MEANS NEW APPOINTMENTS

Attorney General's Opinion Unsettles South Dakota Board.

HOLDS THAT TWO ARE UNCONFIRMED

Decides That They Are Merely Holding Intil Their Places Can Be Filled Inder the Provisions of the Law.

PIERRE, S. D., Jan. 24 .- (Special Telegram.)-The attorney general today rendered an opinion in the matter of appointment of members of the Soldiers' Home board, which was based on practically the same grounds as the decision in the case of the State Board of Charities. He holds that two of the present members have never been confirmed by the senate and are merely holding until their places can be filled under the provisions of the law, and that a third member is holding for a term which will expire within a few days after the adjournment of the legislature, and that it would be proper to send in a nomination for that place.

This means new appointments for a management of the home within a few

An opinion was also rendered in the matter of issue of emergency warrants. The hand work is done. We have no thou opponents to this move held that, as the of changing our system and there is warrants were issued on taxes assessed and not collected, all receipts after the issue must be held in the treasury until the warrants are paid. In regard to this contention the attorney general holds in effect that the treasurer is given discretionary power in regard to the use of funds received so long as he keeps in view the fact of the need of meeting the warrants when due and so handles the funds that the power of payment at that time is not impaired. To hold otherwise is to practically annul the law and take from it the power to grant relief in an emergency for which it was created.

Bills in the House.

In the house today the principal bills introduced were to provide for county wolf bounty at \$3 for each wolf; requiring eighteen months' residence for divorce; providing for dissolution of incorporated towns; appropriating \$15,000 for a building at the Gary Asylum for the Blind; to appropriate \$40,500 of the state land fund to the Asylum for the Blind; appropriating \$2,648 for the first world's fair commission; and to provide power to a deserted wife or husband to mortgage or dispose of property after

The principal bill of the day in the house was that to increase the salaries of the governor and judges. The first breaker it met was in the desire of Representative Seward to go upon the bench himself and to raise the salary would be a bar to him. This was overcome by an amendment which provided that the bill should only apply to judicial circuits which contained over 5,000 square miles of area or a population of over 54,000. This would grant the increase to all judges except for the third or Watertown circuit. This being carried, Price of Yankton moved to amend by cutting the governor from its provisions, but his move was defeated and the bill then passed by three more than the necessary

Other bills passed were requiring non resident owners of stock to pay 50 cents per head per month in addition to all other taxes for the privilege of grazing stock in the state and a few minor bills.

Bills to the Senate.

in the senate bills introduced were punish the sale of adulterated white lead; appropriating \$31,000 to reimburse persons and counties who advanced money to bring troops from San Francisco; to increase salaries of county auditors and treasurers The wide-tire wagon bill was reconsidered and again passed. A resolution of memorializing congress to grant federal aid to the School of Mines was introduced. The oil inspection bill was discussed a length and sent back to the judiciary committee for an opinion as to its legality.

Manufacturers Profess Ignoronce of Any Agreement to Shut Out Machinery.

Omaha candy manufacturers profess to know nothing of the ment said to have been entered into my the candymakers of the states of the northwest at Sious City yesterday, by which they were bound not to introduce machinery in the manufacture of chocolate and other coated cream candies.

One of the men engaged in that trade said last evening: "We know of no such majority of the board and a change in the an agreement. At all of the local factories machinery is used where it can be profitably utilized without injuring the product; where the finer grades are desired hand work is done. We have no thought this be done."
