COMMERCIAL AND FINANCIAL

Higher Cables and Light Argentine Shipments Force Wheat Upward.

OCTOBER CORN EASY CLOSING IMPROVED

Business in Onts is Entirely Professional and the Range is Narrow-Provisions Are Fairly Active and Show Firm Undertone.

CHICAGO, Oct. 19.-Wheat closed a shade higher today, under the influence of higher cables and light Argentine shipments. Corn closed %c and oats %c improved. Provisions

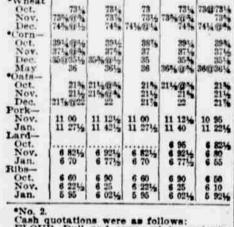

closed 7% 910c to 17% 920c higher. At the outset and during most of the forenoon the paramount issue in wheat was to be found in the Argentine shipments, 80,000 bushels, compared with 944,000 bushels 250,000 bushels, compared with 944,000 bushels the week previous and the resultant advance at Liverpool in the face of a decline here yesterday. December opened \(\frac{1}{2} \) control in the face of a decline here yesterday. December opened \(\frac{1}{2} \) control in this advance was sufficient to set scalpers after profits, as they were mostly bears, anyway, and a drop to 74\(\frac{1}{2} \) fide followed. Their offerings were well taken by shorts, however, and a raily to 74\(\frac{1}{2} \) consuced. This bulge was poorly supported and the large receipts caused further despondency, under which December slumped to 74\(\frac{1}{2} \) fide. Here the market again steadied and reacted to 74\(\frac{1}{2} \) at which it closed, a shade over yesterday. The cash trade was reported duil. Seaboard clearances in wheat and flour were equal to 131,000 bushels. Ompared with 97\(\frac{1}{2} \) one bushels not meaning the first week and 640 a year ago. Local receipts were 281 cars, 7 of contract grade.

Corn ruled easy for October, but firm for deferred futures. Trade was fairly active early, with excitement among those in the October deal, but later trade was very duil. The market received its strength from the rehewal of the heavy cash trade begun yesterday. Exports here were put at \$50,000 bushels. That these sales, yesterday and today, were made is said to be due to easier ocean freights and a reduction in price of a certain bull, said to be liquidating. Country offerings were small and local receipts 531 cars. October touched 39c early, but raillied and closed \(\frac{1}{2} \) coloring \(\frac{1}{2} \) higher at \(\frac{1}{2} \) cars. December sold between \(\frac{1}{2} \) can and \(\frac{1}{2} \) coloring \(\frac{1}{2} \) higher at \(\frac{1}{2} \) cars. December sold between \(\frac{1}{2} \) can see she were \(\frac{1}{2} \) cars. December sold between \(\frac{1}{2} \) cars. December sold between \(\frac{1}{2} \) cars and showed a firm undertone. However \(\frac{1}{2} \) cars and showed a firm under the week previous and the resultant ad-

Provisions were fairly active and showed Provisions were fairly active and showed a firm undertone. Hog receipts were light and the trade looked as if some long lines recently depleted were reinstated. January pork sold between \$1.27½ and \$11.42½ and closed 173,6020c higher at \$11.49; January lard between \$5.7½ and \$6.65, closing 10c up, and January ribs between \$5.55 and \$6.000c \$6.02½, with the close 7½,210c improved at \$6.000c \$0.21½. Estimated receipts tomorrow: Wheat, 230 cars; corn, 500 cars; cats, 250 cars; hogs, 16,000 head.

The leading futures ranged as follows:

cline.

Wheat has shown more weakness, due in part to the greater activity at Russian ports and Atlantic ports. Exports for the week were only 2.647,255 bu., against 3.366.-226 a year ago.

Corn also declined, but is so above last year, which may account for the loss in exports in three weeks of 7.654,765 bu., against 19.924,406 in 1899.

Few important fluctuations occurred in iron and steel, but there were few advances in Hessemer pig at Pittsburg and billets at Philadelphia. Moderate gains are reported in the volume of transactions, although the tendency is to delay large contracts a few weeks. Implement makers take bar iron freely, and orders for pipe are urgent. Structural shapes are taken for foreign points as far distant as Egypt and domestic bridge builders buy freely. More mills have gone into blast and the general tone is improving. Production of coke has increased, but prices are heavy and many ovens idle. Tin declined, making the fall lage in two weeks and 6c from the high point in July. Leather and hides are firm, with a good demand for boots and shoes. Jobbers are placing large orders and demand is no longer limited to fall goods. While woolen mills are not working at full capacity more seasonable weather has increased demand in this line and purchases of wool at the three eastern markets increased to 4.425,000 ibs., the best total for a long time.

Prices are steady and holders show no

chases of wool at the three eastern markets increased to 4.425,000 ibs., the best total for a long time.

Prices are steady and holders show no less confidence. In other textile markets cotton goods are less freely bid for and are selling well below parity with the raw material. Sellers do not weaken in their idea as to prices. Many mills which recently shut down or restricted production are running again on full time, but these are making chiefly heavy goods.

Failures for the week were 200 in the United States, against 240 last year.

Commercial Advertiser's London financial telegram says: The markets were improved by prospects of easy money and indications of an early settlement in China. Investment securities were the chief beneficiaries. Speculation was on a small scale, except in Americans, which, though in the early trading finished buoyant and noisy on New York support, London reads as meaning that Bryan's harm is exhausted. The bank sold £16,000 gold in French coluprobably finishing a former transaction. The open market demand is slackening. Money rates were unchanged. Silver was bought for the east and on good trade orders.

WEEKLY CLEARING HOUSE TABLE. Aggregate of Business Transacted by the Associated Banks. NEW YORK, Oct. 19.—The following table compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended October 18, with the per cent of increase and decrease as compared with

MOVEMENTS OF STOCKS AND BONDS. Bull Element Easily Secures Upper

Bull Element Easily Secures Upper Hand in an Active Market.

NEW YORK, Oct. 19.—There was a very active market for all classes of stocks today, in which the buil element easily secured the upper hand and maintained it with growing success throughout the day. The rise in prices was so considerable as to invite free profit-taking during the closing hour of the market. But new stocks were pleked out for an advance with such good effect on the general list that it was able to absorb a very large amount of offerings before any effect began to be produced. Prices ran off somewhat in the final dealings, reducing extreme gains to a considerable extent and carrying a few stocks, including some of the leading industrials, below last night. The closing was thus made very active, but the average level of prices was considerably higher as a result of the day's trading. The advance was considered than to check the advance in some quarters, without effecting any effectual declines.

The bear opposition appeared to be withdrawn when the course of prices turned clearly in favor of the buils and some of the interests which were large seliers yesterday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamation of the Vanderbilt properties were tenday's rumors of further plans of amalgamatic properties were tenday's rumors of further plans of amalgamatic properties were tenday's rumors of further plans of amalgamatic properties were tenday's rumors of further plans of amalgamat
