The report of Receivers Berensheim and Murphy of the banking firm of Officer & Pusey is looked for today. DEBATES THE SPECIAL ISSUE

HARRIS, Ia., Oct. 18.—(Special Telegram.)—State Senator E. H. Hubbard of Sioux City had a good audience at Grant's hall this evening. He discussed the prominent issues and among other things said the real issue is the business one, the question of the certainty of experimental politics? Democratic leaders are complaining that business men are making their contracts subject to the election of McKinley, that the industrial interests of the country are being held back for the results in November. This is only a repetition of 1892 and 1896. No man, if Bryan should be elected, can tell what our policy shall be. We only know that he promises and threatens a reversal of all the policies of the republican party, under which such splendid results have been attained. The protective policy is to be overthrown. Bryan's successful campaign force into the democratic platform his bid of free silver making it so far as he is concerned the paramount issue, without which he would not be a candidate, will the powerful enough to force it upon his party in congress, should he be successful.

TESTIMONY OF EXAMINER

Edward Johnson is First Witness in Proceedings Against Gaynors and Greene.

NEW YORK, Oct. 18.—Edward I. Johnson was the first witness called today in the proceeding for the removal of the Gaynors and R. B. Greene to the jurisdiction of the United States court in Georgia. Mr. Johnson is the bank examiner who prepared an exhaustive analysis of the accounts of Greene and Gaynor for the work done by them in the harbor of Savannah and rivers in Georgia. The analysis purports to show exactly what became of over \$2,000,000 paid to Greene and Gaynor by the government on checks drawn by former Captain O. M. Carter. It also purports to show that R. P. Westcott, Carter's father-in-law, received one-third of the amount divided. It not only assumes to show that Westcott received this money, but that he invested it and turned the bonds thus purchased over to Carter.

Mr. Johnson, cross-examined by Abram J. Rose, attorney for the defendants, said the statement was prepared from the books of banks and brokers in this city and elsewhere where the defendants had accounts. The period covered is from 1892 to 1897. Mr. Rose attempted to show that the amounts invested by Carter were altogether disproportionate to the sums he might have invested if he received, as alleged, one-third of the amount paid Greene and Gaynor. Witnesses fully accounted for the difference in certain payments alleged to have been paid Carter, as shown by the analysis, had not been invested by the engineer officers at the time he had received them.

WYOMING CATTLE CONDITIONS

W. W. Pringle of Buffalo, Wyo., was at the stock yards yesterday with a shipment of cattle. He says that the condition of country is better than he has experienced the dryest summer ever remembered and that pasture is very short just now. Conditions, however, very favorable to hay production and an exceptionally large crop was secured. On account of the short pasture the hay crop is nearly finished. As for prices, Mr. Pringle said that they had been entirely satisfactory and that shippers from Wyoming were greatly pleased with the South Omaha market.

SUGAR BEET CULTURE

President Burgess of the local sugar beet industry is busy engaged these days in buying the sugar beets he can find in this vicinity. It is the intention of Mr. Burgess to make a thorough canvass of the territory tributary to South Omaha with a view of inducing farmers to plant sugar beets next spring. He says that most any farmer can put in an acre of beets without any great trouble, as the seed is not expensive. Down below Bellevue several farmers are preparing to plant large crops of beets, as the experiment made on the island this year has proven entirely successful.

SPECIAL TAXES DUE

Special grading taxes on the Twenty-second street grading, Twenty-third street grading and the O street grading are now due. TALKING COMPROMISE

It is understood that the city attorney has been directed by the council to investigate the claim of Herman Zeller against the city and if in his judgment it is deemed advisable to see what the claim can be compromised for. Mr. Zeller filed a claim some time ago for \$1,500 for personal injuries. The assertion has been made that the matter can be compromised for a much less sum, providing an agreement is made immediately.

WALTER STATE RETURNS

He says that all over the east people are apparently willing to allow the existing condition of affairs to continue. He is confident that the republicans will carry New York, as well as Indiana and also some of the states now being claimed by Bryan and his followers.

MERCER GAINING DAVID

Congressman Mercer appears to be gaining ground here every day. Lou Etter, who is looking after the interests of Mr. Mercer in the Magic City, said last evening that the republican candidate's chances were getting brighter all the time and that he expects to see a large vote piled up here, not only for Mercer, but for the entire republican ticket.
