WITH HALFBREED TRIES TO TAKE SALOON

Harris Explores at Drink Mixer and Flourishes Revolver Till Hall from Joint Keeper Lays Him Low.

GORDON, Neb., Feb. 5.—(Special Telegram.)—The little town of Merriman, twenty-five miles east of Gordon, was shaken up this morning about 3 o'clock by the shooting of Jim White, who has been holding forth in this vicinity for some time. Jim White and Louis Provo, a half-breed Indian, entered Jack Barnes' saloon and immediately attempted to run the bartender, Lynn Kern, out and take possession. White and Provo began the trouble by throwing copperheads at Kern, chasing him behind the bar, brandishing their revolvers and uttering vile threats. Kern did not propose to have them take possession in that way and came out shooting. The first shot passed through White's lungs and he fell to the floor. It is reported that White killed three men in Montana, for which he had to leave there, and he has been regarded as a dangerous person. He terrorized the citizens of Gordon two years ago by defying the authorities and standing the city marshal off with his gun.

The latest reports claim White is still alive, but failing fast, his chances for recovery being very fragile.

Miss Bellevue's Honors

BELLEVUE, Neb., Feb. 5.—(Special.)—The third annual oratorical contest of the Bellevue College Oratorical association was at the college auditorium last evening. There were five contestants and the subjects were: "Manhood Transcendent," C. F. Koehler; "A Better Vision of the Inspiration of Progress," Florence Lee; "Democracy, the Friend of Brotherhood," J. F. Kerr; "Our Country's Destiny," T. R. Cooper; "The World's Inspiration," Alice Morgan.

Business for the Court

DAKOTA CITY, Neb., Feb. 5.—(Special.)—The spring term of district court for Dakota county will open in this place next Monday with Judge Guy T. Graves presiding. Among the principal criminal cases are: William Temple, charged with horse stealing, now confined in the county jail; Nicholas Ryan, charged with assault with intent to kill by Art Hart, and a number of cases against John N. Peyton and James C. Riddle, charged with selling liquors without a license.

Prisoner Has Disappeared

DAKOTA CITY, Neb., Feb. 5.—(Special.)—Sheriff Stiles found a wagon on C. E. Stevens' premises loaded with hogs that he suspected had died of cholera. He placed Stevens under arrest, but allowed him the privilege of remaining at home over night, with the understanding that he would appear in Judge Elmer's court the next morning. But Stevens disappeared before the appointed hour.

CREAMERY LICENSE BILL IS CRIPPLED

Small Boys' Cannon Cracker Ambition Finds Few Sympathizers—No Fellow Feeling for English.

PIERRE, S. D., Feb. 5.—(Special Telegram.)—The house apportionment committee met in the house chamber this morning and after a long discussion over several different plans adopted a resolution asking all members of the legislature to support the subject to introduce them in regular form and allow them to come before the committee, when they would be used as a basis for a bill.

Representatives from several towns were here to work up a spirited removal sentiment. If they find the sentiment strong enough, they will attempt to caucus to select which town is in the lead, and all settle on that one.

The food and dairy commissioner bill was then taken up, and after being riddled by amendments was passed in a demoralized condition, leaving in the provision requiring a license for the operation of a creamery, but striking out the provisions for the issuance of such a license.

A bill was introduced providing for the expense of the care of insane patients where there is a question what county to charge it against, and a bill making sheriffs collectors of general taxes.

In the Senate

The principal senate bills introduced are those limiting the time to five years for beginning a suit for county and township warrants and bonds, and providing for the collection of all section lines as highways, and regulating appeals from justice courts to circuit court.

The judiciary committee reported a substitute for the original bill to give power to the governor to remove certain judicial officers not subject to impeachment, the substitute giving him absolute power of removal of all appointive state officers without giving his cause for action.

The senate passed a number of bills which had been hanging on the calendar, principal among them being: Providing for the creation of election precincts in cities, particularly applying to Brookings; legalizing the incorporation of Reilly; fixing the terms of court judges; and changing the form of affidavit required for the order of publishing summons, and making the affidavit unassailable; governing officers of judgments; permitting cities to bond and remove their streets and roads; and providing for the manufacture and sale of cannon crackers and arguments. Sweet championing the cause of the small boy, while the others took the position that a child is too much dangerous to maintain persons and a device of property in both the cracker and the gun, and the bill was finally passed.

The senate passed the house bill providing for a State Board of Agriculture of seven to be appointed by the governor, carrying an appropriation of \$5,000 a year for five years, but not until Stoddard had secured his amendment requiring proof that no liquor had been sold or gambled along the route.

The adverse report of the committee to the house resolution of sympathy with the English people brought on a tilt, but the resolution was adopted, and there will be no official sympathy.

