the week, but on the common grades the week closed with values all of 10%156 lower and in some cases more than that. The receipts of cattle for the week were, of course, composed largely of western range cattle, the bulk of which were on the feeder order. Packers bid on a good many bunches, which they falled to get owing to the fact that feeder buyers would pay more for them than they were willing to give. The better grades of killers are close to steady, the same as corn cattle, while the poorer grades are probably 10% be lower for the week. Good cows held about steady all the week, but the common grades were not so good at the close of the week as they were at the opening by 15%25c.
