HAYDEN BROS.

DEMOCRATIC FIGHT STILL ON

Committee Organization and Machine Control the Contention Bone.
PRIMARYS EVIDENTLY ONLY A STARTER
Scandalous Circular Issued by Harry O'Neill Denounced in Unmeasured Terms by Opponents.
Although the Howell committee faction was decisively victorious in the democratic primaries it does not appear to be settled conviction that the Howell committee, against the recent creation of which the old committee, with Charles Fanning at its head, has been protesting, will not be asked to step out and give place to an entirely new committee.
Harry Miller doubtless speaks the sentiments of the Fanning faction on that subject. He says:
" In spite of our defeat in the primaries our contention for a reorganization of the county committee will, in my judgment, go through at the convention, and if it does it will lead to disorganization in the democratic forces. If that unfair action of the convention in Osthoff's hall is enforced and the county committee then chosen is allowed to hold on, the party will be demoralized and its ticket will be in danger of defeat.
We have no complaints to make of the result of the primaries in general. We submitted the questions involved and were beaten out. It was fairly done in all respects but the Fifth. I want to protest against the action of Harry O'Neill in that ward in sending out a circular denouncing Charles Fanning and falsely conveying the impression that Mr. Fanning was an aspirant for the chairmanship of the committee. It also declared that leading republicans were in sympathy with the Fanning cause, which is notoriously false. I expect to support the ticket nominated by the convention tomorrow, and uphold its action, but we are opposed to the nomination of Harry O'Neill for the office to which he aspires and we will oppose him to the bitter end. The party cannot afford to nominate him after his unmanly and cowardly course in the Fifth ward primaries. We have never gone into a primary in which we have not been as-

READY TO BEGIN CAMPAIGN

General O. O. Howard Arrives in Omaha and Reports for Duty.
CONFIDENT OF REPUBLICAN SUCCESS
Says Bryan's Adherence to the Cause of Free Silver Has Made It Impossible for Him to Carry New York.
Somewhat to the surprise of the republican state central committee, General O. O. Howard arrived in the city yesterday from Chicago, arrangements were at once made for him to occupy part of the program Saturday night, when the first important meeting of the campaign in Omaha will be conducted by Senator J. C. Burrows of Michigan. The national committee was at first only able to send General Howard to Nebraska during Ak-Sar-Bien week and the local committee had therefore disposed of dates at towns in the state. Senator Burrows' voice, however, shows signs of yielding to the continuous straits and General Howard was assigned to help him out. The double attraction of Senator Burrows and General Howard, it is believed, will overtax Creighton hall, where the meeting will be held, but no arrangements could be made at this date for a suitable hall for an overflow meeting.
General Howard is well known in the city from his residence here while commandant of the Department of the Platte, and was nothing loth to spend a few days here to renew old acquaintance. He proposes to work as hard during the present campaign as he did four years ago, when he accompanied a trainload of other civil war veterans throughout the country. He has already delivered a dozen addresses in West Virginia and six in New York and will spend the rest of his time in the west, leaving New York on Tuesday, General Howard spoke Thursday noon in Chicago before an immense audience. He left at once for Omaha and will remain here until Monday.
Meetings Largely Attended.
"All the meetings which I have attended since I left my home in Vermont," said General Howard, "have been largely attended and there has been no sign of a dissenting feeling. Four years ago there were often disturbances in meetings, but now there seems to be little agitation among the radical democrats. The principal plea which I have made to the people is that just now we are in the throes of a world crisis and we have able men to play a part for the United States. We know that McKinley is the equal in diplomacy of any statesman on earth and there is a vital danger in putting a new and untried man in the helm just when there are a dozen critical questions to be settled. If the change of party power should come, four years from now it might be a less important matter, but just now we want wise and experienced heads to plan the course."
After his tour of Nebraska, stopping at David City, Milford, Howard, Bradshaw and Sterling, General Howard will proceed to the Dakotas and later to Kansas. He will remain at his task until election day. General Howard remarked that the city had taken on a metropolitan appearance since he assumed command of the department offices in the Strang building on lower Farmington street. For four years General Howard served continuously in this department with the exception of twelve months, when he went to Europe, leaving affairs in the hands of General Gibson. He was later transferred to the Pacific coast, where he was retired.
A no less important attraction than Gen-