COLOSSAL BUSINESS DEAL

Andrew Carnegie Disposes of His Great Steel Interest to Morgan Syndicate.

AMOUNT INVOLVED AT LEAST \$85,000,000

Purchaser is Quoted as Saying that Move Was Made to Secure an Assurance of Enduring Peace in This Branch of Industry.

NEW YORK, Feb. 5.—The Tribune tomorrow will say: Negotiations for the sale of Andrew Carnegie's controlling interest in the stock of the Carnegie company were brought to a successful conclusion on Monday. J. Pierpont Morgan and his associates were the purchasers. The terms cannot be at present announced, but the deal is a colossal one, rivalling the recent change of control of the Southern Pacific when that property passed into the hands of Union Pacific interests. Mr. Carnegie had nearly 54 per cent of the \$100,000,000 of the Carnegie company. This stock has not been listed on any stock exchange, but \$1,500 was recently paid for a \$1,000 share in the Carnegie company.

Assuming that Mr. Carnegie has disposed of his holdings at par he will receive fully \$85,000,000 for his interest, while at the same time he will retain his 53 or 54 per cent in the \$100,000,000 bond issue of the Carnegie company.

The object aimed at by Mr. Morgan and the interests allied with him when treating with Mr. Carnegie was the assurance of an enduring peace in the steel industry in the United States and this condition is now believed to have been obtained.

San Francisco, Feb. 5.—Perry M. DeLeon, United States consul general to Ecuador, is in this city en route to Washington. He is on a leave of absence until May and his time until then will be spent mostly at Washington and in Georgia, where his home is.

The consul general, speaking of the country of Ecuador, said: "Ecuador presents a splendid field for American enterprise. Until this year the whole country has been radically shut to all business ventures, but the recent completion of the railway from Guayaquil to Quito, the capital, has opened a territory over 300,000 miles in length and inhabited by more than 1,500,000 people. This railway has been built by an American syndicate. It cuts completely through the Andes mountains and costs \$20,000,000. The government encourages Americans by compelling the teaching of English in the public schools. The whole South American country is on the verge of a great industrial and commercial boom, and this country should take advantage of it."

Shy of Buffalo Exposition

HURON, S. The cost of erecting a corn palace on the exposition grounds, getting the exhibit of agricultural and mineral products into shape, would not exceed \$25,000, and this sum, a few believe, should be appropriated by the state.

CONGRESSMAN HOWARD.

CONGRESSMAN HOWARD OF ALABAMA.

House of Representatives, Washington, Feb. 4, 1899.

The Peruna Medicine Co., Columbus, Ohio.

Gentlemen—"I have taken Peruna now for two weeks, and find I am very much relieved. I feel that my cure will be permanent. I have also taken it for gripe, and I take pleasure in recommending Peruna as an excellent remedy to all fellow sufferers." M. W. Howard, Congressman Howard's home address is Fort Payne, Ala.

Most people think that catarrh is a disease confined to the head and nose.

Nothing is farther from the truth. It may be that the nose and throat is the oftener affected by catarrh, but if this is so it is so only because these parts are more exposed to the vicissitudes of the climate than the other parts of the body. Every organ, every duct, every cavity of the human body is liable to catarrh. A multitude of ailments depend on catarrh. This is true winter and summer. Catarrh causes many cases of chronic disease, where the victim has not the slightest suspicion that catarrh has anything to do with it. The following letter which gives the experience of Mr. A. C. Lockhart is a case in point: Mr. A. C. Lockhart, West Henrietta, N. Y., Box 58, in a letter written to Dr. Hartman says the following of Peruna: "About fifteen years ago I commenced to be ailing, and consulted a physician. He pronounced my trouble a species of dyspepsia, and advised me, after he had treated me about six months, to get a leave of absence from my business and go into the country. I did so and got temporary relief. I went back to work again, but was taken with very distressing pains in my stomach. "I seldom had a passage of the bowels naturally. I consulted another physician with no better results. The disease kept growing on me, until I had exhausted the ability of sixteen of Rochester's best physicians. The last physician advised me to give up my work and go south, after he had treated me for one year. "I was given a thorough examination with the X-ray. They could not even determine what my trouble was. Some of your testimonials in the Rochester papers seemed to me worthy of consideration, and I made up my mind to try a bottle of Peruna. Before the bottle was half gone I noticed a change for the better. I am now on the fifth bottle, and have no more ache or pain anywhere. My bowels move regularly every day, and I have taken 18 pounds of flesh. I have been consulted by a great many people, and I have taken on my own account a great many, and they recommend it very highly. I have told several people that if they would take a bottle of Peruna, and give it candidly say that it had not benefited them, I would pay for the medicines."—A. C. Lockhart.
