While there was pienty of long stuff for saie, the bears were gautious of getting on the short side. A recovery followed on Argentine advices, one reporting 30 per cent damage and the other estimating a crop of only 48.00.000 bushels from that portion of the southern nembers of the builts. Decrement railled sharply to 14%. The failing off in primery receipts and the prospect of a decrease in the visible came as a support near the top of the builts. Later there was considerable liquidation, largely of November, on the lack of outside support, and Decremer eclined Deavily to 13% 51.2%, closing by under yellerday at 21% 61.2%, closing the under yellerday at 21% 61.2%, closing factor, were good to bushels. CONDITION OF IRON TRADE Indications of a Revival-Significant Contracts for Work for Export.

NEW YORK, Nov. 1.-The Iron Age today says: Conditions in the iron trade are improving. Increased demand for steel billets has resulted in an advance of \$1 per ton at Pitteburg.

From all quarters come the reports of active buying of foundry irons, the tonnage already placed having been large, while there are still very important requirements unsatisfied. Some of the sales were effected at low prices, and, while no advance has yet taken place, it is a fact that a number of sellers have withdrawn, being well filled for some time to come. There has been some movement, too, in Bessemer pig in Pittsburg and in basic pig in eastern

Pennsylvania. This activity in pig fron has caused a better feeling in all markets, and it is 45. all the more a trustworthy indication of improvement since it is free from the suspicton of any rigging by any combination.

association or consolidation. The total tonnage for steel rails thus far placed is about 400,000 tons. There are rumors that an advance in the price may be announced at an early date.

English newspapers admit that builders 4. English newspapers admit that bridge in this country have captured the bridge in steers 1221 2 85 in this country have captured in South it steers 1221 2 85 Africa, the quantity involved being about 8,000 tons. As yet, however, this has not been authoritatively confirmed here. It is true however, that the American Bridge company has taken a small but significant order that is liable to create a stir in Germany. It is for the erection of shops at Bremen for the North German Lloyd Steamship company. The quantity involved is about 806 tons.

The plate trade has had a very great sur-Africa, the quantity involved being about

Totals 3.352 4.749 3.733 CATTLE—There was a fair Thursday run of cattle here today and while prices were about steady on most grades, the market did not seem to be any too active. The proportion of fat cattle was again quite large, about thirty-five cars being reported on sale. Buyers did not take hold of beef cattle with as much life today as they did yesterday, and the market was dull and the feeling rather weak. Some of the kinds that suited buyers were picked up in the morning at just about steady prices, but the rest of the cattle they bid rather mean on and in some cases went back on NEW YORK, Nov. 1.—COFFEE—Spot.

brought good, steady prices. Stock bulls also sold in yesterday's notches.

There were almost no western beef cattle on sale today, but such as were offered brought good, steady prices. Western grass cows sold fully as well as they did yesterday, if the quality was good, but if it was not, it was difficult to get as much for them as they would have brought yesterday. The better grades of feeders were in fairly good demand at steady prices. terday. The better grades of feeders were in fairly good demand at steady prices, but the commoner kinds were inclined to drag and the market was none too firm. Representative sales: BEEF STEERS.

CHICAGO, Nov. 1.—Suits for damages estimated at an aggregate of \$750,000 to \$1,000,000 were filed in the circuit court here today by the school board against the elevated railway companies, whose tracks and traffic are alleged to have damaged school property. As the declarations have not yet been

filed it is impossible to state the exact amount of the damages asked. It is claimed that aside from injuries to the buildings themselves, pupils are greatly hindered in their work by the noise made by the trains. The defendants to the suit are: The Metropolitan West Side Railroad company, the Lake Street Elevated Railroad company, the Northwestern Elevated Railroad company and the South Side Rapid Transit company.
