Is the Sad Condition of Millions of Men. Thousands Have Been Rescued and Rostored to Health and Happiness By the

State Electro-Medical Institute, Which Combines All of the Curative Powers of Both Medicine and Ele-tricity in our System of Electro-Medical Treatment.

Professional Excellence Can be Attained Only by the Dictor Who Concentrates All His Faculties on a Single Class of Ills.

SPECIALISTS FOR DISEASES OF MEN

DOCTOR TOLSON,

Specialist in Diseases of MEN, of the State Electro-Medical Institute' 1308 Farnam Street, Omaha, Neb.

In almost every vocation specity work is now called for and demanded. This is notably true when life or death is involved. It is then that the best treatment the medical profession affords is sought after, and this can come only from the true specialist, whose deep knowledge, expert skill, vast experience and thorough scientific equipments have given him complete mastery over the diseases that constitute his specialty.

whatever may be your allment, get help from one who has made such cases a special study. If your eyesight is failing, go to a reliable optician or occulist. If your hearing is defective, consult a competent aurist. If a bad tooth is distressing you, engage the skill of a dentist. Or if you are burning with fever or shaking with chills, tell your troubles to a family physician. They can do more good than I, for I do not treat such complaints, nor pretend to cure them.

But if you have one of the serious diseases peculiar to men, such as VARICOCELE, KIDNEY or URINARY TROUBLES, SYPHILITIC BLOOD POISON, NERVOUS DEBULITY or allied trouble, which is depleting your manhood, or if your case has

DEBILITY or allied trouble, which is depleting your manheod, or if your case has been aggravated or made worse by the use of specifics, free samples, trial treatments or similar devices—if this is your unfortunate condition. I want you to write me or come to my office, where you will be welcome to provate counsel, a careful personal examination and an honest and scientific opinion of your case free of charge.

These diseases and weaknesses of men and they alone are my specialty. To them I have earnestly and exclusively devoted 23 of the best years of my life, during which time I have discovered and developed various forms of treatment which make their cure an unqualified and absolute certainty. Is it not worth your while to investigate a cure that has made life anew to multitudes of men?

VARICOCELE.

Whatever may be the cause of Varicoccle, its injurious effect is well known. It depresses the mind, weakens the body, racks the nervous system and ultimately leads to a complete loss of power.

If you are a victim of this dire disease come to our office and let us explain to you

you are a victim of this dire disease come to our office and let us explain to you our process of treating it. You will then not wonder why we have positively cured more than 700 cases of Varicocele during the past twelve months.

Index our treatment the patient improves from the very beginning. All pain instantly ceases. Soreness and swelling quickly subside. The pools of stagnant blood are forced from the dilated veins, which rapidly assume their normal size, strength and soundness. All indications of disease and weakness vanish completely, and in their stead come the pride, the power and the pleasure of perfect health and restored manhood.

KIDNEY AND BLADDER TROUBLES.

It matters not how long you have suffered from obstruction of the urinary canal, nor how many different doctors have disappointed you, we will cure you just as certainly as you come to us for treatment.

We will not do it by cutting or dilating.

Our treatment is new, entirely original with us, and perfectly painless. It completely dissolves and permanently removes every obstruction from the urinary passage. It stops every unnatural discharge, allays all inflammation, reduces the prostate gland when enlarged, cleanses and heals the bladder and kidneys when irritated or congested, invigorates the organs and restores health and soundness to every part of the body affected by the disease.

SYPHILITIC BLOOD POISON.

On account of its frightful hideousness, syphilitic blood poison is commonly called the king of all venerial diseases. It may be either herediary or contracted.

Once the system is tainted with it, the disease may manifest itself in the form of scrofula, eczema, rheumatic pains, stiff or swollen joints, eruptions or coppercolored spots on the face or body, little ulcers in the mouth or on the tongue, sore throat, swollen tonsils, falling out of the hair or eyebrows, and finally a leprous-like decay of the flesh and bone.

If you have any of these or similar symptoms you are cordially invited to consult us immediately. If we find your fears unfounded we will quickly unburden your mind. But if your constitution is injected with poisonous virus we will tell you so frankly and show you how to get rid of it.

Our special treatment, for syphillitic blood poison is practically the result of our life work, and is endorsed by the best physicians of America and Europe. It contains no dangerous drugs or injurious medicines of any kind. It goes to the very bottom of the diseases and forces out every particle of impurity. Soon every sign and symptom of the disease disappears completely and forever. The blood, the tissue, the lesh, the bones and the whole system are cleansed, purified and restored to perfect health, and the patient prepared anew for the duties and gleasures of life.

NERVOUS DEBILITY.

Men, many of you are now reaping the result of your former folly. Your manhood is failing you, and you will soon be lost unless you do something for yourself. There is no time to lose. Impotency, like all sexual diseases, is never on the stand-still. With it you can make no compromise. Either you must master it or it will master you, and fill your whole future with misery and indescribable wee.

We have treated so many cases of this kind that we are as familiar with them as you are with the very daylight.

