

EXECUTION IS EXPECTED

Frank L. Dismore Likely to Hang for Murder of Fred Laue.

HE IS TAKEN BACK TO KEARNEY

Sheriff Funk Transfers Him from the Penitentiary at Lincoln—Prisoner is Glad of the Exchange.

KEARNEY, Neb., March 12.—(Special Telegram.)—Sheriff Funk returned this afternoon from Lincoln with Frank L. Dismore, who has been kept at the state penitentiary. Dismore was glad to get back, in fact, he did not like the idea of going to Lincoln in the first place. The weather was bad, consequently there was but a small crowd gathered at the Burlington depot to see the man who probably will hang for the murder of Fred Laue at Oakes over a year ago.

PRECAUTION AGAINST ESCAPE

Dismore's Removal a Safeguard Prompted by Insecure Condition of Prison Walls.

LINCOLN, Neb., March 12.—(Special Telegram.)—The penitentiary authorities tonight caused the removal of Frank Dismore, convicted murderer of Fred Laue, to Kearney, where he will be placed under double guard to await execution of the death penalty. The removal was ordered as a precaution against any attempt that might be made to bring about his escape through the insecure prison walls. Dismore has about thirty days to ask the supreme court for a rehearing of his case. If a new trial is not granted the date of execution will then be named and the governor alone will have the power to intervene.

LONE INDIAN ON WAR PATH

Fullblood Kills Half-Breed and Swears Vengeance on the Whites.

GORDON, Neb., March 12.—(Special Telegram.)—News reached here today of a horrible shooting affray thirty miles north-east of Gordon on the reservation late yesterday, in which a halfblood Indian was killed by a fullblood Indian. Bill Day, the fullblood, borrowed a team and wagon of Lewis Cottler, the half-breed, and went to Merriman for a load of groceries. Upon returning to Cottler's ranch he took a Winchester rifle, entered Cottler's house and fired one shot into the breast of Cottler, killing him almost instantly. After Cottler fell to the ground, Day put the muzzle of his gun to his head, the ball going through the head and down through the floor. Day then took the horses from the wagon, and he and his squaw rode away. They met some more Indians, whom Day told that had killed a half-breed and was going to kill a white man before he was captured. The cause of the deed is not known. The Indians on the reservation are wrought up, and Day will probably be shot on sight. Indian police are close after him, and his capture is only a question of a few hours.

GARDNER TAKEN TO PRISON

Shows Some Emotion While Saying Farewell to Rhea, His Condemned Comrade.

FREMONT, Neb., March 12.—(Special Telegram.)—Yesterday afternoon Sheriff Keadler and Policeman Chestnut took Edward Gardner, one of the convicted murderers of Herman Zahn, to Lincoln to serve a life term in the penitentiary. He showed some emotion while bidding Rhea goodbye. He said that when the penitentiary was rebuilt he hoped they would give him a job carrying a hod. At the same time, Theresa Williams, the woman in the case, was discharged. She went at once to the depot and bought a ticket for Crowell.

New Lodge at Nickerson.

FREMONT, Neb., March 12.—(Special Telegram.)—A lodge of the Ancient Order of United Workmen was organized at Nickerson last night by Grand Master Workman M. E. Schultz of Beatrice, assisted by Deputy W. G. Arnold and a delegation from Fremont lodge No. 23. After the initiation ceremonies, which were in charge of the Fremont Workmen, supper was served. These are the officers of the new lodge: Past master, workman, Herman H. Hesterman; master workman, John Wickersham; foreman, W. D. Boscht; overseer, W. Windsor; recorder, Charles Brown and G. R. Stewart; receiver, P. E. Van Horn; guide, G. Bruner; inside watch, William Brown; outside watch, J. Brubaker; medical examiner, Dr. J. S. Devries; trustees, Al Bullock, A. E. Stewart and John Phinney.

One Brother is Held.

