crete and vicinity last night. At 10:30 p. m. the wind began to blow strongly from the southwest. The wind was accompanied by vivid flashes of lightning, but no thunder. At 10 p. m. the wind was blowing at a rate of about sixty miles per hour. Many trees were blown down and much damage was done to grain and hay stacks. About a quarter of an inch of rain fell. The total precipitation was over one inch. Since the storm the weather has been cool and comfortable.

Church Badly Damaged.

OHIOVA, Neb., Aug. 24.—(Special.)—Ohiova was visited last night about 10 o'clock by the most destructive windstorm in the history of this region. The storm came from the northwest and was accompanied by a heavy rain. Many buildings were moved from their foundations, among them the United Brethren church, which was considerably damaged. Summer kitchens, shedding and outhouses were generally demolished and scores of windmills destroyed. There is little to indicate that the storm was other than a straight wind. Nearly every structure affected was blown to the southeast. Grain stacks suffered materially and corn fields are pretty generally leveled to the ground. The storm was tough on children, many of them blowing down. Objects were lifted and carried great distances. A citizen, not at all musically inclined, found a snare drum in his front door. There was no loss of human life and not one injured.

Lincoln.

LINCOLN, Neb., Aug. 24.—(Special.)—Lincoln was visited by another windstorm last night and for awhile people feared a repetition of the storm of a few days ago. Rain fell in torrents, measuring over an inch in this city and considerably more in other sections of Lancaster county. At Aurora and Grand Island the rainfall measured two inches. The following precipitation at various points is reported by the United States weather bureau:

Table with columns for location and precipitation amount.

Tetter—No Cure No Pay.

Terrible Distress in India.

NEW YORK, Aug. 24.—The committee of 100 on India famine relief received a cablegram today from William P. Reilly, U.S. consul at Bombay, chairman of the American famine relief committee, which reads:

Famine distress appalling. Thousands will die of starvation unless relief money is sent to buy both food and blankets. The suffering among the starving is terrible. The condition of destitute women and children specially pitiable. Many boys and girls are in heart-rending need.

South Omaha News.

The democratic caudron continues to seethe and boil and bubble in South Omaha, with no immediate prospect of abatement. The Bryan-Stevenson club is still firm in its determination not to allow the Bryan club the glory, or even a share of it, of feasting Mr. Bryan tonight, and the Bryan club, in a spirit of retaliation, declares that it will defeat the success of the entertainment. It seemed the general impression yesterday that whichever of the two clubs was successful in this fight that club would obtain the supremacy over the other during the coming campaign.

The statement published yesterday that the banquet to Mr. Bryan is to be a non-partisan affair is a myth. Not a business man could be found yesterday who would sign the resolution of the meeting in this light. The republican members of the council said that they would not attend the banquet, and Mayor Kelly said that the report that he intended presiding at the meeting is absolutely false. True, he said, he is going to attend, but he will be a guest or honor, and not a participant in the exercises. He said he would not even do this were it not for the urgent solicitation of certain members of the Bryan-Stevenson club, who asked him to go as a personal favor. And for this reason only, says the mayor, he will participate in the choice viands that will possibly be obtainable for 50 cents at the Exchange dining hall tonight.

Certain complimentary tickets were yesterday sent out in letters neatly worded, written on Bryan-Stevenson club stationery, signed by the president of the club, which related that "the Bryan-Stevenson club" extended the invitation and desired the individual's presence. Some of these were sent to members of the Bryan club, but the letterhead seemed to hurt their feelings and they said they would not go. The women's committee originally appointed consisted wholly of wives of the Bryan-Stevenson club members. Mrs. W. S. White, who is a warm personal friend of Mrs. Bryan, the two having been girl chums, was not originally placed upon this committee. Last night, in order to more fully smooth out the mass of wrinkled arrangements for the Bryan banquet, Mrs. White's name was added to this committee. As soon as notified of this Mrs. White politely, but positively, declined to serve.

The objection that has arisen yesterday to the sole topic of conversation originally given in democratic circles. Committees were called together to attempt to patch up a truce, but no sooner had a truce been formulated than it was torn to pieces by factional disturbances. E. P. Smith of Omaha was called on to oil the troubled waters. He saw the leaders of the Bryan-Stevenson club and informed them that they must immediately desist from the attempt they were apparently making to cover themselves with individual glory, or that Bryan would have nothing to do with any of them tonight. The Bryan-Stevenson club gave Mr. Smith to understand that they are to be the whole thing or nothing, and his parting shot was that they would undoubtedly be without their "distinguished" guest tonight.

To Pay a M Street.

J. H. Bulla was yesterday circulating a petition for the paving of M street from Twenty-fourth street to the river. He says he has secured almost enough names
