jointists till Friday next at 12 o'clock to quit business. If this is not done warning was given that 1,000 armed men would immediately move on the joints and remove them by force. Today's action is the re-

sult of the crusade started in Topeka less than ten days ago by Mrs. Carrie Nation. The meeting this afternoon was a remarkable one in every respect. It was called by a committee of the Law Enforcement league and was attended by nearly all the prominent business men of the city. There was a feeling of intense earnestness pervading the meeting. Conservative men, who have hitherto advocated moderation in the dealings with the lawless

element, insisted in unmistakable terms that the time had come when patience had ceased to be a virtue and that the people of Topeka should take the law in their own hands.

Rev. F. W. Emerson, pastor of the First Mrs. Nation in her saloon smashing here last week, opened the meeting with prayer.

CHEYENNE, Wyo., Feb. 10 .- The strength of the sheep interests was manifested the upper house of the state legislature yesterday when the memorial to President Mc-Kinley, which was passed by the house last week, asking for the establishment of a forest reserve in the Medicine Bow mountains and the Sierra Madre range in southern Wyoming and northern Colorado, was indefinitely postponed.

It is known that the sheepmen of the state have opposed the measure on the ground that if a forest reserve were established they would have no summer feeding grounds for their flocks. Cattlemen were in favor of the bill.

Those settlers who depend upon the snow water from these mountain forests for late irrigation and who number several hundred are up in arms over the matter and will take it up with the president personally. The cutters have been devastating the forests in the Medicine Bow and Slerra Madre

range and ranchmen and others will insist upon the establishment of a reserve Bill for Gambling in Wyoming. CHEYENNE, Wyo., Feb. 10.-(Special, Early in the present session of the legis
