TRACEDY TINGES ROMANCE

Clandestine Marriage of Pretty Olga Pries Causes Trouble

GIRL-WIFE'S MOTHER ATTEMPTS SUICIDE

Harry Churchill and Miss Pries Elope to Council Blaffs and Bring Parental Wrath Upon Their Youthful Heads.

Clandestine marriage and eviction from parental home with attempted suicide of the bride's mother as a climax.

This chapter, with romance and tragedy the life of 17-year-old Oiga Pries, now

Mrs. Harry Churchill. The marriage of the child wife, for she is a mere slip of a school girl, pretty and Mrs. Pries gave no answer. Harry Churchill petted, caused her mother, Mrs. 14a Pries, and his wife also left Mrs. Pries' residence buried in a pool of blood. The clotted blood to attempt self-destruction with a dose of and registered at a downtown hotel, where

In spite of parental opposition, most pronounced and violent, 19-year-old Harry were married.

No welcome awaited them when they reof their parents. It was a clouded honeymoon from the beginning.

The tragic feature came on Monday afternoon, when Mrs. Pries attempted to comverbally by the messenger boy who delivthat instead she had grasped from her totlet table a bottle of belladons and had

Hoy Witnesses the Attempt.

Elmer Hall, the messenger boy, witnessed this proceeding. He ran to an apartment house nearby, where Mrs. Churchill and her husband were awaiting an answer to the note which had just been sent, and informed them of the poisonous draught Mrs. Pries had taken. Then he telephoned his office and through it the police depart-

Dr. J. B. Ralph, city physician, arrived remarkably short space of time. He applied a stomach pump and drew off all of he poison. While he was working over his patient pretty, blue-eyed, rosy-cheeked Olga Churchill rushed into her mother's room. She flung the long cost, which made her graceful figure the more attractive, upon the floor, and throwing herself beyam of griet.

nizingly, "why did you do it?"

from the room by the colored maid who troubled look that came over his face. was in attendance upon Mrs. Pries. Outside the door the girl-wife listened intently to

too young to marry. It is folly and the performance must be annuled before it is tolate. I love you with all the love of a mother's heart, but this marriage I cannot and will not countenance.

Storm of Parental Wrath.

Mrs. Churchill was obdurate and her son knew that argument with her would be unavailing. This denunciation of the marriage by the young man's mother was the first obstacle encountered to darken the

happiness of the then brief honeymoon. The youthful couple then proceeded to the home of the bride's mother. There a reception quite as chilling awaited them Mrs. Pries would not receive her son-inlaw. She even refused to see him. While mother and daughter were in the former's apartments, Mrs. Churchill was ushered J. S. Collins, 1711 Burt street, was found into the house and asked for an interview dead in a room of the house Monday mornwith Mrs. Pries. The request was not ing under circumstances which led the equally blended, has just been written in granted and Mrs. Churchill left the house. Later she sent a note to Mrs. Pries asking co-operation in separating the young people and in an annulment of the marriage, but

they spent the night. All night long, the colored servant at the of the nose and eyes. Pries home says, Mrs. Pries was alone in thurchil and Olga Pries crossed the river her room. She seemed paralyzed with in progress all day Monday disclosed the to Council Bluffs Sunday afternoon and grief. She mouned to herself that she had fact that the woman's nose was broken, and been crucily treated and bemoaned the fate that there was a clot of blood upon the that has made her lot so unhappy. Within brain just back of the base of the nose. turned and announced their marriage. There easy reach the bottle containing the bella. This evidently had been caused by a blow. was no relenting upon the part of either donna stood, but not until Monday after- The heart, liver, lungs and all other vital noon, when the note came from her organs were in normal condition. suicide seem to come to her. mit suicide. A written appeal from the his bride went to 2201 Farnam street and reason the stomach will be removed, and is daughter that she be forgiven was answered from there rang for a messenger boy. Elmer Hall responded to the summons and ered the note. Excitedly the boy hastened delivered a note first to Mr. Churchill's sis- sis. Drs. G. R. Gilbert and E. W. Powell, to the young wife and announced that the ter. Returning with the answer another mother had refused to read the note and note was given him, addressed to Mrs. Churchill's mother,

