TIEN TSIN, Via Shanghai, Nov. 8 .- Gen eral Linevitch, the commander of the Ruscian troops, has officially notified the foreign consuls through the Russian consul that the land on the riverside opposite the British and German settlements has been annexed to Russia by right of conquest. Unless all foreign owners of property immediately deposit documents proving their ownership no claims will be entertained. Much railroad property, as well as the east arsenal, is in-cluded in the territory annexed by Russia. The consuls will protest against the annexa-

WASHINGTON, Nov. 8 .- Count Cassini, the Russian ambassador, said today in regard to the reported annexation of territory in Tien Tsin by the Russian govern ment that he felt sure no such step had been taken. He touched upon the possibility of a Russian concession similar to the British and French allotments having been made, but dismissed the report that Russia had summarily taken possession of the territory referred to as entirely im-

The British embassy is likewise without any report of such move on the part of the Russian authorities at Tien Tsin.

# KEEP SILENT ON DETAILS

Progress of the Ministers at Pekin Has Not Yet Been Made Public.

WASHINGTON, Nov. 8 .- Reports from Mr. Conger today record the progress of the efforts being made at Pekin to bring the foreign ministers into agreement as to basis of negotiations with China. The department still declines to make public any of the details of the deliberations of the ministers, and it appears that this reticence is a matter of international agreement, the purpose being to avoid present-ing any of the differences that may arise from time to time to the notice of the Chito serve their own ends. However, the statement is reiterated that progress is being made toward a satisfactory conclusion, and it is hoped that within a short time it will be possible to at least initiate the formal negotiations with Chinese pleni-

notentiarles. No advice has yet been received here confirming the report that Russia has annexed territory in Chih Li province, and the impression prevails that if the Russians have occupied any territory there it is simply a military movement in preparation for the maintenance of the Russian force at a suitable base on the road to Pekin for the approaching winter.

Rebellion in Southern Portion of Country Ruining Commerce and Revenues Are Decreasing.

PARIS, Nov. 8 .- A dispatch to the Havas agency from Pekin announces that a high Chinese personage says the rebellion between organizations in south China is ruining commerce, that the revenues are decreasing and that the payment of the service of the debt next spring is doubtful. Prince Ching and Li Hung Chang, the dispatch adds, regret the delay in the peace propositions and express fears as to the future. They are ready to accept propositions based on M. Delcasse's proposals, but, it is further asserted, the foreign ministers are in the meanwhile marking time and discussing secondary

Russia Has a Good Crop. LONDON, Nov. 8.-The preliminary official report of the Russian crops received here materially conflicts with the rumors of the alleged failure of the Russian cercals which have been circulated for some weeks. According to the report referred to, the wheat crop is 45,150,000 quarters; rye, 97,250,000 quarters; oats, 82,000,000 quarters, and barley, 25,750,000 quarters. This is the best wheat crop since 1896.

## GRABS PART OF CHINA DOUGLAS COUNTY LEGISLATORS.

Bee's returns on legislative delegation from Dob, aty indicate the election of two, if not all three, of ... republican candidates for state senator and eight and possibly nine of the republican candidates for the house.

The returns compiled by the county clerk show the safe election of Baldrige, republican, for senator, and Buresh, Corneer, McCoy, Mead, Mullen, Rohwer, Uhl and Wilcox, republicans, for representatives, and the others so close that the official canvass may be required to determine between them.

The evidence of fusion frauds in South Omaha is conclusive and a correct count of the honest ballots will give majorities to the entire republican legislative and county tickets.

tion in the Kingdom of the Czar.

ST. PETERSBURG, Nov. 8 .- The Journal de St. Petersburg, the organ of the For-eign office, discussed the United States election in a more friendly tone than any other Russian newspaper. It says:

"The American nation thereby testifies its gratitude for the great services rendered the national cause. Mr. McKinley's sagacity and course in not going beyond what the general interests of the country required is approved by public opinion which explains why there is no important defection among his 1896 supporters."

The Bourse Gazette, influenced by the finance ministry, does not anticipate "the adoption of thorough-going imperialism as a result of the election." It adds: "The election was predestined, since the commercial and industrial nation could not in trust its affairs to an extreme radical like Bryan.

The Novoe Vremeya says: "McKinley adopted Bryan's views of foreign politics and sheered away from England and even Germany. Will be resume his old policy' Momentarily America is arranged with France and Russin."

> Comment of German Papers. BERIAN, Nov. '8 .- Some of the German papers continue their comments upon the sweeping republican victories in the United States. The Lokal Anzelger says: "It must not be assumed that President

McKinley feels very comfortable in his imperial greatness. The policy of the Washington administration for some time has been hesitating, anxious and far from clear. Its standard of action has been the avoidance of every risk and consequently the very reverse of plans of adventure. The socialist Voerwaertz observes:

# LATEST ELECTION RETURNS

According to the latest returns McKinley has carried Nebraska by a majority of over 7,000.