BROKEN BOW, Neb., March 12.—(Special Telegram.)—The county court was occupied yesterday with the preliminary trial of Walter and Harry Clark of Meissert on the charge of burglary. On the night of May 29, 1900, the store of Miss Fredy Allen was entered through a window and \$25 worth of goods and money taken. At the time there was no clue to the burglars and no arrests were made. It was only through a statement to a neighbor boy by Walter that the arrest of the Clark boys was made. The court held that there was sufficient cause to bind Walter over to the district court and put him under bonds of \$500 for his appearance. Harry was released.

Adel Examination Begins.

BEATRICE, Neb., March 12.—(Special Telegram.)—The Adel examination will fill the vacancy from the Fourth congressional district of Nebraska, began here today, there being but eight applications. Those taking the examination are: Row W. Nelson, Diller; Hugo D. Schultz and Warren F. Day, Beatrice; Samuel Akins, Westport; Saline county; Glenn C. Adams, Seward; Seward county; Eugene Boyle, Fairbury; Jefferson county; and Jesse S. Lancaster.

TO CURE THE GRIP.

Advice of a Famous Physician. First and foremost, REST. Take care of yourself. Your already weakened nerves want rest and must have it. If the attack is severe, go to bed and remain there. More fatalities result from neglect of this precaution than from any other cause. Eat sparingly. Your digestive organs are in no condition to take care of large quantities of food. Drink plenty of pure, cold water. It allays the fever, stimulates the kidneys to action and opens up the pores of the skin. Keep the bowels open with Dr. Miles' Nervine and Liver Pills. Take three doses of Dr. Miles' Nervine pills daily; and if you cannot sleep take an extra dose at bedtime. To further control the fever and to overcome the peculiar aches and pains of grip, use Dr. Miles' Pain-Expeller Pills. They act quickly and effectively and are not habit forming. These remedies have been thoroughly tested more than a million times and their efficiency is thoroughly established. They never fail to give relief. Dr. Miles' Remedies can be found at any drug store, and they are sold on a positive guarantee that first bottle or package benefits or money refunded.

YORK COUNTY. A. D. McCandless of Wyomere, S. N. Bailey of Fairbury and U. O. Anderson of Seward are the committee in charge of the examination. They expect to get through tomorrow.

Discussions About Farming.

FREMONT, Neb., March 12.—(Special Telegram.)—Farmers' institute is to be held at the court house here Friday, March 15. Following is the program: FORENOON SESSION. 9:30—Opening address, W. G. Whitmore of Valley. 10:15—The best methods of preparing soil for a best crop and the effect of proper preparation on the cost of culture. The tonnage and sugar content, by Prof. P. G. Holden of Pekin, Ill., superintendent agricultural, following committee. Discussion—F. F. Brown, O. L. Taylor, A. Johnson, W. H. Hawley. 11:30—The proper time to plant, and the depth and manner of planting as affected by the nature of the soil, by H. J. Scully, general superintendent. Standard Sugar Company. Discussion—J. Swan, J. Q. Walbridge, and others. 12:15—Conditions of climate and soil in Nebraska for sugar beet raising, by Prof. J. L. Lyon, Neb. director, Nebraska State Experiment station. Discussion—E. M. Tarbell, M. Schmitz, R. M. Allen and others. 1:30—Cultivation, when should it begin and by what means, by H. Scully, agricultural. Standard Beet Sugar Company. Discussion—A. J. Bailey, C. Johnson, J. Yeager, C. Hein and others. AFTERNOON SESSION. 1:30—"Bunching and Thinning," by O. E. Wartenleben of Leavitt, Neb., assistant agriculturalist, Standard Beet Sugar Company. Discussion—P. Neastrom, J. B. Foot, J. H. Dillinger and others. 2:15—"Harvesting and Ripening," by Prof. R. S. Hiltner, department chemistry, State university. Discussion—Prof. T. L. Lyon, R. S. Bulla and Prof. E. Thorp. 3:00—"Status of Nebraska as a sugar-producing state," by R. M. Allen, president Nebraska Beet Sugar association and vice president Standard Beet Sugar company. Discussion—W. G. Whitmore, G. B. French, C. Schack and others. 3:15—"How many times should beets be bled?" by J. Dugdale, practical beet grower, Standard Beet Sugar Company. Discussion—A. S. Grigoret, G. W. Batchelor, M. Dake and others. 4:15—"Harvesting and Ripening," by Thomas Pecks of Ames, Neb., foreman in charge of experimental fields of Standard Beet Sugar Company. Discussion—W. H. Huestetter, H. K. Hoff, J. B. Scott and others. 4:30—"Best kind of help for a beetfield and how to handle it," by A. S. Grigoret, manager Fremont Sugar Beet association. Discussion—H. T. Slack, J. McLaughlin, J. Dugdale and others. 5:15—"The relative value of a high and low grade beet," by R. S. Bulla of Leavitt, assistant superintendent, Standard Beet Sugar Company. Discussion—General.

