ROSEWATER, EDITOR. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily Bee (without Sunday), One Year, \$5.00...

THE QUESTION OF INDEMNITY.

That the question of indemnity would be the most troublesome and perplexing one in the negotiations between the powers and China has been apparent from the outset.

Upon this question, as upon all others connected with the Chinese trouble, the United States has taken a conservative position.

It is stated that the government deficit for the two years ending in March, 1902, promises to be at least \$500,000,000.

It is asserted by those who claim to have information on the point that the percentage of workmen who own their homes is greater in Omaha than in any other city.

While the powers that are disposed to make excessive exactions are not mentioned in the reports as made public, it is well understood that Germany is chief among them.

There appears to be nothing more for the United States to do beyond what it has already done in urging the expediency of treating China in this matter with reasonable moderation.

The government of Venezuela has not asked for the recall of Minister Loomis, as had been reported, but such a request may be made at any time.

Reports from the national banks in Nebraska outside of Omaha and Lincoln show that the deposits are steadily on the increase.

No one can longer doubt that the fighting in the Philippines is about over. The Howard-White-Baker factions which have kept the mountain region of Kentucky in a ferment for years have decided to quit killing each other and enlist in the army.

An astute New York coroner has exonerated the poor dog who was accused of biting its mistress' throat and cutting her jugular vein while she lay in an epileptic fit.

The governor has signed the bill providing for nine supreme court commissioners. The last heard of the members of the supreme court they were headed for the stove cellar and a card on the office door indicates they will not be in sight until the appointments are made and the storm blows over.

The upward flight of mess pork is a little hard on those who were "short," but the signs of the times are that the market on all hog products will go higher.

The Agricultural department is preparing to demonstrate to the Hawaiians the value of the hen, the cow and the pig to the small land owner.

The Black Hills people are preparing for the celebration of a quarter of a century of white settlement of that region.

THE OMAHA DAILY BEE: THURSDAY, MARCH 21, 1901.

It is asserted by those who claim to have information on the point that the percentage of workmen who own their homes is greater in Omaha than in any other city.

While the powers that are disposed to make excessive exactions are not mentioned in the reports as made public, it is well understood that Germany is chief among them.

There appears to be nothing more for the United States to do beyond what it has already done in urging the expediency of treating China in this matter with reasonable moderation.

GENIUS AND THE PATENT OFFICE.

Statistics of Inventive Skill in All Fields of Activity. The inventive genius of the people of the United States is not only greater than that of the people of any other country; it is, in respect to mechanical patents, nearly as productive as that of all other nations combined.

A Credit to the Cubans. Springfield (Mass.) Republican. In calmly deciding to continue in session and give respectful consideration to the new demands of the United States government the Cuban constitutional convention displays excellent judgment and poise under trying conditions.

Advancing Value of Land. Philadelphia Record. Grazing lands in Indian Territory which formerly yielded a rental of 10 cents per acre are now in demand at from 20 to 40 cents per acre, with the cattleman eagerly competing for them at the advanced rate.

Criticism on a Heathen. New York Evening Post. It is a little hard on the Christian nations to be reminded of their Christian duties by a mere Japanese editor. The Nippon Shippo, a popular journal of Tokio, feels the awe of its position and is appealing for the sake of common humanity, against the outrage of the allies in China.

BRIGHT OUTLOOK FOR LAWYERS. Legislators Piling Up Business for the Legislature. The statistician is threefold, and it frequently happens that he is entertaining, too, some one with a liking for figures has been looking up the work of our statesmen, and finds no longer near the legislature a throng of striking men in session from 196 days (the longest) to fifty-three days (the shortest).

PERSONAL NOTES. There are 7,000 applications for second lieutenantcies in the army and only 610 commissions that grade to give out. Richard P. George, a son of the late Henry George, is a very promising sculptor and is now at work on a bust of his father.

The Change of Life

Is the most important period in a woman's existence. Owing to modern methods of living, not only women but a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

These dreadful hot flashes, sending the blood surging to the head until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous, nervous trouble.

I was a very sick woman, caused by Change of Life, not suffering with hot flashes, and fainting spells. I was afraid to go on the street, my head and back troubled me so. I was entirely cured by Lydia E. Pinkham's Vegetable Compound.

A Faculty Much Needed in Dealing with "Our Colonies." The nation's present experience in Cuba and Porto Rico will not have been entirely in vain if they bring the government officials to a realization of the practical value of the quality known as tact.

LIGHTLY PUT. Cleveland Plain Dealer: "My face is 27 from my hair's balding."

Philadelphia Record: "Is the weather man in a hurry to get to bed?"

Chicago Record: "Stubbs is translating Omar Khayyam for the masses."

Philadelphia Press: "Mr. Birmingham—it is a wonderful instinct which teaches animals to seek a safe retreat when danger is nigh."

Chicago Tribune: "Ostenhead of the Family-Maria, there was a book agent around today who wanted to see me work on six lessons. I told him I'd ask you if you thought it was worth the price."

Washington Star: "You wouldn't hesitate to put yourself at the head of public affairs in this country?"

Chicago Tribune: "I know it is," said she. "Some of the loveliest fashions ever seen originated on the stage."
