DUBLIN, Dec. 11.—Delegates to the number of several thousands, representing county councils, borough corporations, district councils, branches of the United Irish league and kindred bodies, met today in national convention in the Dublin rotunda to "re-create the Irish party."

John Redmond, who presided, said it was the "parliament of the Irish people." Sev-enty-five Irish members of the House of Commons were present and several priests were on the platform.

John Dillon, amid cheers, proposed resolution to the effect that the South African war was extered upon in pursuance of a conspiracy to deprive two free nations of their liberty in the interests of

miners and capitalists.

He read letters from Boer generals giving instances of the alleged brutality of British soldiers in South Africa and also the death notice of a Boer boy of 8 years old in the camp at Port Elizabeth, whose father had refused to surrender and whose home was blown up with dynamite. According to the notice, the child and his mother were deported hundreds of miles and fed upon pea soup. The lad's death Mr. Dillon described as "cowardly murder."

Intensely excited by Mr. Dillon's speech, the assembly broke forth into fierce cries protests against the conduct of the The resolution was adopted unanimously and the convention ordered it telegraphed to the president of the Afrikanderbund. The government of The Netherlands supposed Portugal approved of this proposal and was surprised to learn shortly afterward that Portugal insisted on withdraw ing the exequateur of Herr Pott.

The foreign minister explained that he was not aware if fresh complaints against Herr Pott were the cause of this, but a notification sent to The Netherlands minfater of the withdrawal of the exequateur now would illy accord with the friendly relations between The Netherlands and Portugal. Immediately after the exequateur was withdrawn, however, the Dutch minister was summoned to give information and Herr Pott was expected at The Hague within a month. After Count Van Bylandt had expressed the hope that the difficulties would be speedily settled the subject was dropped.

Motto of a Combination Formed to Head Off Reduction in Representation.

NEBRASKA, KANSAS AND MAINE UNITE

Stark Declines to Enter with His Colleagues to Prevent Taking Away One Member from His Home State.

WASHINGTON, Dec. 11 .- (Special Teleapportionment bill promises to be exceedingly active. The Nebraska delegation with the single exception of Mr. Stark, with the Kansas and Maine delegations, have united in an offensive and defensive alliance to keep their membership as at present in the house. In this connection it is interestprospects of the university were outlined ing to note that up to 1840 the house of representatives was always figured on a common basis of population. Since that time the membership of the house has been figured upon an arbitrary basis created by the committee on census having the apportionment bill in charge. The basis sug gested in the Crumpacker and Hopkins bills is purely arbitrary, those representatives fixing what they believed would be the right number the house should have. They divided the whole population by the number of members agreed upon, using the quotient as a common basis of representation. They then added the even number of times it would go into each state's population, and by that method they arrived at the number leave a fraction in each, and to use up the fraction they gave the number of congressmen that this result would bring about to the states having the highest major fraction in order of size. By this method, no matter whether the basis of representation was Miss Morrison's sisters sat near and they 194,000 or upward, it would leave Nebraska

with one less than its present quota. How to Hold the List.

On the direct basis of population, fixing 194,000 or a fraction for every member. Nebraska would hold its present representation, and all other states the same. Under the way of figuring which has been in vogue since 1840 the representation of 194,000 would give the house 395 members. This is considered entirely too large for the present capacity of the hall of the house of representatives, and it is hoped by Burkett Littlefield of Maine, Long of Kausas and others who are in the close combine, that they will be able to strike a happy mean between 194,000 and a figure above so that Nebraska, Maine and Kansas will not lose

any of the present membership. JURY IS STILL UNDECIDED

Fate of Miss Morrison, Charged with Murder of Mrs. Castle, Not

The jury was closeted for nearly fourteen hours. jurors, Gregory, is slightly ill tonight and needs medical attention. The opinion generally obtains that the jury may take two or three days in reaching a verdict and that it ultimately will be unable to agree. Jessie Morrison was fatigued tonight after the social labors of the day, there having been a constant stream of callers since early in the morning. Besides she had grown a little restless and naturally impatient at the delay of the jury in reach

ing a verdict. "I have become just a little bit discouraged today," said Miss Morrison. "I exof congressmen for each state. This would pected the jury to reach a decision in about two hours and I expected it to be in my favor. Of course I may have influenced my judgment to some extent. I am still hopeful, but I wish the jury would hurry up," she added with a troubled smile. Two of seemed more worried than the prisoner her-

The roll of the jury was called promptly at 8:30 this morning. As soon as they had taken their seats Judge Shinn ordered the twelve men to retire. The jury was led to a small room on the second floor of the court house set aside for it, and its struggles began. In the hallway outside men could be heard talking loudly, apparently all at the same time. It is the opinion of the lawyers on both

sides that no matter what the verdict may be, it will not be reached for a day or two. Miss Morrison entered the court room leading her 3-year-old niece. She was ac companied by her father, sisters and brothers. When the jury was sent out to deliberate the prisoner and her family retired to her cell.