Convict Has Pneumonia.

COLUMBUS, Neb., March 12.—(Special Telegram.)—John Burrell was removed from the county jail to the hospital this morning upon the advice of his physicians. Burrell was sentenced by Judge Hollenbeck to four years and six months in the penitentiary last week. He is suffering from pneumonia and erysipelas. By reason of the recent fire at the penitentiary Sheriff Byrnes has been advised that convicts cannot be received until April 16.

Two Divorces at Madison.

MADISON, Neb., March 12.—(Special Telegram.)—A divorce was granted yesterday to David R. Griffith from Emma Griffith on the ground of desertion. The divorce was granted by Judge Hesterman. Edith Heckman showed that her husband, Frank C. Heckman, had a wife when he married her and her petition for the annulment of the marriage was granted.

Worthless Farm Reclaimed.

COLUMBUS, Neb., March 12.—(Special Telegram.)—A. G. Carlson of Gothenburg closed up a deal here and sold his land in Polk county, Neb., on the Platte river, 350 acres for \$14,500, or nearly \$38.50 per acre. This land fifteen years ago was considered worthless and could have been purchased for \$3 or \$4 an acre.

Beatrice Masons Coming.

BEATRICE, Neb., March 12.—(Special Telegram.)—A delegation of Masons will leave here tomorrow to attend the annual reunion of the Scottish Rite Masons, now being held in Omaha. C. E. Baker will be one of the speakers at the banquet to be given Friday night.

Millman Hurt in Runaway.

MADISON, Neb., March 12.—(Special Telegram.)—J. H. Kroeger was seriously injured on the hip and knee yesterday by being thrown from a runaway. His team was frightened by the rattling of milk cans in the wagon.

Contract to Treat County Patients.

IRK, Neb., March 12.—(Special Telegram.)—Dr. Robert McCandless has been awarded a contract for furnishing medical supplies and treating patients on the county farm and in the jail.

Ex-Senator Murphy Improving.

BEATRICE, Neb., March 12.—(Special Telegram.)—Ex-Senator George A. Murphy, who has been critically ill with a severe case of pneumonia, is reported better this evening.

Nebraska and Nebraskans.

