other primary points, were under last year's receipts and the fact that this is the crop scare season was made prominent by damage claims from Ohio and Indiana. The market, however, without any particular pressure, worked off during the forenoon to 7454075c. The report of 200,000 bu, sold here for export and seaboard claims of 37 loads taken for the other side caused a rally to 7554075c, but this rally falled of support and the market reacted to 740,745c and closed easy. Sc under yesterday, at 75c. Seaboard clearances in wheat and flour were equal to 257,000 bu, while primary receipts were 561,000 bu, compared with 684,600 bu, last year. Minneapolls and Duluth reported 383 cars, against 215 last week and 932 a year ago. Local receipts were 72 cars, 3 of contract grade. The world's visible decreased 54,000 bu.

The government statistical report of corn

Sof contract grade. The world's visible decreased \$4.000 bu.

The government statistical report of corn reserves was more builtsh by comparison than that on wheat and was reflected in a heavy trade during the first hour of trade in that cereal. Unsettled wasther also helped the bulls, but later the market became more quiet and prices cased off on the improved grading of receipts, there being \$7 cars of contract out of \$495 cars received here today. Country acceptances were reported light, while shippers claimed their market somewhat improved. May sold between \$15c and \$495,4365c, closing \$1,675, higher at \$405,491c.

Outs were somewhat affected by corn, shorts covering under the influence of that market's strength. On the whole the market was a narrow one, lacking speculative features. A good shipping demand was reported, but the business done was not given out. May outs opened at \$245,4255c, sold sparingly at \$245c, declined to \$242,0255c and closed \$6c\$ higher at \$245,0255c. Receipts were \$19 cars.

Provisions were firm, without much business being transacted. The strongest phase of the market was near the close and it was also the most active at that time. The market was bare of offerings most of the day. Near the end a little came out and was quickly absorbed. May pork sold between \$14.82½ and \$14.99 and closed 15c higher at \$14.90; May lard closed 5c up at \$7.50 and May ribs 7½c improved at \$7.32½.
Estimated receipts tomorrow: Wheat, 5c cars; corn, 230 cars; oats, 150 cars; hogs, 33.900 head.

The cow market was also rather slow and lower. Buyers were taking off on all kinds and the general market could safely be quoted logific lower than yesterday. The better grades were, of course, easier to dispose of, but the undesirable kinds were very slow sale and fully 15c lower.

Bulls were also a little lower than they were yesterday, though good handy weights brought very satisfactory prices and were in fairly good demand. Veal calves did not show much of any change.

The demand for stockers and feeders of good quality was of liberal proportions, and the better grades sold readily at good demand, was of liberal proportions, and the better grades sold readily at good steady prices. There were not very many on sale, and consequently the yards were soon cleared. Feeder buyers also took hold of the warmed-up cattle of good quality better than they have for the last few days, and were better bidders than the packers. Good she stuff was also in good demand at strong prices. Common stuff, however, of all kinds, was neglected. Representative sales:

HOGS—There was a good liberal run of hogs here today, but packers were good buyers and as a result the market opened fairly active and about like yesterday morning o. a shade better than the general market. The bulk of the sales went at \$5.00.254.25, with a top at \$5.00. The high price was paid for two loads of fancy fat backs weighing over 400 pounds, but they were of better quality than anything that has been here for some time. It did not take long for the bulk of the hogs to change hands.

The sast end of the market did not show much of any change, though it was the common kinds that were left and they sold all the way from \$5.35 to \$6.425. The market as a whole averages a shade better, but part of that is owing to the better quality on sale. Representative sales:

SHEEP-There was another liberal run of sheep here today and the market was active and just about steady with yester-day. The bulk of the receipts were made day. The bulk of the receipts were made up of sheep, good lambs being very scarce. Some of the heavierweight ewes may have sold a trifle easier, but the situation can best be described by calling it a good steady active market. The bulk of the offerings were sold 'n good season.
