

UNCLE SAM WANTS PONIES

Requisition is Said to Be an Innovation in Military History.

FIRST OF THE SPECIES FOR USE OF ARMY

Presumption is that Diminutive Specimens of Horse Flesh Are to Be Transported to Philippines for Mountain Climbing.

The Department of the Missouri is advertising for "twenty short, stocky cow ponies" which, it is understood, are to be sent to the Philippines.

This purchase is entirely without precedent. It is probable that deputy quartermaster general never before received orders from Washington to buy ponies, but little larger than the toy Shetlands ridden by the children at "he city parks last summer, and Captain W. H. Hathaway, who is sending out the advertisements, says he doesn't know what Uncle Sam proposes to do with them.

To Climb Mountains. All the other officers in the headquarters building professed equal ignorance, but one of them had a theory, which was in substance this: "I have been in the Philippines and was in a position to observe conditions there. Our horses do well in that climate. I have seen government notes that were actually skin and bone when they were first put in, but after three months, they get fat as butter within three months. But they have not been subjected to any very severe tests. They have been retained on the lower levels about Manila as a general thing and haven't made any very ambitious expeditions into the mountain regions.

"Now, in my opinion, Uncle Sam wants these 'short, stocky, cow ponies' as mountain climbers. A pony is always more sure of foot than a heavy horse and is more serviceable in every way in a rough, mountainous country.

The advertisements now going out exactly fit the Philippine pony. He is a short, stocky, wiry little animal, hardy, lazy and easily kept. No amount of ill-use seems to affect him.

Cavalry Horses Also Wanted.

The department is also advertising for 425 head of cavalry horses to be used in equipping the Fourteenth cavalry to be organized at Fort Leavenworth under the new army bill. These must conform to the following specifications: "The cavalry horse must be sound, well bred and of superior quality; free from vicious habits, gentle under the saddle, with free and prompt action at the walk, trot or gallop; without blemish or defect, of a kind disposition, with easy mouth and gait." Here follow no less than fifty conditions, touching the height, weight and age of the animal, the shape and size of his ears and eyes, his disposition and color.

The horse owned by one who will not be accepted unless he is a specially fine animal and well developed. It is especially demanded that all horses be roans, light sorrels or bays. Black horses are objected to, and white ones will not be accepted unless they are of the best quality. The white horse is that white is considered a "hardy" color, but the real objection is said to be that they make too good a mark for the enemy's fire. Another trouble with such horses is that they are very easy to be shot in the head by a rifle bullet.

VETERAN KNIGHTS TO MEET

Banquet of Pythian Veterans' Association of Nebraska Will Occur in Omaha This Evening.

The Pythian Veteran association of Nebraska will hold its fourth annual banquet at the Her Grand hotel this evening. The thirty-seventh anniversary of the institution of the order of the Knights of Pythias. Membership in the veteran association is limited to persons who have been active members of the order for at least twenty years, and at present there are only about twenty-five in the organization, the majority of whom will be present at the banquet.

The first lodge of the order in the state was Nebraska lodge No. 1, which was organized by George H. Crazer, Grand Master, 23, 1868, four years after the order was instituted. Mr. Crazer is still a resident of the city and holds membership in the original lodge. Only three or four of the charter members are still in the lodge. E. French, secretary of the veterans' association, is the oldest initiate of the order in the state, he having joined Nebraska No. 1 a few days after its organization.

At the banquet this evening J. J. Monell will be the featured speaker. He responded to as follows: "Annual Greeting," John Q. Goss of Bellevue, president of the association; "The First Decade of Pythianism in Nebraska," J. H. Shropshire of Butler, Mont.; "The Boom Period," E. E. French; "My Interview with a Master of Finance at Labor and at Rest," Mel H. Hoerner; "The Sowing of Pythian Seed in Prairie Soil," G. E. French of North Platte, grand chancellor; "The Past and the Future," John M. Macfarland; "The Minute Man of the Grand Lodge," Will H. Love of Lincoln, grand keeper of the seal and recorder of the national societies in Nebraska in "Territorial Days," D. H. Wheeler. The banquet will be spread at 1:30 o'clock.

YOUTHS SELL STOLEN JUNK

Diminutive Lad—Arrested on Charge of Stealing Junk from Omaha Brewing Association.

George and Clark Curtis, lads 12 and 14 years old, were arrested yesterday charged with stealing old piping, pieces of boiler and other junk from the Omaha Brewing association at Sixteenth and Clark streets. The boys live in the vicinity of the brewery and are said to have been seen prowling around the junk piles frequently by late J. Ferer, a junk dealer, who was arrested, a complaint of receiving stolen goods being filed against him.

SCIENCE SCORES AGAIN

A Preparation that Will Destroy the Dandruff Germ Discovered.

