Export Buying and Heavy Clearances Rally Wheat from Its Lethargy.

LITTLE DOING IN THE CORN MARKET

Trade in Oats is Light and Market Unresponsive - Provisions Open Firm, Advance Early Buying and Close Firm.

CHICAGO, Feb. 1.-Wheat was quiet, but raillied on export buying and heavy clearances following easiness at the opening. May closing \4@\4c higher. Corn and oats each closed \4@\4c up and provisions prac-

Early reports of export sales turned the market, wever Shorts became frightened and povered, with the result that May rallied 76%c. On the bulge prefit-taking became the order of business, but the close was steady, May 450%c higher at 76c. Scaboard clearances, equal to 670,000 bushels in wheat steady, May 437% higher at 36. Scaboard clearances, equal to 675,000 bushels in wheat and flour, were an influence in the raily. Primary receipts aggregated 402,000 bushels, compared with 323,000 bushels last year. Minneapoils and Duluth reported 331 cars, against 200 last week and 311 a year ago. Local receipts were forty-sight cars, one of contract grade. Argentine shipments last week were 720,000 bushels, compared with 188,000 bushels the previous week and 500,000 bushels a year ago. Deliveres on February contracts were 230,000 bushels. Corn was quiet, with the trade mostly local and without features. The opening was easy on the good weather for grading and moving and in sympathy with wheat. The crowd went short, but later covered because of the wheat strength, causing a fally, and the close was firm. Receipts were 230,000 bushels. May ranged between 350,000 bushels. Trade in outs was light and the market responded neither to the carry weakness nor the later strength of wheat and corn. Receipts were 256 cars. There were no deliveres on February contracts. May sold between 250,25% and 25% and closed 4,45% higher at 25%.

Receipts were 256 cars. There were no deliveries on February contracts. May sold between 250254sc and 254sc and closed 4504sc higher at 254c.

Provisions were dull. The market opened firm, in sympathy with a strong hog market, and advanced early on local buying, mostly by shorts. More long stuff came out on the rise, however, and the market reacted, closing fairly steady. May pork sold between \$13.524 and \$14.075 and closed a shade lower at \$13.924; May lard pettween \$7.45 and \$7.50, closing 245c higher at \$7.45, and May ribs between \$6.675, and \$7.525, with the close unchanged at \$6.975, and \$7.525, extimated receipts tomorrow: Wheat, 20 cars; corn, 375 cars; oats, 210 cars; hogs, 21,000 head.

ALL HAVE ENOUGH ORDERS

None of Great Industries Report Scarcity of Demand for Goods.

RAILROAD EARNINGS CONTINUE LARGE

Steel Mills Have Contracts on Hand Sufficient to Absorb Output for Six Months Vet. So Prices Are Firm.

NEW YORK, Feb. 1.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: The week in general business has been without striking new feature, but in this respect the outcome has been favorable. Not one of the great industries reports any scarcity of orders for goods, and business is done at prices which show a slight tendency to rise, except in textiles, which have been affected by the reduction of from 19 to 20 per cent in the season's opening prices by the American Woolen company. This cut is expected to be indefinitely continued.

ing prices by the American Woolen company. This cut is expected to be indefinitely continued.

Developments in the money market however, indicate that the dry goods trafe is preparing for a season of activity and the new woolen prices are not lower than most buyers expected.

There is nothing discouraging in the slight decline in commodity prices from January 1 to February 1, and railroad carnings continue large, increasing 11.1 per cent for three weeks of January over last year and 25.2 per cent over 1899.

New York bank clearings for the week grined 48.3 per cent over 1999 and outside New York the gain is 10.8 per cent. There is a loss of 4 per cent outside New York for the week compared with 1899, but it is due to the fact that February settlements were increased in that year.

While steel mills have contracts on hard for their output from three to six months alead, prices naturally rule firm. Few actual advances are recorded, but there is expectation of a higher figure scon for Bessemer pig iron, while rumors are numerous as to a rise in billets, plates and structural materials. All those lines show a brisk demand.

Professional Operators Do Bull Stunts with the Stock Market.

NEW YORK, Feb. 1.—Fluctuations in the stock market today were very pronounced in a number of cases and professional operators were successful in receiving bull interest principally as they saw fit. They resorted to palpable manipulation at times in order to acquire a following and successfully bidding up a leading group, realized on their holdings and began anew in another quarter. As a result the market displayed at one time or another pronounced strength in every division.

