A.—Mr. Druesdow, as I came in from the cloakroom with these friends of mine. He asked me if I had seen Mr. Thomssen. He said he was looking for him and had a package for him. I said I had not seen him and went on to my desk. Mr. Drues dow came up later and asked me if I would kindly hand that to Mr. Thomssen. him to Mr. Barber he said:

Druesdow—I want this explanation right. I have known Mr. Barber for six, seven or eight years. Somewhere along about the 19th or 15th of January he said: "Have you got a copy of some telephone bills?" I told him yes and he said that they were introduced, that is, bills regarding telephone matters, and as he stated before the committee he sent them out to his home at Franklin and had them copied. I never saw the bills and did not know what he did with them. They were house bills. He returned the old bills. I never had a talk with him on the subject until last Wednesday, when the bills were introduced. That is all I know about any telephone, telegraph or railroad bills, directly or indirectly, or anyway.

Q.—What do you know about this bill (indicating exhibit C)?

A.—This bill? About two weeks ago Senstor Meredith and myself were at the Lindell hotel. We walked around and had a drink together. Now, you see that by commencing here it leaves something else out.

Q.—Did you deliver this bill then to Senstor Meredith?

A.—The bill was in my room and I told Senstor Meredith not to introduce that bill.

Q.—Now, will you state why you prepared all these bills?

A.—I can explain it, gentlemen. I was interested at the time in several bills here at the legislature and there are members that have come to me and requested me. I will tell you of one member: Senator Meredith says to me other parties came to you?

A.—Mr. Thomssen asked me for a bill and there was one member asked me about an artesian well bill, but I cannot recall who it was.

His Peculiar Explanation.

Q.—Can you offer any explanation why a man in the insurance business should be interested in these bills?

A.—I will tell you. It was just this way. You take the one bill of Mr. Thomssen's—I am interested in that—and if you will notice these bills here there was not one that I have requested anybody to introduce with the exception of the beer bill. There are two bills that I am interested in here in the legislature and they were not introduced by my request. The other is on the rebate life insurance.

life insurance.

Q.—I want you to confine yourself to the bills handed these parties.

A.—Everyone of them was by request of these parties with the exception of the beer bill and I wish to state that there isn't any man who can state that I directly or indirectly approached him on any matters pertaining to bills, because I have not.

He went on to explain that the bills were copied from old house rolls and senate files of previous legislatures and which he in the senate today by a vote of 12 to 1. had preserved files of the printed bills,

Barber's explanation was that his activity with reference to telephone bills scientific use. It also created the office of was purely out of patriotic regard for the fish and game warden at a salary of \$2,000 telephone company, which he was anxious a year. Among other restrictions the bill to protect and assist without any thought would have prevented women wearing feathcompensation. Barber said he was at era in their hats.

HOUSE AND FREIGHT RATES

Warm Fight Comes Up Over the Ollis Bill Affecting Live Stock Shipments.

LINCOLN, March 8 .- (Special.)-The house closed the legislative week today with two exceptionally busy sessions. The general file was swelled by the addition of several bills reported from the standing ommittees and a number of measures were favorably recommended by the committee of the whole. The major portion of the morning session was devoted to a discussion over the advancement of house roll 255, by Ollis. The act was only recently reported from the committee on railroads and, therefore, was occupying a place at most at the foot of the general file. A motion to advance the bill for commit

On this motion the vote when first taken was slightly in the negative, but afterward a call of the house was ordered and after several absentees were brought in it carried by the vote mentioned. Representative E. M. Waring of Holt

ounty, one of the fusion members, fell and seriously sprained the tendons in his right leg yesterday.

Just before the close of the session the house resolved into committee of the whole and reconsidered the adoption of the amendment to the supreme court commission bill, by which the court was directed to appoint not less than five of the commissioners from the political party casting a majority of votes at the last general election and four from other parties. Representative McCarthy, the introducer of the amendment, asked for the reconsideration and his motion carried without opposition.

Representative Lane introduced a resolution to authorize W. H. B. Stout to make the state a party to a damage suit arising from the old prison contract. It was asserted that Stout had sustained damages to the extent of \$34,495, this being the sum named in a judgment given by the district brought up, the committee amendments court of Lancaster county. After some adopted and the bill advanced to a third further discussion the resolution was tabled on motion of Edmendson.

COFFEE HITS HARD.

