will follow in a few days.

Never has a more wholesome play, more intelligently acted, come to this city, than Charles W. Chase's dramstization of "Quo Vadis," which will be presented by Alden Benedict's capable company at the Dohany theater tonight. The play is of interest not only to those who have read Sienkiewicz's wonderful story, from which it has been dramatized, for it has been so granged that anybody can follow its trend understandingly throughout. Its scenery and stage settings are beautiful and appropriate and the costumes correspond faithfully with the period. Everywhere people attend this performance who seldom enter a piayhouse and none have been heard of who have regretted being present. We predict for the company in this city one of the most successful engagements of the season.

REWARD OF MERIT.

New Catarrh Cure Secures National Popularity in Less Than One Year. Throughout a great nation of eighty million it is a desperate struggle to secure even a recognition for a new article to say nothwithin one year Stuart's Catarrh Tablets, the new catarrh cure, has met with such sucdrug store throughout the United States and Canada. To be sure, a large amount of advertising

was necessary in the first instance to bring but every one familiar with the subject knows that advertising alone never made any article permanently successful. It must have in addition absolute, undentable merit and this the new catarrh cure certainly possesses in a marked degree.

Physicians, who formerly depended upon inhalers, sprays and local washes or ointments now use Stuart's Catarrh Tablets because, as one of the most prominent states. these tablets contain in pleasant, convenient form all the really efficient catarrh remedies, such as red gum, Guaacol, Eucalyptot, and Sanguinaria.

They contain no cocaine nor opiate, and are given to little children with entire safety and benefit.

Dr. J. J. Reitiger, of Covington, Ky., says: suffered from catarrh in my head and throat every fall, with stoppage of the nose and irritation in the throat affecting my voice and often extending to the stomach, causing catarrh of the stomach. I had no catarrh last winter and spring and consider my self entirely free from any catarrhal trouble.

Mrs. Jerome Ellison, of Wheeling, W. Va., writes: I suffered from catarrh nearly my whole life and last winter my two chirdren also suffered from catarrhal colds and sore throat so much they were out of school a large portion of the winter. My brother who was cured of catarrhal deafness by us-
