May Wheat Makes an Ascension of a Cent and More.

LIVERPOOL INFLUENCES GIVEN THE CREDIT

9ats Remain Inchanged, Corn Climbs a Fraction Higher and Provisions Take a Fall of Twelve and One-Half Cents.

CHICAGO, Jan. 21. Small world's shipments, higher cables and a strong cash situation were potent factors in an advance in wheat today, May closing 1911sc higher-Corn closed ise up and oats unchanged. Provisions at the close were 23g97123ge lower. May wheat opened 150% to a shade higher at 75% to 74%. Liverpool was the influence, showing an advance in the face of the decline here Saturday, but so much long wheat was for sale that the first sales were at widely varying figures, and a mo-ment later the market touched 70%c. The situation, however, was bullish. The world's with 8,383,666 bu, the week previous. Autshipments were only 5.728,000 bu, compared with 8.285,000 bu, the week previous. Autwerp reported the breaking out of the bushine plague in Argentina and was said to have bought heavily of wheat at San Francisco. There was a better demand for flour and this imparted strength to the cash wheat. Before the opening it was asserted fifteen loads had been taken for export at prices better than Saturday's figures. Buying by sold-out buils and covering by shorts began at the tap of the gong and continued in a moderately active way to the end of the session, the market advancing with only fractional checks occasioned by profit faking. A decrease of 65,000 bu, helped sustain the advance, but the main support came from the strength of cash wheat. The amount taken by exporters was constantly added to, till at the close the board was claiming 141 loads. Export sales from western and northwestern points aggregated nearly 1.00,000 bu. May wheat during the forenoon railled to 754c. A reaction to 75% first the took place, but this was followed by a further raily to 75% and the close was strong. May 1971ac higher at 754c. Primary receipts aggregated 793,000 bu. Minneapolis and Duluth reported 540 cars, against sixty-four last week and 437 & year ago. Local receipts were sixty-six cars, two of contract grade. The amount on ocean passage showed an increase of 616,000 bu. Corn was moderately active, but the range was marrow. The market early followed

of oral passage and the passage and the passage and the passage arrow. The market early followed wheat closely, but the pace later came too fast and the market settled back almost entirely on an independent basis. The news was hardly as favorable for the coarser grain as wheat. Cables were easy, receipts graded better and the visible increased grain as wheat. Cables were easy, receipts graded better and the visible increased 1.115.000 bu. Shorts were the best buyers early, and the trade, excepting a few outside deals, was in local nends all day. Elevators did most of the selling. Receipts were 515 cars. May soid between 395c and 592305c and closed firm, is higher at 38523 as

Sec. Cats were moderately active. The market felt the wheat strength, but during the afternoon eased off on selling credited to an influential operator. Receipts were 250 cars. May sold between 254,925%c and closed un-

changed at 15c.

The tendency in the provisions market was easier. Hog receipts were under the extinate, but prices at the yards, neverthe'ess, were weak and this was reflected the'ss, were weak and this was reflected by a decline in provisions at the opening. Buying by a prominent speculator caused a rally later, but it was not supported and the close was casy. May pork sold between \$14 l0214 12½ and \$13.95 and closed 12½c lower at \$13.92½, and way lard between \$7.56 and \$7.42½, closing 2½c down at \$7.42½, and May ribs between \$7.10 and \$7.02½, with the close 6c depressed at \$7.65.

Estimated receipts tomorrow: Wheat 95 cars; corn, 700 cars; oats, 305 cars; hogs, 30,000 head.

The Commercial Advertiser's London financial cablegram: The markets here were gloomy under the gloomy news from Osborne, although the latest dispatch maintains that the rally in the queen's condition has been maintained. The city, however, is hopeless of ultimate recovery. The business transacted was meager. Consols dipped to %% on the queen's condition, but mainly on account of the fears that a large war loan is pending. London sold on ballance. New York bought and the continent took Northern Pacifics and Union Pacifics. Money rates were unchanged, dealings being restricted by the belief that the bank must take steps to secure control of the must take steps to secure control of the market during the next fortnight. Silver was weak despite the tender of 25,250 kilos tomorrow. The stock exchange arranged to close immediately on receipts of news of the death of the queen.

Consolidation is Legal
JEFFERSON CITY, Mo., Jan. 21.—The supreme court, en hanc, today sustained a motion to quash the alternative writ of ousier in the St. Louis Consolidated Street railroad case, instituted by the attorney general, on the ground of illegal combination in yielation of the anti-trust laws. This disposes of the case and makes the recently enacted law, allowing the consolidation of street car companies, legal.

NEWCOMB, Tenn. Jan. 21.—About 20 miners employed in the Woolridge, Oswego and Indian mountain cost mines struck today in sympathy with the striking coal miners in the Italian Blue Gem company's mine. The Italian miners are out, demanding that the contract pay day be the first Saturday after the 16th of each month. The company contends for the second Saturday after the 16th and is willing to pay then.

HOGS—There was a liberal run of hogs
here today for a Monday, but the market
started out close to steady with Saturday's
opening market. A few of the packers
started out and paid \$5.7½ and \$5.30 for
the best grades of butcher and heavyweights. Aside from those, however, packers did not want to pay much over \$5.25.
Later advices from Chicago were not as
favorable and as a result the market here
was very slow and draggy. As the morning advanced the market kept getting
worse and on the close good hogs sold as
low as \$5.22½. As will be seen from the
table of average prices, today's general
market is a shade lower than on Saturday.
It was a slow market from start to finish
and the morning was well advanced before the yards were cleared. Representative saies.

Cotton Market.

NEW YORK, Jan. 21.—Speculation on the Cotton exchange today was of a desultory character and prices moved within narrow limits. The market opened steady with prices one point higher to five points lower, and after a brief moment of hesitation turned weak under room liquidation and light foreign selling, brought out by a share break in Liverpool, which market was affected by the alarming news regarding the queen. Receipts were full and speculation falled to come to the aid of wavering buils. But later in the morning shorts became apprehensive of light estimates from New Orleans and Houston for tomorrow's receipts and in an effort to cover sent prices close to the final figures of Saturday. Early in the afternoon values again fell to the low point under fresh liquidation of a professional sort brought out by larger receipt estimates than looked for and by light selling pressure from abroad. For the rest of the session business dragged along wearily and fluctuations were insignificant. The market was finally quiet and steady with prices net one to nine points lower.
