

TAKES SEVEN HOURS TO PASS

Honest Money Parade in New York Beats All Former Pageants.

RAIN DOES NOT DAMPEN ARDOR

Governor Roosevelt Reviews the Passing Thousands and After It is All Over Sends Congratulations to McKinley.

NEW YORK, Nov. 3.—Through the rough streets made slushy by a continuous fall of rain which, though not a downpour, was sufficient to dampen the clothes, though not the spirits of the marchers, the parade of the Business Men's republican and Sound Money association passed from Bowling Green to Fortieth street today. The managers of the parade expressed the liveliest satisfaction that the showing made was such a magnificent one, and their sentiments may be best voiced by the following telegram which Governor Roosevelt sent to President McKinley as the last marcher had passed the governor's reviewing stand:

"NEW YORK, Nov. 3.—President William McKinley, Canton, O.: In spite of the unfavorable weather the honest money parade was an even more magnificent demonstration than four years ago. The aroused citizenship and business intelligence of the nation are behind you.

"THEODORE ROOSEVELT." The parade was noteworthy for the dispatch with which the different associations formed into line in the lower part of the city and the quickness with which they dropped out of line. At Fortieth street the disbandment was particularly worthy of praise. The different bodies marched first east, then west on Fortieth street, leaving always a clear road for the following club.

RAIN CANNOT DAMPEN ARDOR. The cold rain which most of the time drove directly into the faces of the marchers did not seem to dampen the enthusiasm one whit or lessen the number in line. With full ranks the different organizations assembled at their respective rendezvous prepared for a long wet march. Flags flew just as gallantly and cheerfully as readily given as if the sun were shining.

The police were in perfect command of the great throngs in all parts of the line of march and at no time was there the slightest crowding or trouble of any description. In the falling in the line the police, as soon as one street was cleared the police surrounded the end of the line and moved up slowly to the next street, thus allowing that street to become cleared also. This method was followed all along the line until Worth street was reached and the last organization was in line. The head of the parade reached the reviewing stand at 10:55 o'clock and the last man passed there in review at 5:45 o'clock.

The parade was led by a squad of mounted policemen which reached the disbanding point at Fortieth street and Fifth avenue at 11:18 o'clock. Two minutes later the first platoon or division of the Dry Goods Republican club, which had the honor of heading the parade proper, reached Fortieth street, swung west into that thoroughfare and disbanded at Seventh avenue.

Nearly seven hours later the last division of the parade reached the point of disbandment and at six minutes after 6 o'clock the big demonstration was officially said to be over.

The crowds in the lower part of the city began to gather early and all along Broadway reached up to Worth street, from where the parade was to move, thousands massed on the sidewalk and waited in the drizzling rain and cold, raw wind for the formation to move.

Shortly after 10 o'clock the parade, in which rode Governor Roosevelt, moved up the line of march. When he reached the reviewing stand at the Worth monument the governor's carriage was halted and he took his place on the stand, where he reviewed the ranks of marchers.

For seven hours Governor Roosevelt stood on the stand with head uncovered for nearly all of the time and greeted the marchers as they filed past by thousands. For each division organization Governor Roosevelt had a word of praise or acknowledgment; from each he was given a cheer and greetings, both formal and impromptu. There was no shelter over the reviewing stand and the steady drizzle of rain made the seven hours a terrific strain upon anyone. Through it all Governor Roosevelt's smile never left his face, and although his clothing was wet and his hair glistened with water he stood with that in hand, he showed no ill effects of the arduous task at the end.

CLOSE WITH BIG PARADE. PITTSBURG, Pa., Nov. 3.—The campaign was closed here today by the republicans with the most imposing political demonstration in the history of this section. Clubs and delegations from all parts of eastern Ohio, West Virginia and western Pennsylvania were in line and the number of marchers was variously estimated at from 30,000 to 40,000. This evening the city will be given over to the demonstrators who have arranged for a monster torchlight procession and meeting.

