Wheat Market Takes an Early Drop on Weaker Cables.

DECEMBER CORN IS QUIET AND STEADY

Little Trading is Done in Oats-Provisions Are Fairly Active and Open Lower Under Influence of Hog Receipts.

CHICAGO, Oct. 18.-Wheat declined beavily early today on weak cables, but steadied on the receipts and some export buying. December closing %2%c under yesterday. Corn closed is and oats a shade down. Provisions closed a shade to be

A decline of %d at Liverpool, combined with good weather and better prospects in the Argentine influenced heavy liquidation in wheat during the better part of the day December opened 1/20% lower, at 74% 745c and declined to 755c. At the bottom shorts covered to secure profits and there was some export buying and December was some export buying and December reacted to 74%c, closing %4%c lower at 74%a74%c. The primary receipts, 875.00 bu., compared with 1.250,000 bu. last year, were a help in steadying the market. New York reported 45 loads for export and sales here were 200,000 bu. Seaboard clearances in wheat and flour were equal to 500,000 bu. Local receipts were 239 cars, two of contract grade, while Minneapolis and Duluth reported 539 cars, against 500 last week and 853 a year ago.

Corn was quiet and steady for December, although the nearby futures were easier. Sales aggregating 1,000,000 bu for shipment, although made at a low price, helped the market to resist the bearist influences of a declining wheat market, lower cables and good weather. The seaboard reported 235 loads taken for export. December sold between the and 55% for the closing to lower at 25%. Receipts were 557 cars.

Outs were steady, in view of the wheat break. A demand from oatmeal peope did much to sustain the price. The market was a small one. Receipts were 233 cars. December sold between 21% 621% and 21% of 22c, closing a shade down at 21% of 22c, closing a shade down at 21% of hog receipts, 5,000 head over the estimate, and as packers were selling early the tone for some time was easy. Later buying particularly of lard, by early sellers caused an early recovery of nearly all the early drop. January pork sold between \$1,100, 11,22% and closed a shade down at \$1,200 (12.21% and closed a sh a year ago. orn was quiet and steady for December,

The proportion of the Bank of England's reserve to liability is 43.24 per cent; last week it was 43.22 per cent. Hate of discount unchanged at 4 per cent. The smart rally in New York exchange rates and the knowledge that the United States was obtaining gold elsewhere weakened discount rates here today. Another factor in this direction was the buying of bills here on continental account. Business on the stock exchange was dull, though the lessened fear of dear money hardened consolis at the close. The closing was weak on account of the information received that gold was going to France and the South African situation. Americans opened below parity in sympathy with the New York market and closed weak on profit-taking. Nevertheless, there was a strong undertone, especially in Readings. Kaffirs were duil on unsatisfactory condition of affairs in the Transvaal and rumors of big Boer political campaign in Europe. There were just a few western beef steers on sale and no particular change in prices was noticeable. Good cows were fully steady with yesterday and canners and medium kinds were also just about as good as those sold yesterday. Good feeders brought steady to strong prices and other kinds were about steady, but closed rather dull and weak. Representative sales:

SHEEP—Only eight cars of sheep arrived this morning and most of those were feeders. A train was reported back, but at noon it had not arrived. The tendency was, of course, for packers to hold back for the late train, and as a result the market was slow in opening. Everything, however, changed hands at just about steady prices. The demand seems to be as good as ever and had there been a good run of stuff here the market would no doubt have been in good shape on both sheep and lambs. .1250808 4 00 HEIFERS. 750 3 50 BULLS. .1190 3 00