"I took the note to the address given me," said the messenger boy, "and was shown up to the woman's room. She didn't read the note, but the servant girl read it and told her what was in it. Then the woman went over to a table and drank something out of a bottle. She didn't say anything until after she had laid down on the lounge. Then she told the girl to bring her a pencil and paper and said, 'I want to write to my darling baby Blanche. From the way she cried and moaned I thought she had poisoned herself, so I ran back to the young fellow and the girl at Mrs. Pries' home, 2224 Farnam street, in who had sent me over and told them about

His Eventful Honeymoon.

"I've had trouble enough in the last twenty-four hours," said Harry Churchill, "to turn my hair gray. I didn't think when I married Olga that I would bring on all this trouble. I'm to blame for all of it side the couch burst into a violent parox- and I feel terribly over it. I can't see why our parents should object so to our mar-'Oh, mamma! mamma!" she cried, ago- riage. Olga and I love each other dearly and we were married by a minister. Here's With tear-stained face she looked into our marriage license. You don't think they the doctor's eyes and beseeched him to can nullify it, do you?" he added with anxsave her mother's life. Then she was led lety in his voice and depicted in the

"Sometimes I half wish I had gone to the theater Friday night instead of spendevery sound from the inner room. It seemed ing the evening with Mr. and Mrs. Rose to her an indeterminable length of time and Olgs. It was then that we decided upon before Dr. Ralph appeared and assured her this. If I had gone to the theater as I of his belief that her mother would not die, had intended all of this trouble wouldn't She tripped lightly downstairs and in have come on. Peculiar Circumstances Surround Demise of Mary Peterson.

Woman's Pace is Covered with Contusions and Her Nose is Broken -Post-Morten Discredits the Beart Disease Theory.

Mary Peterson, a domestic in the home of coroner to make an investigation during the

When found the woman was lying upon her stomach on the carpet, her arms dou- been mentioned for the place. bled under her chest and her face half being washed away, several ugly contusions were revealed in the neighborhood

The post-mortem examination which was though chewed led to the supposition that Monday afternoon Harry Churchill and she might have taken poison, and for this now in the jaboratory of Dr. W. R. Lavender, who will subject it to a chemical analy who conducted the post-mortem, have pre pared their report, but have not as yet submitted it. They will probably do so this

morning. Monday afternoon Sergeant Weisenberg and Detective Mitchell were detailed to investigate the case, and they are still at work upon it

The body was discovered about 9 o'clock yesterday morning by Mr. Collins, senior member of the firm of Collins & Morrison, wholesale saddlery, 1208-10 Farnam street. Mr. Collins is a bachelor and lived alone in the house on Burt street, his only servant being Miss Peterson. He gives this account of the incident:

"I last saw the woman alive about finished my Sunday dinner and went out for a walk, leaving her alone in the house. She had worked for me for four years or more, and, as had been her custom, I supposed she would go out for a while during the afternoon. I don't know whether she did or not

Discovers the Corpse.

"Monday morning I arose at my usual ime, but found that the hot water usually left in the bath room by my servant was not there. I went down to the kitchen, and there was no fire nor any breakfast in preparation. Thinking that something was wrong, I went upstairs. Miss Peterson door was open and I could see that her bed had been unoccupied during the night. I passed through the hall, and in a room opposite her bedroom saw her lying at full length on the floor. I could see that the carpet was saturated with blood, and immediately called in my neighbors. We afterward had the body removed to Corone Swanson's undertaking rooms.

"I talked with one of the neighbor women who called, a Mrs. C. G. Westerdahl, and she expressed the opinion that Miss Peterson had not left the house since doing the after dinner work, basing her opinion upon apron. I forgot to tell you that Miss Peterron when found was barefooted, her shoes and stockings being found in her bedroom There was nothing peculiar in the fact that she was not in her own room. She was an old and trusted servant, and she custom to sit in this particular room, as it

alone in the House.

