Yesterday morning, however, when he went to his home the interior looked somewhat as if a cyclone had struck it. Everything was topsyturvy, cupboards and bureaus were open and the contents scattered over the floors. Trunks had been broken open and every corner in the house appeared to have been thoroughly and systematically ransacked. A hasty inventory showed that the greater part' of Mr. and Mrs. Maxfield's wearing apparel had been carried off, as well as a revolver and a violin valued at \$150. Everything of value except the household

Everything of value except the household furniture was missing.

The floors of the different rooms were littered with burned matches, showing that the thieves must have visited the premises some time during the night. Entrance was secured by prying open one of the kitchen windows. Neighbors heard a noise in the house during the night, but paid no attention to it, supposing that it was Maxfield or some members of his family who had come home late.

Paving Problem Solved.

Contractor Wickham expects to resume work on the paving of Tenth avenue this morning. The question how to lay the paving and provide for carrying off the water without interfering with the tracks of the Union Pacific has been settled. The Union Pacific has which tracks on both sides of the thoroughfare, instead of at the sides. Gutters will be laid under the Burlington tracks which cross the avenue.

We have the election tomorrow:

First Ward-First precinct: Judges, C. H. Huber, E. B. Gardner, E. C. Boaldy; clerks, Frank Cherratt, P. F. Rain, Second precinct: Judges, L. H. Louge, Spencer Smith, B. McDermott, Clerks, W. J. FAIR WEATHER FOR TUESDAY

Chief Willis L. Moore Forecasts Fair Conditions All Over the Country.

WASHINGTON, Nov. 4.—The weather bureau tonight issued the following:
Sunday, Nov. 4-10 p. m.—Special forecast for Tuesday, November 6: For the first time in ten days the weather map shows a clear sky over the whole region from the Pacific to the Atlantic except over a small area on the middle Atlantic coast, where some rain is falling as a result of a severe storm, the center of which is off Hatteras, The pressure is high over the western half of the country. Those conditions will surely give clear, fine weather and pleasant temperatures in all states on Monday, except possibly showers on the immediate middle Atlantic coast line. While it is possible for a storm to develop somewhere in this broad area by Tuesday, the conditions are unusually favorable for the continuation of the fine weather of Monday over to and throughout Tuesday.

LINCOLN, Nov. 4 .- Colonel W. J. Bryan this city this evening from Chicago. They were driven to their residence, where Mr. Bryan will remain until tomorrow morning, when he will start upon a flying trip through Nebraska, devoting the last day of the campaign to his own state.

Mr. and Mrs. Bryan found a large number of their friends at the depot to greet them-Many of them escorted him to his restdence, and still others were found there awaiting his arrival. The trip from Chicago was compara-

tively quiet. Mr. Bryan slept during the entire forenoon. breakfast, nor did he make his appearance until after 12 o'clock. He had just risen when the train reached Creston, Ia., where in his honor. Several hundred people had congregated at the depot and there were calls for a speech. Mr. Bryan said he never made speeches on Sunday, but he shock hands with most of those present republicans of Crawford county will close | before the train started. There were simithe campaign November 5 with seven lar frowds at Villiags, Red Oak and Pacific meetings throughout the county. The crowd was large and there were many calls for Mr. many persons. Mr. Bryan was met at Omaha by a number of his personal friends.

> Optimism that is Sublime. During the day Mr. Bryan was asked for statement as to the probable outcome

of the election. In reply he said: of the election. In reply he said:

The fight has been fought and won, Money and coercion robbed us of a victory in 1896, but I believe they will be powerless to change the result this time. The people are in earnest and few can be bought. Our organization is much better than it was in 1896 and therefore there is less danger of frauds. So far attempts at intimblation have been rare this year, where they were very common in 1896.

Mr. Bryan's attention was called to the address by Charles R. Flint and others, who claimed to be democrats, but urged people to vote the republican ticket. Mr. Bryan said he was glad to find that Mr. Flint was supporting McKinley and added:

Mr. Flint is the leading member of the Mr. Flint is the leading member of the rubber goods manufacturing company and is also connected with the starch trust. He has been the most conspicuous defender of the trust principle in the United States, having made a speech at Boston in May, 1899, and another at Chicago recently on that subject. I am glad to have all trust magnates support the republican ticket, for if I am elected they will not be visiting the White House and asking favors in return for campaign support. Our appeal is to the White House and asking favors in return for campaign support. Our appeal is to the people who suffer from the trusts, not to the monopolists who profit by them. Next to imperitalism and militarism the trust question has done more than any other question to convince the plain people that the republican parry is entirely given over to the control of organized wealth. Imperialism exploits a broad private monopoly and the large army advocated by the republican party is intended to support the ty is intended to support the Delivers Over 600 Speeches.

Previous to entering upon this tour and since the camnaign has begun he had made at least miles, making about 16,000 miles traveled candidate during his campaign. The greater part of the tour, which has just been concluded, was made on a special car, which, for the most part, was attached to special trains. During the tour speeches have been made in succession in Nebraska, South Dakota, North Dakota, Minnesota, Wisconsin, Indiana, Illinois, Michigan, Ohio, New York, West Virginia, Maryland, Delaware and New Jersey. Visits were also made to Kentucky, Virginia, Pennsylvania and Connecticut. One speech was

in which no speeches have been made Mr. Bryan has gone all ground that state and has crossed it six or seven times dur ing the campaign, but he has not done more in the way of campaigning than to shake hands with the people at the ratiroad stations. Pennsylvania received comparatively little attention, but Mr. Bryan topped long enough in passing from Del-CANDIDATE BACK AT HIS LINCOLN HOME aware to New Jersey to make one brief talk in Philadelphia.

Has Had Good Crowds.

The crowds have increased steadily in numbers from the beginning of the campaign and in many parts of the country strong enthusiasm has been manifested Upon the whole, there was apparently more interest displayed than usual. New Jersey, Ohio, Indiana and Illinois and Mrs. Bryan arrived at their home in there was especially big crowds, and at most points in those states the interest was intense. This may be said also of the cities in the state of New York. always nominally giving the place of para mount importance in the campaign to the subject of imperialism, Mr. Bryan has devoted more time to trusts than to any other subject. He has premised that i elected all the powers of the executive should be employed for the destruction of the trusts; that the army should be reduced to 25,000 soldiers and that the Fillpinos should be given their independence under the American protection. While adhering to his former position on the financial question, Mr. Bryan has not voluntarily forced that subject to the front in his speeches.

All Forms of Locomotion During the campaign various forms of locomotion have been employed. For the most part, of course, railway trains have been utilized, but on one occasion a freight caboose was used in place of a passenger coach. Several carriage rides were taken across stretches of country, ranging from five miles to forty, and one night was spent upon a boat on Chesapeake bay. Automobiles have also been used.

have been no accidents to either Mr. Bryan or members of his party. Mr. Bryan's health has improved from the beginning of his tour and he has never been under the necessity of resorting to a physician for advice or assistance. For the most part the weather has been excellent and no engagement to speak has been broken. Mrs, Bryan joined her husband in New York a week ago and has traveled with him since.

SOLES MADE FROM SCRAPS.

Invention That Will Hurt the Sole Leather Combine Seriously. "Next winter you'll be wearing shoes with soles made from leather scraps," said the manager of a Massachusetts shoe factory recently. "No, they won't be pieced together, if that's what you mean by asking if such soles won't be rough looking. The leather will be made much after the process that turns wood pulp into paper, only the pulp will be made from leather. Some gentus has invented machinery which will take a pulp made of leather scraps press and mold it into solid mass and run it out at the other end a continuous strip of shoe sole.