Fallade has presented without effect a bill to amend the constitution so that a minister should be present at a wedding. A bridge had been built on the R. & M. bridge road, Palmer fell from the structure and broke both arms at the wrist. Elmer, Vignault, of Keya, Paha county lost fifty-seven out of ninety-seven head of cattle in his herd from cornstalk disease. Herdman F. Cleland of Pierce, a graduate of Oakes college, Neb., is now assistant professor of geology at Cornell university. The dynamo for the Wilber electric light plant has arrived and been placed in position. A trial showed everything to be in line. The management of the Short Line railroad has closed the station at McLean on account of lack of business to warrant keeping an agent there. W. A. McManigle of Long Pine has purchased the Chattahoochee grounds near that place. He has not yet indicated what disposition he proposes to make of the property. Stockmen in Holt county say the winter has been the best one for stock in many years. There has been no deaths from cornstalk disease there has practically been no losses. Engineer Oscar Phillips, who runs from Alliance to Ravenna on the Burlington, recently brought the eastbound passenger train from Alliance to Ravenna in 28 minutes in 288 minutes, the record for the division. The Callaway Independent is dead again. The Independent has been in the habit of dying and being resurrected about once every two years, but it is thought the demise is permanent this time, as the plant has been removed to Arroid. A party composed of eight men raised a best rook at Arapahoe recently and proceeded to have a feast on the towels taken therefrom. The owner of the chickens got mad about it and had the rook arrested and they were fined \$150 each. The Valentine Republican is agitating the question of starting a packing house at that point to handle the hogs raised in that section. No one can see what the hogs should be shipped to Omaha and killed and the meat shipped back to be consumed. The westbound passenger train on the Elkhorn road the other day ran into a team and buggy between Newport and Elkhorn. The buggy was smashed and the horses killed. The train was stopped, but as the crew could find no evidence of the driver, the train was allowed to proceed. The team was a runaway. A Culbertson newspaper man evidently has a poor opinion of the religious qualifications of his townsmen. He advertised he would send his paper three months on trial for the price of three beers. When taken to task about it he replied that every man in town knew how much three beers were worth, but that if he had said he would send it for the price of a gospel book then they would not have been men in town who would know how much it was, and he might even be cheated himself on account of ignorance. George P. Marvin of the Beatrice Democrat is easily the ranking philosopher of the town. He is a man of few words, but his serene temper and he has even been known to read one of Bowdler's two-column editorials without stopping to read or sweat. Recently someone stole the Marvin family dog. Marvin prints a card of thanks, in which he says he had long contemplated killing the dog in the goodness of his heart could not muster up courage to do so. He is now writing to wrong anyone he offers to pay the price for his trouble if he will only present his bill, the only condition attached being that he shall read the Democrat for a year.

DAKOTAS HAVE TROUBLES

Choice of New Internal Revenue Headquarters is One of Them.

SIoux FALLS POSTMASTERSHIP ANOTHER

Agency at Crow Creek a Third Bone of Contention—Aberdeen Expects to Land the New Plant.

WASHINGTON, March 12.—(Special Telegram.)—Members of the Dakota delegation say there will be no agreement as to the appointment of a collector and the establishment of headquarters for the new Dakota internal revenue district for several days. Senator Hansbrough went to New York today and nothing will be done until he returns. There is a new candidate for collectorship in the person of Herman Elsdorfer of Yankton, S. D. He is strongly endorsed by Senator Gamble. The probabilities are that Aberdeen will be selected as headquarters, and in this event North Dakota senators will claim the collectorship. The contest over headquarters and appointment of collector for the new district has overshadowed for some time Sioux Falls postmastership. This matter is understood to be more complicated than ever, as it is understood that Representative Martin, the new member, has expressed a decided preference for Editor Day. The prospects against New Phillips have evidently had their effects on the new member. There is also a third contest between Senators Kyle and Gamble for the appointment of Harry Chamberlain as agent at Crow Creek. It has been decided that Agent Stephens is to lose his scalp and Senator Kyle has lodged a protest at the interior department against the appointment of Mr. Chamberlain. It is evident that on all matters of South Dakota patronage Senator Kyle has determined that he will not be outdone by the regular South Dakota republicans.

IS WANTED AT PLANKINTON

C. A. Johnson of Niles, Michigan, Was Partner in Bank at That Place.

SIoux FALLS, S. D., March 12.—(Special Telegram.)—Information from Plankinton, this state, is to the effect that the disappearance last Saturday of Niles, Mich., of C. A. Johnson, cashier of the First National bank of that place, which closed its doors last Friday after a brief run upon its funds, has created considerable excitement among the creditors of the bank of Plankinton for Johnson was one of the partners in that institution and being a wealthy man the creditors looked largely to him for a return of the sums due them. Proceedings had been commenced against him and a hearing was to have been held on Monday of this week before Judge Frank B. Smith at Mitchell. The bank of Plankinton closed its doors January 10, 1900, when Fred L. Stevens, the cashier and principal stockholder, disappeared, since which time nothing has been heard from him. The creditors of the Plankinton bank have given up hope of ever enforcing a return of their money.