"So far as I know no strangers entered which was between 3 and 6 o'clock in the convention preliminaries. Last save for a minor disorder which I believe is rado Springs.

The coroner's first impression was that about five feet behind her. The circumin the very act had plunged forward upon ber face. The blood with which the carpet was saturated at first aroused no suspicions. as it was accounted for upon the theory that she had bruised her nose in falling. After the blood had been washed from her face, however, it was found that there were cculd not well be explained by a simple The family that keeps on hand and uses eye was a large bruise, covering an area fall. Her nose was broken. Over her left and swollen, which looked as though it had been made with a heavy, blunt weapon, TO PAY LAST YEAR'S BILLS and her upper lip upon the left side was

bruised and swollen. Coroner is in Doubt.

"After I made these discoveries," said the coroner, "I changed my mind about the case, though I wouldn't like to go on record at this stage of the proceedings as saying that I think the woman met with foul play. The doctors have not yet repassed at a special meeting of the city ported the result of the post-mortem examination. I will say, however, that to my mind the case looks queer and I have notified the police of what I have learned concerning it.

"When I got there yesterday morning the woman was lying upon her stomach on the carpet, her face half buried in a pool of blood that was coagulated and evidently several hours old. They told me she had not been touched since she was found Her arms were doubled up under her body tion of the items, such as are found to be not outspread as they would have been had entirely satisfactory will be included in a she thrown them out to break the force of a fall, which fact leads me to believe that she must have been unconscious when she took that position. Her legs were slightly flexed at the knees. There was no evidence of a struggle; the furniture in the room was in perfect order, and the woman's clothing was no more disarranged than would have been occasioned by a pre-

cipitate fall out of a rocking chair. Polson Theory is Advanced.

One of the two physicians who is con ducting the post-mortem examination says that with the exception of a small clot of blood on the brain, near the base of the nose, all the vital organs are normal. This clot may have been caused by a blow. There are also remote signs of poisoning, as the woman's tongue is chewed, as is often noticed in cases wherein the patient dies

in paroxysms as the result of poison. "The woman had evidently caten a hearty meal just before death," he said, "as the stomach was full of food, upon which the

Auditorium Committees Meet to Talk About the Coming Exposition.

VALUABLE ARTICLES TO BE GIVEN AWAY

"Church Fair" System of Booths Will Prevail and Merchandisc Will Be Disposed of by Voting and Guessing Contests.

The executive committee and the advisory board of the Auditorium company held a meeting last night to discuss the method of disposing of the goods to be displayed at the exposition in March.

There were as many different ideas as persons and the question was discussed at length. The principal scheme was the way of disposing of the goods at the highest price without adopting any plan which would render the society liable to the penalties of the laws prohibiting lotteries. It was decided that thirty articles of

value be selected from the general stock to be given-one each night-to those who attend. That the gift be alloted by a drawing to be held each evening and chances to be absolutely free to all persons who attend the exposition

It was decided that the price of admission should be 10 cents and that in the exposition hall a regular "church fair" system of booths should be maintained where goods will be disposed of by voting and guess ing contests, and auctioneers.

John S. Knox of the Payne-Knox company presented a proposition for the sale of forty-four lots in Bemis Park in connection with the exposition. The matter was referred to a special committee for the purpose of arranging the affair, the proposition having been accepted by the company. It was decided to hold an auction sale some time during the month of April, private sales to be continued during the time. According to the arrangement the Auditorium company will receive 50 per cent of the net profits accruing from the sale of the lots, which will amount, according to the estimate of the agents, to the sum of \$6,500. The committee to arrange the details consists of C. S. Elgutter, H. S. Weller and Jay D. Foster.

The matter of providing music for the exposition was referred to the promotion committee with power to act. The question of concessions went to the same com-

The Trust Problem. To a thoughtful mind the trust problem is one of serious import.