NOT TOBACCO But Coffee Was the Cause of the

An old veteran from Springfield, Mass. made a curious experiment in the use of tobacco and coffee. He says: "I have been an incessant smoker for forty years, using at times twenty cigars a day, besides several pipes. I was also very fond of coffee.
In 1882 I noticed my stomach was becoming weak and that I could not retain my breakfast. Within six months afterwards I had arrived at that stage where I vomited up the food I had eaten each week. The doctor claimed that the sickness was caused by smoking, so I went under the care of Dr. Barbauld of Spencer, Mass., who cured me of the tobacco habit. For eight months I refrained from its use, but the vomiting still continued.
" My physician then attributed it to catarrh so I carefully dosed myself with the catarrh cures, but the vomiting became more severe, though not more frequent. I therefore concluded to resume my smoking and get as much comfort as possible, but just now we want wise and experienced heads to plan the course."
"Quite a time after that I met a friend who in one minute put me on the right track, by telling me that he was satisfied that it was coffee that caused my trouble. I stopped drinking coffee, and within a week the vomiting ceased entirely.
"Shortly after that I took to using Postum Food Coffee and found it filled all the requirements of coffee. My family are using it regularly and I, as well as the best Java coffee, after becoming accustomed to its use. We know from practical experience of the beneficial effects of Postum Food Coffee. Please omit my name." Name and address can be given by Postum Cereal Co., Ltd., Battle Creek, Mich.

IN THE DARK AS TO THE LAW

Judge Shiras Finds Against Stann, but Asks Supreme Court for Light on Several Points.
Judge Shiras of the United States district court decided the case of Thomas L. Sloan against the United States in favor of the defendant on a motion to dismiss for want of jurisdiction. In rendering this decision the court certified the case to the United States supreme court for the purpose of securing final decision upon some questions where the law is ambiguous. The first question propounded to the supreme court by the district judge is whether he was right in dismissing the case, or he asks whether the act granting the lands in severity to the Omaha Indians confers jurisdiction upon the circuit court to determine such cases as may be presented under its terms, and whether the court would have jurisdiction when the suit is brought against the United States alone to the exclusion of the Indian tribe and all other persons.
MCCARTY MUST STAND HIS FATE.
Washington Authorities Can See No Reason for Clemency.
A petition for the release of John McCarty from the Sioux Falls penitentiary was forwarded to the United States court officers from Washington, where it had been sent by residents of Sully county who have undertaken to secure the release of the coinmaker by executive clemency. The petition was returned without approval, as all of the court officials believe that the counterfeiter is receiving no more than he deserves.
At Sioux Falls it is said that McCarty cannot survive his imprisonment, as he is affected with a disease of the heart which the confinement aggravates.
COURT NOTES.
Judge Munroe rendered an order adjourning the October term of federal court at Lincoln to October 8, and the jury is to be called to assemble October 10 at 1 o'clock.
Johna Froderberg has filed suit asking that his residence at the Axel Froderberg, London, England. She says her husband has abandoned her and has neglected to contribute to her support.
In Judge Pawest's court the sale of the assets of the Nebraska Savings bank is still in progress. Yesterday morning lots in Vandover Terrace were disposed of, bringing prices nearer to the real value than property sold previously. The sale of bond judgments and mortgages will begin tomorrow.
Alexander I. Henderson, an employee of the Union Pacific, has filed suit against John Elliott, a motorman, seeking damages in the sum of \$5,000. He alleges that on July 18, 1900, he was violently assaulted by the bones of his right cheek and jaw, inflicting his constant and distinguishing disfigure for life. The men had a fight on Walnut Hill.
SENATOR STEWART TO SPEAK
Will Address a Mass Meeting of Republicans at Creighton Hall Next Monday Night.
The second big rally of the republicans of Omaha will be held in Creighton hall next Monday night, when Senator Stewart of Nevada will be the principal speaker.
Four years ago, it will be remembered, Senator Stewart was among the most tireless workers for the election of Mr. Bryan. Not only did he give up his time to advocate the election of the fugitive leader on the stump, but it was reported at the time, was also a liberal contributor to the democratic campaign fund. The fact that this year he is working for the re-election of President McKinley gives an added interest to his appearance in this city and there is little doubt that he will be greeted by an immense audience.
Garland Stoves and Ranges
were awarded highest prize at Paris Exposition, 1889.

ROUTE OF THE SUBURBAN LINE
Committees Are Engaged in Marking Out Course to Be Submitted to County Commissioners.
Committees are busily engaged in making plans for the proposed Douglas county electric line and expect to have them ready for the examination of the county commissioners within ten days. Before submitting to the voters of the county the \$250,000 bond proposition it is necessary to publish the matter officially at least thirty days previous to the election. The route will be outlined and the complete plans will be published in time to submit the proposition at the November election.
V. O. Stricker, who represents a number of farmers along the proposed line interested in the matter says that a local company has been organized to push the project and that the complete plans will be announced in a short time. Rival towns are seeking the proposed line and experts have been called upon to determine the most desirable route.
