City is Now Enjoying a Pull Mensure of Republican Prosperity.

SIDNEY, Neb., Jan. 6 .- (Special.) -- That this city is enjoying a full measure of republican prosperity is evidenad by the sevof the deals made to Omaha and eastern parties of thousands of acres of the best land in the west for grazing and stock raising purposes. Great numbers of business and residence blocks are projected the coming spring and the city will assume a thorougly metropolitan air. Contracts for electric lights, water works and sewage are being talked of, but nothing definite has

been arrived at on these latter propositions. Two new railroads are contemplated—the Fremont, Elkhorn & Misseuri Valley coming across the country from Valentine, Neb., to Denver, and the Chicago, Rock Island & Pacific from Colby, Kan., to the coal, iron and oil fields of Wyoming, and ultimately reaching out for the Pacific coast.

No town in Nebraska will be livelier than Sidney during the year 1901, and the merchants generally are making active preparations for the advent of the new rail-The Burlington has already strengthened the resources of Cheyenne county immeasurably and the Union Pacific is increasing its paycoll at this point. There will be a large number of extra gangs employed in this section all the year making necessary improvements and double-trackand eastward to Ogalalla, all of which betokens a very bright future for everybody concerned. Chronicle tomorrow will say:

Mr. Armour's wealth was a subject that may never be accurately known. It was estimated to be not less than 125,000,000 and by some over \$50,000,000. The combined wealth of the Chicago Armours is fixed at \$60,000,000. In one sense the total is the wealth of Philip D. Armour, but just how much has been carried in his own name and how much in the name of his sons is unknown. He has not been a horrower. He has always been able to pay cash for his purchases and he has never asked a customer to discount a bill. In his great wheat deals he has always had ready cash. In times of panic he has showed vast resources in spot cash. In 1893 when a run was made on the banks of Chicago and the credit of the city and the fate of the expesition was hanging in the balance, Philip D. Armour bought \$500,000 in gold in Europe and offered help to the big it titutions of the city from his cash resources in Chicago. With a business of \$100,000,000 a year in the packing department alone, a grain business of half that amount and practically the owner of a great allroad system, the estimate of his wealth must appear modest instead of exaggerated. Only One Basis for Peace.

The teachings of the gospel form the only basis of peace for the rulers of the earth. All the arts and resources of diplomacy will be in vain; all the courts or arbitration and peace conferences that ever shall assemble will avail but little, as experience demonstrates. All their deliberations will be so much waste paper, unless their decisions are guided and framed under the invocation of the Lord of Peace who sits enthroned on the cross.

May all the rulers of the earth draw their inspirations from the Prince of Justice. May they learn from this Divine Oracle that nations as well as individuals are responsible they learn from this Divine Oracle that untions as well as individuals are responsible for the violation of justice, that "what they sow they shall reap," that "righteousness exalteth a nation, but that sin maketh nations miserable." May our rulers and magistrates be ever guided by the golden maxim of Christ: "What ye would that mep should do unto you do ye unto them in like manner."

God grant that the new century which has just dawned on us may inaugurate a new era of peace, fulfilling the prophecy of Isaiah, "They shall turn their swords into plowshares and their spears into sickles; nations shall not lift up sword against nations, neither shall they be exercised any more by war." May the Christian rulers contend among themselves, not as to which

tions, neither shall they be exercised any more by war." May the Christian rulers contend among themselves, not as to which shall invent the most deathdealing weapon of war, but which shall devise the most useful implements of husbandry and agriculture. May the people of the several states of our union and particularly of Maryland strive in friendly emulation in outstripping one another in the paths of progress and enlightenment and material prosperity. May trade and commerce the arts and sciences flourish in this fair city of Baltimore. May its citizens be more and more conspicuous for justice and temperance, for fraternal charity, for rectifude of character, for every civic and religious virtue and for every quality that uplifts and empolies the man and may the blessings of Christianity be diffused throughout our baloved country.

RECORDS OF TRAP SHOOTERS

Crosby and Fanning Establish Best Averages-Parmelee of Omaba Makes Good Showing.

NEW YORK. Jan. 6.—Carefully compiled records of the work of the trapshooters in 1909 show W. R. Crosby of O'Failon, Ill. to be the most consistent winner at lnanimate targets, with a general average of 255 points. J. S. Fanning, the California crack shooter, has the greatest number of one-day first average wins, also the greatest number of general first average wins, yet he is in second position for the year, figuring second, third and fourth average wins in the point ratio.

Those who established high averages, following Crosby and Fanning in order are: Rolla A. Heikes of Dayton, O.; Fred Gilbert of Spirit Lake, Ia.; Luther Squier of Cincinnati; F. Parmelee of Omaha and C. W. Budd of Des Moines.

Fanning made a new world's record on targets, breaking 231 without a miss in open competition for prizes. It was done in two days, but was continuous. Fred Gilbert and J. A. R. Elliott of Kansas City were the principal winners of 106 live bird matches, During the year Gilbert shot six matches at 100 birds, each man winning three. The runs on live birds were few during 1900. Gilbert made a run of 125 and Elliott 125, from one day to another, George Roll holding the record for the greatest number in one day, 114.

BIG ARMIES SOUTH DAKOTA'S NEW BILLS

They Will Keen the Legislature Busy Enough for Sixty Days If Not Longer.

SIOUX FALLS, S. D., Jan. 6.-The sixty days' session of the state legislature, which commences at Pierre next Tuesday, promise to be the most important gathering of the state's lawmakers since the admission of South Dakota into the union. In addition to the election of a successor to Senator Pettigrow in the United States senate, there is a large amount of important business to be transacted.

One of the first questions to be disposed of will be the amending of the state election laws. There is also likely to be a leg islative reapportionment. The state liquor license law will have to be amended in several particulars. In the opinion of com petent authority the revenue system of the state also needs to be changed somewhat It is probable that the legislature will be asked to amend the divorce laws of the state. Another question of importance is the proposition to reconstruct the present state judicial districts. A matter of farreaching importance will be the proposition expressed the hope that similar conditions to appoint a commission to investigate the possibility of utilizing the surplus waters of the Missouri river for irrigating the territory east of that stream. Legislation de signed to regulate the practice of medicine in South Dakota will probably be enacted. Attempts will be made to increase the salaries of some of the state officers, especially the judiciary. The matter of constructing a state capitol building will come up for ac

The appropriations to be made during the coming session will foot up to a snug amount for a state no older than South Dakota. The state auditor estimates that it will cost \$600,000 to maintain the state the next fiscal year.

Dead Woman a Divorce Defendant SIOUX FALLS, S. D., Jan. 6 .- (Special Telegram.)-The inquest over the body of the young woman known as Ellen Strong, who died under mysterious circumstances of arsenical poisoning at a hotel early Saturday morning, will be tomorrow, has ing been continued from vesterday to give Herman Kenyon of Charles Mix county, husband of the woman, an opportunity to be present. Some believe the woman was murdered, as she is alleged to have stated a short time before her death that a young man had given her what proved to be arsenic to cure a cold. The suicide theory, however, is generally believed the correct one. It has been learned that the woman was defendant in a divorce suit, the papers in the case having been served on her a few weeks ago. Kenyon, the plaintiff, based