To what extent, if any, the public figured in today's movements remains conjectural. Reports of combinations of various properties continued to be heard, thereby increasing interest in the minor railroads, which assumed considerable prominence in the day's dealings. Later in the day a report was current that Union Pacific had secured control of the Southern Pacific railroad. No official confirmation could be had of this statement, but the fact that the market for Union Pacific boiled for a time, with a bulge of 44g in the price, with sales of 225,000 shares, was enough in itself, according to the traders, as being authoritative.

of 225,000 shares, was enough in itself, according to the traders, as being authoritative.

It was admitted that a leading interest in Southern Pacific had sold out to a syndicate, presumably representing Union Pacific. This announcement, coming on top of the varied reports about impending dividends, extraordinary earning, trade combinations and so on, which were rife early in the day, threw the market into excitement, and blocks of from 1,000 to 3,000 shares changed with as little hesitation as if they were fractional lofs. At the outset the improvement in prices, which gradually gained strength, was assisted by the higher range of prices from London. Foreign houses bought early, but subsequently unloaded about 100,000 shares of Southern Pacific. That stock strengthened somewhat after the London selling had ceased and was practically about the only issue which did not have a buil following. During the general selling toward the close it sagged to 46%, compared with 49%, the opening figure. A factor which was instrumental in advancing the market today was the lack of any engagements for tomorrow's steamer to Europe. The market for sterling exchange was called easier this week, defeared 18 & Q. B. & Q. The Commercial Advertiser's London financial cablegram says: The stock market was steady here today, but it was quiet, feeling in advance the spirit of the funeral tomorrow. American stocks were active, however London was buying freely of Atchisons, Louisville & Nashville and Southern Railways, when New York came out as a seller and caused a sharp break in Southern Pacifics. There was a fair rally in the street after the exchange closed. Call money rates fluctuated between 3½ and 4½ per cent. The drain at the turn of the month is being counterbalanced by the interest payments on consols and the large sum repaid to the bank. Time money was 4½ per cent. Bills were unchanged. Paris is still absorbing all the paper offered for discount. The bank reduced the buying price of eagles id to 76s 4d. Silvet was supported by the eastern demand. The fortnightly cooper report shows stocks down 48 tons; supply increased 152 tons.

BRADSTREET'S FINANCIAL REVIEW. Money Pientiful Enough to Permit Gold Shipment. NEW YORK, Feb. 1.—Bradstreet's Financial Review tomorrow will say:

Omaha.139

NEW YORK, Feb. 1.—Bradstreet's Financial Review tomorrow will say:

Renewed strength was shown in the stock market this week in spite of the fact that the much talked of and long expected deal in regard to the St. Paul road proved to have been more or less of a myth and that the action of the American Steel and Wire directors on Tuesday resulted in virtually suspending action as to the dividends on the stocks and left the prospect in that connection a matter of doubt.

Further gold shipments to Paris were made on Thursday to the amount of \$2,300,-000, and the continued rise of exchange forced the conclusion that gold will go to Lendon, the position of the Bank of England as shown by its weekly statement on Thursday showing that it is in need of reinforcements for its specie reserves.

Money, however, has continued to come to New York from the interior and Wall street, in view of last Saturday's good bank statement and the favorable one which is also expected tomorrow, apparently concludes that money will remain casy and plentiful and that gold shipments will do no harm, while they will improve the position at London and lead to a more active interest in American stocks developing there.

Wool Market.

BOSTON, Feb. 1.—The Commercial Builetin tomorrow will say: The receipts of wool in Boston since January 1 have been 8,751,100 lbs., against 12,489,750 for January, 1900. The shipments for January are 19,699,-162 lbs., against sales of 10,791,500 for January, 1900. The total stock on hand January 1, 1901, was 76,392,500 lbs.; the total stock February 1 is 55,561,768 lbs., a reduction of spot supplies of over 10,000,000 lbs. in the month. The market has been more active, but with the solitary exception of a lot of Ohio delaine sold at 30c, an advance of 1c over last sales, the trend of the market is downward. London has dropped to the level of October's closing. Buenos Ayres is now offering quarter-blood slightly defective combings at 34c, scoured, landed in Boston. There are 2,000 bales new clip Australian already in Boston. The largest sale was of defective California on a basis of 32c, scoured. Medium territory and coarse New Mexican blanket wools have sold very freely. Good Idaho fine medium clothing is now down to 42c, clean.

SHEEP—There were not enough sheep on sale today to make a test of the market, only one car of mixed stuff being offered, which brought just about yestercay's prices. The demand for good handy weight sheep seems to be in good shape but heavy-weights do not sell as readily and are 16/15c lower for the week. Lambs have sold fairly well all the week, and at the close are about as high as they were a week ago.

Feeders have sold in the same notches all this week, the demand being sufficient MONEY—14.35 per cent.

The rate of discount in the open market for short bills is 4344 per cent; for three months bills, 411-16344 per cent.
