BETTING ON FOOT BALL RUNS HIGH

Board of Trade Men from the Flour City Leave Large Sums as Souvenirs of Their Visit to Nebraska.

LINCOLN, Nov. 30 .- (Special.)-It is estimated that the backers of the Minnesota foot ball team lost in the neighborhood of \$5,000 on the result of the game in this city yesterday afternoon. Most of the bets being made that were not conditioned to 5 that Nebraska would win, but the the Minnesota money was placed by members of the Minneapolis Board of Trade, who were so confident that their team could prevent Nebraska from scoring that they took every bet they could find and then asked for more. They had money in practically unlimited quantities to wager on the proposition that Minnesota could score sixteen points more than Nebraska, and many bets for quite large amounts were made on this basts. Upwards of 200 members of the Minneapolis Commercial club accompanied the "rooters" to the city and each of them spent the morning looking for Nebraska money.

Among the Nebraska winners was W. B. Price, who lost several hundred dollars because he thought Bryan was going to carry Nebraska. Mr. Price is said to have won almost enough to make up for the money lost on the election. It was a badly demoralized crowd that gathered in the telegraph offices River superintendent of the Asylum for after the game yesterday. They all had messages to send, messages that conveyed in few words their surprise and disappoinment at the result of the contest. Fusionists Seek a Canaan.

The outgoing state officials and employes, who are promoting the organization of the Town Marshal of Emerson Expires Indian Territory Improvement company are daily receiving letters of inquiry from fusionists who express a desire to locate in some state where the political atmosphere is more congenial than it is in Nebraska. One of the chief promoters of the enterprise today received a letter from a prominent and well known fusionist in South Dakota, who spoke enthusiastically of the political and financial prospect of of the political and financial prospect of the territory. He evinced a desire to become a member of the organization, and gave assurance that it would be possible to find many fusionists with control to find many fusionists and financial prospect of the territory. When first proposed by Deputy Superintendent Beck the scheme was considered a joke, but now the state house crowd are treating it more seriously and it is quite probable that a scouting party will be sent south to look over the ground. Said one of the promoters today:

"The newspapers have given our scheme undue prominence. It is true that quite a number of us have thought seriously of organizing a company, but we have formed no definite plans. All of us have some money that we could invest in Indian Territory land if we thought the prospects were good and from the nature of letters that we have received from persons in Nebraska and other nearby states I have no doubt but that we could interest quite a number of wealthy men. As a result of the newspaper notorioty that has been given our project we are literally swamped with letters from land agents in the Territory. I don't believe there is twenty-five acres of land in the whole territory that is not at our disposal and we have received numerous offers to visit land down there at the own-

Senator Davis was entitled, by virtue of his office, to the escort of a major general commanding, which in this state would of Olive. mean, since the state has no cavalry, a regiment of infantry and a battalion of artillery. Such an escort could not be readily summoned and did not meet with the approval of the senator's family, who desired that the services in every way should be as simple as possible.

The military escort, therefore, consisted of Company D of the First regiment, Minnesota National Guard, under Captain M. L. Merrill, most of whom were veterans of the Philippine campaign, as members of the famous Thirteenth Minnesota volunteers, and a detachment of Battery A. MANY RELIABLE WITNESSES

Prove That Old Cases of Chronic Catarrh Can be Cured.

HALF THE ILLS OF MANKIND ARE CATARRHAL IN NATURE.

Catarrh of Long Standing is One of the Most Stubborn Diseases to Cure.

A Medicine That Will Cure Such Cases Deserves a Very High Place in the Annals of Medical Discovery.

Such a Medicine is Peruna.

T HOUSANDS of testimonials are pour ing in every day of old cases of chronic catarrh that have resisted all treatment for years being promptly and permanently

cured by Peruna. These reports do not all come from obscure places, signed by obscure people. A large proportion of these letters are written by men and women prominent in business and professional circles and many of them

well known from ocean to ocean. Take, for instance, Colonel John Franklin Waters, who occupies a prominent position among the leading trial lawyers of Chicago. he has probably obtained more verdicts against corporations in suits for personal injuries than any man of his age in the United States, and during his practice of over fifteen years he has not lost a single case in the supreme courts of Illinois and Missouri. He is a hard worker and has the energy of four men.

For a number of years he had been afflicted with chronic catarrh, and having recently been thoroughly cured of his affection, an interview was obtained with him by one of our reporters, in which he gave the following statement to the public: CHICAGO, III., Aug. 6, 1900. The Peruna Medicine Co., Columbus, O.:

Gentlemen- "It gives me great pleasure to testify to the merits of such a worthy remedy for catarrh as your Peruna. I had suffered for a number of years from this very disagreeable disease and had tried m my so-called remedies, but until I used Peruna none had the desired effect. I feel that I am perfect y cured and can cheerfully recommend Peruna to any one suffering from catarrh."

JOHN F. WATERS. 120 E. Randolph St , Chicago, Ill. Another case equally well known in Chicago is reported through a letter from a Captain John H. Lyons of Chicago, pas-

senger-agent for various railroad companies for the past twenty-four years, connected with the Postoffice department for six years, the Police department for six years and at present connected with the Grand Trunk railroad, had a similar case. He is a veteran soldier and a prominent member of G. A. R. camp No. 102.

For twenty years he suffered with chronic catarrh, but, thanks to sruna, is now en-tirely cured. He writes of his cure in the following words:

The Peruna Medicine Co., Columbus, O.: Gentlemen-"It affords me much pleasure to make a statement in behalf of your meritorious remedy, Peruna. I have used same for catarrh and have found it to be all you claim for it. I had suffered for twenty years.
