HOGS—There was not much difference between the supply of hogs here today as compared with yesterday, but the quality was not as good as on Tuesday. Packers started out budding no more than steady with yesterday's general market, but sellers did not cut loose freely and they had to raise their hands a little. The bulk of the hogs changes hands at steady to stronger prices and the market seemed to gain a strength as the morning havaneed. Good light hogs sold from \$5.296.25 and go did light hogs and prime heavyweights sold largely at \$5.174 and \$5.20. Buyers do not seem to take into consideration the weight of the hogs as much as they do the quality, and there is now only about a nicker split between good heavy hogs and good light hogs. Common light stuff, as well as coarse worth what packers are a mind to give for them.

CHEYENNE, Wyo., Oct. 3.—(Special.)— "Wyoming is prosperous," said State Bank Examiner Harry B. Henderson today. "The deposits in national, state and private banks in the state on September 5 exceed those of any previous corresponding date and every institution shows a marevelously healthy growth during the last two or three years." The increased deposits in banks is an im-

portant fact to be borne in mind by the people of this state, for it is a fact that caunot be denied in light of the verified financial prosperous times and will show their appreciation of the present government, both state and national, by voting the straight republican ticket.

Large Fund for Schools. PIERRE, S. D., Oct. 3.—(Special.)—The

forthcoming report of the state commissioner of lands will show a permanent interestbearing fund for the benefit of the public schools of the state amounting to \$3,372,926. This fund is made up from sales of lands amounting to \$3,333,625 and from smaller sums received from a percentage of the sales of government land in the state, the sale of dead and down timber and other smaller items. The general government donated to the state 2,150,480 acres of land from which to derive a common school fund. Of this the state has disposed of 238,103 acres at an average price of \$14 per acre, and this, with the other sums mentioned, has given the state a permanent fund.

War Survivors Remembered by the General Government. WASHINGTON, Oct. 3 -- (Special )-The

CANTON, O., Oct. 3—President, CANTON, O., Oct. 3—President and Mrs. McKinley took their usual drive today. The day was so delightful that they remained out longer than usual.

No plans have been made for going to Washington to confer with cabinet officers on matters connected with the Chinese stuation, or for any other purpose. On the contrary, there is every indication that the president will be in Canton all this week.

There were many callers today, the most prominent of whom was Michael H. be Young of the San Francisco Chronicle. Mr. De Young is one of the twelve United States commissioners to the Paris exponition. He arrived during the morning and made an appointment to see the president later.

Coffee Trade Threatened. BOMBAY, Oct. 3.—The Indian coffee trade with France is threatened with extinction by the new French duty on colonial products. India annually exports 10,000,000 pounds of coffee to France and if it has to pay twice the duty levied on firazilian coffee this trade, it is asserted, will be ruined.