Once cured by us you will never be bothered with drains, prematureness, small or weak organs, nervousness, failing memory, loss of ambition or other symptoms which rob you of your manhood and absolutely unfit you for study, business,

Our treatment for weak men will correct all these evils and restore you to what nature intended—a hale, healthy, happy man, with physical and mental powers complete.

ASSOC ATE DISEASES.

In curing an allment of any kind we never fail to remove all reflex complications or associate diseases.

If the case is Varicoccle, the weakness caused by it disappears. If it is urinary trouble which has developed into Prostatic, Badder or Kidney affec-tions, the injured organs are all restored to perfectly healthy condition.

If it is acquired Blood Poison, any and all Skin, Blood and Bone Disease arising from the taint are entirely and permanently eliminated from the system.

If it is Nervous Debility, the many distressing symptoms following in its train and indicating a premature decline of physical and mental powers are totally removed and rapidly replaced by the youthful energy of robust manhood. Hence all resulting ills and reflex complications, which may be properly termed associate diseases, and which, in fact, are often more serious than the original allment that gives rise to them—all, we say, disappear completely and forever with the cure of the main malady.

TREATMENT BY CORRESPONDENCE.

Most cases can be treated successfully at home. One personal visit is preferred but if it is impossible or inconvenient for you to call at our office, write a full and unreserved history of your case, plainly stating your symptoms. Physicians having stubborn cases to treat are cordially invited to consult us. We make no charge for private counsel, and give to each patient a legal contract, backed by abundant capital, to hold for our promises. If you cannot call at the institute today, write. INNES RESUMES HIS REIGN

Popular Bandmaster Comes Back to a Genuine Omaha Welcome.

SCORES A DISTINCT ARTISTIC SUCCESS

Fraditions of the Coliseum Are Enriched by the Triumph of Another Master of the Baton and Orchestral Organization.

There's something infectious in the Innes Omaha never undertook to determine just what it is. Sufficient is it that Omaha shares with Innes the spirit that lurks behind that smile, and when Innes was beaming at Omaha reciprocity was in the ascendency and Omaha was beaming on Innes, and for five minutes the popular conductor bowed and bowed and bowed. with the welcome extended to him who, with his trombone and his band, has so with his trombone and his band, has so large a space in the public heart. It hasn't been so long since the days of 1898, and the strains of "Love is King" still linger in the mind. What a welcome the people did give that march last night! There is the same magnificent trombone sextette, but not Innes. Master of the resonant brass tube, from whose mysterious depths he intube, from whose mysterious depths he invoked such magic melody, he has given over playing be ause, forsooth, his duties as conductor precluded practice as player. and his artistic conscience would not permit bim to appear at anything but his best. But there was the composer conducting his own work, and that work so familiar and so immensely popular, and that his own instrument blended not with the others scarcely detracted from the enthusiastic demonstration which greeted the number. Innes may write marches from now till the crack of doom, but he will never write a march that will take the Omaha heart as does "Love is King." Not alone for its capricious melody, as wilful and elusive as the tender passion itself, nor its majestic flow, when it comes to the deep waters, where "life is one glad, sweet song," but for the reason that it is redolent of memories of that summer of all Omaha summers; of afternoons and evenings spent on the Midway and at the bandstand or the Auditorium. when art and nature blended in one of the most pleasingly harmonious settings for the men and women who scught the recreation afforded at the exposition grounds, and Innes deminated all. Love was king then. and wove bands strong as hooks of steel between the popular heart of Omaha and Innes.

Innes simply resumed his interrupted sway by his absence, for his people were quick are carried out. to give him token of their allegiance. He buoyed up at the end of a long and tiresome journey by the welcome he has had in Omaha, and the apparent appreciaion of his truly magnificent band. Omahawill not willingly say goodbye to Innes tonight, but will gladly place his bust in the niche prepared for it in the Hall of conductors who have delighted thousands at the old Coliseum.

The republican members of the council, aided by a republican mayor, have apparently made an effort to keep the running expenses of the city down to the lowest possible figures. On account of the rapid growth of the city and the constant demand for improvements the expenses have naturally been increased, but as far as can be seen economy is being practiced in all departments.

On Trail of Crooks. Referring to the recent saloon holdups Chief of Police Mitchell said yesterday that is proposed to do everything in his power o put a step to the practice, and with this end in view will cause the arrest of every suspicious character in the city. The task, however, is a difficult one, as it is inferred that crooks who make their headquarters in Omaha or Council Bluffs come here, turn a trick and then get back to their hiding place as soon as possible. This smooth trick on the part of the crooks tends, in a measure, to throw the officers off the track and results to some extent in water hauls when a raid is made. Private information leads the chief to believe that the one man who held up Blivernicht's saloon was not alone, two pals being stationed outside to prevent anyone from entering while the affair was in progress. A drag net is to be thrown out and every man who cannot give a good account of himself will be locked up pending an investigation. Orders to this effect have been issued by the chief in Omaha yesterday, a sway broken only and he says he proposes to see that they