BRYAN AT IROQUOIS CLUB Begins Last Day of Campaign in Chicago with Speech at Informal Dinner. CHICAGO, Nov. 3.—W. J. Bryan began the last day of the campaign with an address before the Iroquois club at noon today. His numerous speeches of last night did not permit him to retire until midnight and he did not rise today until 10 o'clock. Beginning at noon with an informal dinner tendered him by the Iroquois club, Mr. Bryan will speak all afternoon in different parts of the city and suburbs, concluding at the business men's meeting, when he will review the final democratic parade of the campaign.

In his address before the Iroquois club Mr. Bryan said in part: "A man amounts to very little in this world unless he has a grand purpose. I know that what I have said to-day toward me is not manifested toward me as an individual, but merely toward me as the representative for the time being of a great party which stands upon the principles which you believe in. We cannot tell what the future is for anyone or any nation. I have challenged the credentials of those men who have been running up and down the country pretending to tell what the future is for anyone and when we do our duty as we see it, we are relieved from further responsibility. I am glad in this campaign that we have the support of many who were against us before. I do not criticize them harshly. I did not when they left us, because I believe that the great majority of them left because they conscientiously believed the country was in danger. I did not accuse them in that I did not believe in the people of the country would be in danger because of my election, and I make the statement to you now that if I had been elected we would not now be confronted by the crisis that is before us. I believe that those who voted against me were at least in nearly all cases men who voted against me because they thought that they were doing their duty to their country."

I believe the issue today is even greater than was the issue of 1896, for then the question was whether we should have one republic or two republics, but now the issue in this campaign is whether we shall have a republic. Our appeal has been to the conscience and the judgment of the American people. I am glad that this is the only kind of an appeal that we could make. If it is my destiny to be the president of the United States, I believe that somebody was bought to do that. I believe with those who believe in the principle that we stand for, that if I am elected there will be four years in this country when the people here or any foreigner abroad will have any doubt that the Declaration of Independence is the law of this land. I cannot hope that my administration, if elected, will be free from mistakes. I contend that perfection is not to be found in this world, and that all that we can do is to do the best we can with a sincere purpose. I do not wish to be elected, but I do not wish to make mistakes, and I promise you that if I am elected there will be four years in this country when the people here or any foreigner abroad will have any doubt that the Declaration of Independence is the law of this land.

MINERS HURLED TO DEATH

Explosion in West Virginia Pit Results in Terrible Loss of Life.

ELEVEN DEAD BODIES SO FAR REMOVED

Cause of Disaster Not Certain, but it is Generally Believed to Be Due to Accumulation of Fire-Damp.

PHILIPPI, W. Va., Nov. 3.—At 1:30 o'clock this morning a terrific explosion occurred at the Virginia Coal and Transportation company's mines at Berryburg, six miles from Phillippi. Eleven dead bodies have been taken from the mines. The explosion was plainly heard in Phillippi. It occurred in the second left number six room, south entrance. The mine owners refuse to discuss it, saying it was caused by too heavy a charge of powder being used. The miners say it was caused by fire damp. It is not known how many were killed and injured. Not until roll call can this be determined. As soon as the mine had cleared sufficiently rescuers at once began the removal of the dead. So far the following have been taken out dead:

- LEWIS PECK. ANDREW BLACKWELL. RICHARD JOHNSTON. ALBERT BROWN. FRED ADAMS. JOSEPH JACKSON. LAWRENCE DUNCAN. IVAN PETROCH. POE. WALTER WALLENKEL. COLLIE FRANKS.

ritual murder case by the Berlin police has also showed their complete incapacity. One paper published a list showing that a majority of the murderers and other big criminal cases during the last decade have been left undiscovered by the Berlin police.

United States Consul Mason says regarding yesterday evening's Tagelblatt article, denying the charges of German fraudulent practices regarding American trade marks, that he emphatically reiterates the statements contained in his special consular report, mentioning instances.

The Berlin press is devoting much space to Mme. Sembrich and the Italian Opera company. While the voice of the tenor, Bravi and Pandolfi, both tenors, are severely criticized, the "Rigoletto" performance is highly praised by the press, but "La Traviata" is said to be distinctly inferior to the Melba performances.

Opposition to New American Church. The Rev. Dr. Dick, pastor of the American church here, after obtaining final permission from the Charlottesville Building department for the erection of a new American church on a site just within Charlottesville limits, now meets with great difficulties from the Charlottesville authorities and courts, most of them apparently without reason and involving much loss of time and money. The American colony here asks how this unfriendly attitude towards an American church building plan agrees with the emperor's strong desire for erecting new churches where there is evident need of them.