HATCHET TO HER HUSBAND

Mrs. John Landon Spits Open His Head and is Taken to the Asylum.

HURON, S. D., March 12.—(Special Telegram.)—The Board of Insanity this afternoon directed the removal of Mrs. John Landon, wife of the late John Landon, to the state asylum. Mrs. Landon is reported to be insane.

Charged with Assault.

SIoux FALLS, S. D., March 12.—(Special Telegram.)—Sheriff Collins of Marshall county has gone to Grand Rapids, Mich., to bring back Edward Skinner, formerly of Newark, S. D., wanted in Marshall county on the charge of assault.

Ministerial Troubles in Holland.

THE HAGUE, March 12.—A partial ministerial crisis has arisen through an adverse vote in the Second Chamber of the States General today. The Chamber ignored the recommendations of the minister of war, M. Eland, in regard to the length of military service for recruits and in consequence the minister resigned. The opinion is generally expressed, however, that this adverse vote will be disregarded by the rest of the cabinet.

Advertising Comment. Business Diseases.

When a patient dies suddenly and the doctor does not know why, he ascribes it to "heart failure." That term is as good as any and fully covers the ground, as a man's heart usually fails when he dies. I might also say that he generally dies when his heart fails. This is one of those rules that work both ways. The sort of heart failure to which the doctor refers is disastrous to a man physically. There is another kind of heart failure which has to do with a man's business standpoint. How many a man has pushed a business enterprise along for years and then, just as he was getting the thing out of the ruts and upon smoother ground, has had an attack of heart failure and lost the whole thing. It is far better to pursue the proposition to the end and fail than to stop anywhere this side of the goal. An ambitious man, or one on his part just at the right time, which is generally the most discouraging time, might have pushed the thing over the hill and landed him and his business safely on easy street. The men who have accomplished things in life are the fellows who never know when to quit, and could not possibly be convinced even by the most discouraging train of circumstances that they ought to do anything but push ahead. During one of Grant's great campaigns when the roads were rivers of mud and it was only with the greatest difficulty the immense wagon trains and heavy pieces of artillery could be moved, one of his officers, who had been struggling nearly all day with an unusually heavy train, without making any headway so far as he could see, came to Grant completely discouraged and said: "It is no use, general, we are so deep in mud that we cannot move our heavy ordnance another mile and the rebels will get us yet." I might also say that he generally died when his heart failed. This is one of those rules that work both ways. The sort of heart failure to which the doctor refers is disastrous to a man physically. There is another kind of heart failure which has to do with a man's business standpoint. How many a man has pushed a business enterprise along for years and then, just as he was getting the thing out of the ruts and upon smoother ground, has had an attack of heart failure and lost the whole thing. I might also say that he generally died when his heart failed. This is one of those rules that work both ways. The sort of heart failure to which the doctor refers is disastrous to a man physically. There is another kind of heart failure which has to do with a man's business standpoint. How many a man has pushed a business enterprise along for years and then, just as he was getting the thing out of the ruts and upon smoother ground, has had an attack of heart failure and lost the whole thing. It is far better to pursue the proposition to the end and fail than to stop anywhere this side of the goal. An ambitious man, or one on his part just at the right time, which is generally the most discouraging time, might have pushed the thing over the hill and landed him and his business safely on easy street. The men who have accomplished things in life are the fellows who never know when to quit, and could not possibly be convinced even by the most discouraging train of circumstances that they ought to do anything but push ahead. During one of Grant's great campaigns when the roads were rivers of mud and it was only with the greatest difficulty the immense wagon trains and heavy pieces of artillery could be moved, one of his officers, who had been struggling nearly all day with an unusually heavy train, without making any headway so far as he could see, came to Grant completely discouraged and said: "It is no use, general, we are so deep in mud that we cannot move our heavy ordnance another mile and the rebels will get us yet." I might also say that he generally died when his heart failed. This is one of those rules that work both ways. The sort of heart failure to which the doctor refers is disastrous to a man physically.