Finally the scientific student has discovered a certain remedy for dandruff. When it first became known that dandruff is the result of a germ or parasite that fits into the scalp, and causes the vitality of hair at the root, causing falling hair and baldness, biologists set to work to discover some preparation that will kill that germ. After a year's labor in one laboratory, the dandruff germ destroyer was discovered; and it is now embodied in Newbro's Herpicide, which besides curing baldness and blissing hair, speedily and permanently eradicates dandruff. "Destroy the cause, you remove the effect."

ANOTHER MAN'S WARDROBE

Milo Bates Attired Himself in the Clothes of John Clemens and Goes to Jail for It.

Milo Bates was employed at the Lange hotel in minor capacity and his small weekly wage was spent as rapidly as it was earned. When winter came Bates found himself minus an overcoat and a heavy suit of clothes and, worse yet, nothing with which to provide himself with the necessary wearing apparel.

John Clemens, a clerk at a Harnay street livery stable, was a lodger at the hotel where Bates was employed. His room was provided with a closet and in it Clemens had a wardrobe that was somewhat extensive. Bates learned of the presence of Clemens' apparel and one cold day he went to the closet and removed an overcoat, a suit of clothes, a hat, two pairs of shoes and several shirts. In a spirit of pride over his new possessions he appeared decked out in all of his newly acquired apparel and Clemens was informed of the event.

Bates returned the clothing to Clemens' closet, but after that he slipped into Clemens' room occasionally and used such articles as he desired. Finally he became bold again and made his appearance one evening attired from head to foot in Clemens' clothes. The owner encountered him and about fifteen minutes later Bates was in jail. The clothes were put in a valise and left at the station for evidence until Monday morning, when the case was called by Judge Learn.

Bates' frequent appearance in the borrowed attire was testified to by witnesses and his plea of not guilty was unavailing, a sentence of fifteen days in jail being imposed upon him. The value of the entire wardrobe, suit, overcoat, hat and all, was estimated by Clemens at \$25.

World to End This Year. This is the recent decision of one of the prominent societies of the world, but the exact day has not yet been fixed upon, and while there are very few people who believe this prediction, there are thousands of others who not only believe, but know that Hostetter's Stomach Bitters is the best medicine to cure dyspepsia, indigestion, constipation, biliousness or liver and kidney troubles. A fair trial will certainly convince you of its value.

HE OPPOSES EASY MONEY

Juror in District Court Holds Out Against Verdict for Damages.

A. B. Gay, a juror in the district court, doesn't believe in easy money and when he was instructed by the judge yesterday to assent to a verdict of \$2,000 for Kate Wickham against the Omaha Council Bluffs Railway and Bridge company he demurred. Jurors are generally supposed to harbor prejudice against corporations, but not so with Gay.

Kate Wickham was a passenger on a street car that straddled a Chicago & North-western track and balked at the critical moment when an approaching street engine threatened to knock it into splinters. She was told by the conductor to jump from the car and in doing so sustained serious injuries. Her case against the company for damages came on for trial in Judge Baxter's court yesterday morning and there was only one side to the story. After the plaintiff had related her chain for \$2,000 to the jury the defendant's attorney announced that he had nothing to offer in contradiction. The court, therefore, instructed the jury to return a verdict for the plaintiff.

Gay, who was elected foreman of the jury, declined the honor, saying: "I don't believe I can agree to giving a verdict for the plaintiff in the sum of \$2,000." "But," said the lawyer for the defendant, "there is no objection to such a verdict. We do not dispute the plaintiff's right to recover \$2,000."

"It looks too easy," protested Gay. The court took a hand then and explained to the juror that as the evidence in the case, showing the plaintiff to have sustained damages to the amount of \$2,000, was undisputed, there was nothing for the juror to do but to return a verdict for that sum. Mr. Gay reluctantly assented.

PROSECUTION FAILS AGAIN

In Burglary Case Against Charles Ellis County Attorney Goes Against a Nang.

Charles Ellis was put on trial in the criminal court yesterday for burglary, and after several witnesses had been examined, the prosecuting attorney discovered that he could not prove that the goods alleged to have been stolen belonged to anybody. He was therefore forced to drop the case and the court ordered a dismissal.

Ellis, with Peter Green, was arrested for entering a saloon at the corner of Thirtieth and Spalding streets on the night of January 1 and carrying off an old slot machine. No other portable goods were in the place that night, because one man had given up the business and moved out his stock the day before and another had gone out with a new stock the next day. So on the night of the robbery no one was actually in possession of the room and fixtures.

Ellis and Green, while they escape prosecution in the burglary case, are held for trial on a charge of highway robbery, said to have been committed on the same night the vacant saloon was entered.
