the yards. A heavy general demand existed throughout the day. Straggling shorts who had hoped against hope for a reaction, covered at a loss, with the result that the market, having made its advance during the forenoon, held at its best during the remainment of the session. The manufacture of the forenoon held at its best during the session of offerings and such sales as were made came from profit-taking longs. Hop receipts have been on a diminishing scale for ten days and prices at the yards are above the pairity of the manufactured product, making it more profitable to buy in the pit for future delivery than to buy and kill and pack the hogs. May pork opened at 14.5% to \$15.0% and advanced to \$15.2% and \$1.2% and alvanced to \$15.2% and \$1.2% and alvanced to \$15.2% and \$1.2% and \$1.2%

CHICAGO, March IE.-Aggressiveness of buils in provisions made that market the conspicuous feature on 'change today. The provisions market assumed the leadership of the markets at the start, displaying marked activity at the tap of the gong. By its builge today May pork shows a rise of \$1.59 since ten days ago. The opening advance was based on light hog receipts and higher prices in the market at the yards. A heavy general demand existed throughout the day. MOVEMENTS OF STOCKS AND BONDS.

Stocks Ordinarily Dormant Brought
Out and Made Active.

NEW YORK, March 13.—The dealings in
today's stock market covered an extraordinary range of securities. Quotations were
made for some stocks which have lain dormant for many days, and a number of usually very quiet stocks were made active.
Stocks of some small railroads, usually obscure by reason of the small amount of
their capital stock were made comparatively conspicuous in today's market. Operations were constantly shifting from one
stock to another or from one group to another, no one stock maintaining its prominence during the whole day. It was a noticeable fact also that many of the standard stocks, which are usually looked to
for the bulk of the trading, were comparatively quiescent and moved very narrowly.

Some of this class were moved late in the
day, apparently through manipulation, as
though the professional operators were
prompted to correct the appearance of singularity in the market, due to the special
character of the trading. Nevertheless, the
day's operations footed up on quite an important aggregate, and the general appearance of the market, notwithstanding its
peculiar features and the difficulty of ganiyzing it, was one of activity and strength.
There was a tendency to yield the highest
prices as interest was shifted to new points.
Extensive realizing was going on in the
general list under cover of the strength in
spots, and in the last hour an active seiling
movement to take profits caused a general
reaction, reaching a point or more in some
of the more active stocks. The closing
itself was rather strong. The day's specialty was southwestern stocks, led by St.
Louis Southwestern, the common rising 4
and the preferred 4½.

The Lake Erie & Western stocks were
very strong, the common rising 45 and the
preferred and Burlington, Cedar Rapids &
Northern rose 4 points cach. The express
stocks were strong American Express rising 4. Wells-Farge

for extensive consolidation are working out. The money market continued unruffled, in spite of the absorption by the subtreasury thus far this week of \$2,167,000 and the knowledge that \$20,000,000 must be provided for the disbursement of the Standard Oil dividend on Friday. There was no evidence of calling of loans today and the stock market was undisturbed by any uneasiness over money.

Husiness in railroad bends continued large and many substantial advances were scored. Total sales, par value, \$7,380,000. United States 2s advanced is per cent on the last call.

United States is advanced is per cent on the last call.

The Mail and Express today prints the following: It was learned today from an authoritative source that the large blocks of Chicago, Burlington & Quincy stock which have been bought in the open market during the last three or four weeks, causing a jump of 10 points in the price, were taken for the Union Pacific, and within a very short time this will be followed by the election of several Union Pacific men to the board of directors of the Burlington company.

Spanish 4s were easier on the council of ministers at Madrid having decided to purchase bar silver for coinage purposes. Rio tintos weakened, owing to the continued decline in the price of copper. Among tractions the buoyaney of Metropolitan was the leading feature. Kaffirs opened weak, but railied on rumors of the approaching prace settlement in South Africa. Wool Sales.

BOSTON, March 12.—The American Wool and Cotton Reporter will say of the wool trade tomorrow:

There is a steadier tone to the market and wool trade temorrow:

There is a steadier tone to the market and on the whole a more cheerful feeling is apparent than has been manifested for some time. A large volume of business has been transacted and it has been done without making any further concessions in prices. The pressure to sell wool is decidedly less marked than it was and some holders have refused to let wools go on a difference of only lie between their views and those of the intending buyers. Reports from manufacturers of the business they are doing indicate that orders on lightweight goods have been surprisingly large, but that fancy woolens, however, a satisfactory business is said to be in progress.

Sales for the week in Boston amounted to 4,913,969 pounds domestic and 1,319,000 pounds foreign, making a total of 6,223,000 pounds, against a total of 3,723,509 for the previous week and a total of 1,97,000 for the corresponding week last year. STOCKERS AND FEEDERS.

HOGS—There was a fairly liberal run of hogs here today, but the market opened about 2½ higher and closed a good nickel higher. The first sales were largely at \$5.42½ and \$5.45, but the popular price soon became \$5.45. The better grades sold largely at \$5.47½ and as high as \$5.50 was paid. There were no strictly prime heavy-weights on sale today such as were offered yesterday, which doubtless accounts for the top not making a better showing. It was a good, active market and the pens were cleared in good season. The bulk of all the sales went from \$5.42½ to \$5.47½, with the long string at \$5.45. As will be seen from the table of average prices; the market reached the highest point of the season today. Representative sales;