During today's proceedings the Sternberg case assumed more sensational features. The evidence showed that Criminal Inspector von Marschall Huelwes accepted from Sternberg 20,000 marks as a mortgage upon his house and a number of other loans. Also that Privy Councillor Roman, while still states attorney, accepted favors from Sternberg. Police President von Windheim today suspended Criminal Commissioner von Tresckowthiel and Officer Stieglaetter. In court today Tresckowthiel admitted in part yesterday's evidence against him.

The girl, Woyda, upon whose testimony Sternberg was convicted on his first trial, made a full retraction yesterday, charging Officers Stieracker and Criminal Commissioner von Tresckowthiel with having by intimidation, induced her to testify falsely.

CHINESE PUT UP HOT FIGHT

German and English Forces Have a Bruise in a Mountain Pass.

LONDON, Nov. 3.—The Pall Mall Gazette this afternoon publishes a dispatch from Ichow, dated October 28, which says heavy fighting has occurred in the mountains on the Shan Si frontier. An Anglo-German force of 1,000 men, commanded by Colonel Norman, stormed the Taching Kung pass. The Chinese occupied a strong position on the crest and stubbornly resisted. They poured a hot enfilading fire on the advance party of eighty Germans, under Major Von Forrester, but the British Bengal cavalry and mountedappers, dismounting, scaled the heights, turned the enemy's flanks and relieved the Germans.

Because it is the only hair preparation that actually does kill the dandruff germ.

Without dandruff hair must grow luxuriantly; thin hair will thicken, and Baldness be effectually prevented.

DICKINSON, N. D., Nov. 6, 1899.

Dear Sirs.—Have been using Newbro's "Herpicide," and have used about two-thirds of a \$1.00 bottle, and find it does all, and even more than you claim for it. It not only cleanses the scalp from dandruff and prevents the hair from falling out, but promotes a new growth. Have only used the quantity mentioned, and have more hair on my head than I have had for years. I also find it keeps the hair soft and glossy.

Very truly yours,

WHAT CAUSES DEAFNESS.

The Principal Cause is Curable but Generally Over-looked. Many things may cause deafness, and very often it is difficult to trace a cause. Some people inherit deafness. Acute diseases like scarlet fever sometimes cause deafness. But by far the most common cause of loss of hearing is catarrh of the head and throat.

A prominent specialist on ear troubles gives as his opinion that nine out of ten cases of deafness is traced to throat trouble; this is probably overrated but it is certainly true that the vast majority of all cases of poor hearing were caused by catarrh.

The catarrh secretion in the nose and throat finds its way into the Eustachian tube and by clogging it up very soon affects the hearing and the hardening of the secretion makes the catarrh permanent, unless the catarrh which caused the trouble is cured.

Those who are hard of hearing may think this a little far fetched, but any one at all observant must have noticed how a hard cold in the head will affect the hearing and that catarrh if long neglected will certainly impair the sense of hearing and ultimately cause deafness.

If the nose and throat are kept clear and free from the unhealthy secretions of catarrh, the hearing will improve and anyone suffering from deafness and catarrh can satisfy themselves on this point by using a fifty cent box of Stuart's Catarrh Tablets, a new catarrh cure, which in the past year has won the approval of thousands of catarrh sufferers as well as physicians, because it is in convenient form to use, contains no cocaine or opiate and is as safe and pleasant for children as for their elders.

Stuart's Catarrh Tablets is a wholesome combination of blood-purifier, Quaaloo, Calopul and similar antiseptics and they cure catarrh and catarrhal deafness by action upon the blood and mucous membrane of the nose and throat.

As one physician aptly expresses it: "You do not have to draw upon the imagination to discover whether you are getting benefit from Stuart's Catarrh Tablets; improvement and relief are apparent from the first tablet taken."

All druggists sell and recommend them. They cost but fifty cents for full sized package and any catarrh sufferer who has wasted time and money on sprays, salves and powders will appreciate to the full the merit of Stuart's Catarrh Tablets.