The returns received indicate the certain election of Dietrich and the remainder of the republican state

The republicans will control both houses of the state legislature.

The Bee, in its table printed in this issue, presents the returns from all but ten of the ninety counties of this state. On the face of these returns McKinley has a plurality of 8,557. The missing counties in 1896 gave Bryan a plurality of 1,763, and if they vote the same way this year McKinley will still have 6,794 majority. All other parts of the state have shown a falling off in the Bryan and an increase in the McKinley vote, and these counties will doubtless tell the same story.

Returns from seventy-two counties indicate the certain election of Dietrich to be governor by at least 1,000. These counties give Dietrich a plurality of 2,399. The eighteen counties not included in the table two years ago gave Poynter 1,589 plurality. If they go that way this year Dietrich will still have a plurality of 810. Other candidates on the state ticket are running along with Dietrich.

and Mercer No Dimination in Strength-Dietrich's Lead is Somewhat Cut Down.

The returns as canvassed unofficially by attaches of the county clerk's office show all that was hoped for by republican partisans, the majorities being practically identical with those given in The Bee on Wednesday morning. McKinley's gain in the city from 9,243 in 1896 to 11,091 in 1900 far more than makes amends for Bryan's spurt in South Omaha, where the republicans scored a loss of about 300 over four years ago. The country precincts took a tep in the right direction by giving Mc-Kinley a majority of forty-five, as against a Bryan majority of 211 in 1896. The total unofficial majority for McKinley in Dougas county stands at 1,267, compared with 679 four years ago.

Congressman David H. Mercer gave evidence that his popularity is still at par in the Second district and Douglas county. ben a smaller vote was cast, or from 1896 Mercer with the balance of the ticket suffered in South Omaha, but his long lead of 2,318 in the city absorbed the loss withcut perceptible effect. In the country precincts Mercer showed a gain.

Charles H. Dietrich ran somewhat behind the head of the ticket in Douglas county owing to the particularly bitter fight made against him by the Omaha wing of the Poynter machine. The majority returned for Dietrich in the county is \$55. The summaries of city wards, South Omaha and country precincts are as fol-

NEW YORK, Nov. 8.—General James Grant Wilson, chairman of the committee on site and design of the monument to the sailors who perished in the Maine disaster and the soiders who died in the Spanish-American war, announces that the committee today, after examining forty-three submitted designs, selected as the best in the first competition those of the following: Austin Hays, sculptor associated with Don Barber, architect; B. O. Piccire! I associated with Yan Buren Magonigle, architect and George Julian Zolnay, sculptor, associated with Joseph Henry Free!lander, architect. The fund for this monument to the men of the Maine, which amounts to about 190,000 cash in hand, was raised by the New York Journal. Since the completion of the fund the sculptors of the country have been engaged in preparing the models for this competition. The monument is to be erected in New York City. The three designs selected today will be worked out in greater detail by the competitors and then the winning design will be selected. Monument to So diers and Sailors.

Nebraska Voters Choose a Republican to Be Their Governor.

ALL DOUBT HAS BEEN SWEPT AWAY

Returns Received Last Night Wipe Out Poynts 's Slender Chance.

**ENOUGH VOTES ARE IN TO DECIDE RESULT** 

Remaining Counties May Reduce but Will Not Cancel Plurality.

M'KINLEY'S VOTE A HANDSOME FIGURE

Bryan's Plurality of Four Years Ago Reversed by Twenty Thousand at Least and Maybe by a Greater Sum.

The result in Nebraska, so far as the vote on president is concerned, is beyond speculation or question. McKinley has carried the state by a majority of over 7,000. The Bee presents tabulated returns from all but ten of the ninety counties in the state. In the counties reported the republican electors have a plurality of 8,593. The missing counties four years ago gave Bryan a piurality of 1,763 and if the give a corresponding verdict this year the republican plurality will be 6,794. There is no reason to doubt that the falling off tu the fusion vote in these counties will be as great as in the ones reported. In this event the plurality will go above the 7,000 mark.

The Bee feels justified by the returns in claiming the election of Dietrich for gov ernor by at least 1,000 and the probabilities are the plurality will be nearer twice that figure. In the seventy-two counties reported he has a plurality of 2,399. The missing counties two years ago gave Poynter a plurality of only 1,589 and if they should vote the same this year it would still leave a plurality of \$10 for Dietrich. The gains made elsewhere, taken in connec tion with the incomplete returns from the missing counties, warrant the belief that this plurality will be materially added to Few available figures on the remainder of the state ticket are at hand, but what have been received indicate little if any difference from the vote for governor.

The legislature will be republican by a safe working majority in both houses, in-suring the election of two republican United States senators, although three or four districts are still in doubt, as shown by the revised rolls printed elsewhere.