A young lady in California had a remarkable experience with coffee drinking. The details are most interesting to anyone who even suspects that coffee is damaging to the health. She says: "I drank coffee from a child, and a few years ago my health began to break down, everything I ate or drank distressed me, and I settled into a chronic form of dyspepsia accompanied with a headache every morning, and was very irritable most of the time. I could not sleep without taking a sleeping draught. While at first the pains in my stomach were slight, they kept growing worse, until finally the most wholesome food and drink would cause intense agony, and a few minutes after eating I would have to throw everything up. My doctor had been telling me for some time that coffee was hurting

They had begun to wonder how many more days i would live. One day a lady friend called and told how wonderfully she had been helped out of stomach trouble and headaches by leaving off coffee and using Postum Food Coffee and Grape-Nuts Food. She went right to work and made me a nice cup of Postum and prepared a little Grape-Nuts. I dreaded the torture of taking anything into my stomach, but she coaxed me to take a spoonful of Postum and of Grape-Nuts. To my great surprise I found I did not have any pain to speak of in my stomach, and the food actually staid down.

Everyone was completely mystified. little time afterward I drank three spoonfuls of the Postum and took a little more of the Grape-Nuts, and that stayed down and seemed to soothe my nerves and give me a restful feeling. Soon after the doctor came and my nurs

told him that, for the first time in three weeks, foo! had stayed on the stomach. He could hardly believe her as he thought death was very near. Then he wanted to know what I had been eating and drinking. He took home some of the Grape-Nuts and Postum. The next day he said there was no mystery about it, as he had analyzed the samples and said he had found a pre-digested food, and one that would not most natural drink he had ever seen. He said that it did not excite the nerves as did coffee, and that it was nourishing and built up the system instead of tearing it down. He had my nurse give me more o the Postum and Grape-Nuts and said there was one chance in ten that my system might be built up and my life be sayed. In less than a week's time I could drink half a cup of Postum at once, and how it did quiet my nerves and make me feel like was getting some strength.

Six days after beginning Postum I went to sleep the first time in two months without taking a sleeping draught. So step by step I kept on improving. The headaches of the whole this afternoon, Senator Ziegler disappeared. My stomach became stronger each day and I gained steadily in weight. NEW LEGISLATIVE DISTRICTS

Arrangement Decided Upon by the Senate Committee is Heady to Report.

LINCOLN, March 8 .- (Special.) -- The senate has taken the initiative in the matter of bringing the various apportionment bills before the legislature. Early in the week the committee reported for passage the bill introduced by Senator Young, which has for its object the reapportionment of the congressional districts of the state. In the opinion of the members of the committee there will be no trouble in getting this bill through the senate, but they are not so sure of its fate when it comes up for consideration in the house, where the republican majority is so small. In regard to the legislative redistricting

bills even more apprehension is felt. The senate committee today reported favorably on senate file 76. Senator Van Boskirk's and representative districts, and whiles the bill has been gone over with considerable road committee of the house since the care by the committee and changed until fourth week of the session, and nearly the title is about the only thing left of the all railroads in the state had attorneys original bill, it is still objectionable to and representatives on the ground to fight many of the members, especially those of its progress. CONFERRING ON DEADLOCKS

Chairman Hanna Expresses Hope Republican Senators Will Be Elected.

NEW YORK, March 8 .- The World says Senator Hanna, chairman of the republican national committee; Henry C. Payne of Wisconsin, vice chairman of the committee; Perry Heath, chief of the repub lican press bureau, and R. B. Schneider, Nebraska member of the national commit tee, were in conference nearly all the day and evening at the Waldorf-Astoria. They came here to consult about the deadlocks over the election of United States senators in Nebraska and Delaware. Late last evening Senator Hanna said:

"The object of the conference is to pre vent the legislatures of Nebraska and Delaware adjourning without electing sen Unless the deadlocks are broken our party will suffer and it is our desire to have the two states represented in the senate by republicans duly elected by the "What is the result of the conference?"

We have every reason to think that the deadlocks will be broken." Senator Hanna expects to return to Washington today. Mr. Payne sails for Europe tomorrow.

NEW YORK, March 8.—Captain Titus of the detective bureau said today that Alfred Parsons, the New Haven prisoner charged with attempting to swindle President Hadler of Yale, is not Eugene Lascelles, but that he is Ross Raymond, almost as well known as Lascelles. Captain Titus says Raymond was arrested in 1886 on a charge of forging a check and was sentenced to two years imprisonment. The complainant then was Edward Copp. On November 22, 1889, he was sentenced to ten years' imprisonment in England for forging a bill of exchange on John Hiley of Winter Garden, near London, England. Raymond was subsequently arrested in Wisconsin for some small offense. Is a Well Known Criminal.

membranes and tissues. Hood's Sarsaparilla removes all humors, cures all their inward

and outward effects, makes the blood pure, vigorous and rich. It does this most quickly in the spring-but it always does it.

"We cannot speak too highly of Hood's Sarsaparilla. We have used it for years. Have taken it for strengthening the system and purjfying the blood and for inflammatory rheumatism. It cannot be excelled." Mrs. Della Barber, Herrick, Neb.
