EX-PRESIDENT HARRISON

His untimely death is a reminder of the danger from pneumonia at this season of the year which is overlooked or unknown by many. More deaths occur from this disease and its after effects than from any other cause at this season. The reason for it is that in the spring the system is overloaded with the poisonous effete matter caused by winter's hearty meals, breathing heated air over and over again, and exposure to cold. The intestinal glands become clogged and inactive, and consequently the liver becomes sluggish, blood becomes thickened and impure, causing a debilitated and weakened condition of the entire system, biliousness, stupor, tired feeling, headache, sideache, backache and many other aches. These and many other unpleasant symptoms are the result of the above causes and this year it is doubly true on account of the unusual prevalence of la grippe and thousands who do not heed this timely warning will pay the penalty with their lives.

We know that when the following directions are pursued carefully, loss of life from pneumonia and la grippe are unknown, at least not a single case of the kind has yet come to our knowledge.

These directions should be followed carefully so as to renovate the whole system thoroughly and remove the poisonous effete matter out of the system which is lurking about the whole body, making the least exposure or over-exertion dangerous to life by bringing on an attack of this deadly disease. La grippe has doubled the danger this year. Dr. Kay's Renovator, which is certainly the nearest to perfection of any remedy we have ever heard of being used as a system renovator, should be taken in sufficiently large doses to act freely upon the bowels for two or three days, and then lessen the dose a little, but continue it in large enough doses to insure action of the bowels once or twice a day. Double the ordinary dose on the start and then increase or lessen the dose so as to produce one or two movements a day. If the bowels are very inactive, it is usually necessary to take two or four times the ordinary dose at first, but it should be regulated according to the effect it has upon the bowels. If this is followed up until the system has been renovated and cleansed of the poisons which accumulate during the winter, it is sure to remove the cause which is so dangerous to life. No person can afford to neglect this in the spring, as thousands of lives will be saved by a small amount of money invested in Dr. Kay's Renovator.

All persons should take a reliable renovating medicine every spring, but particularly so now. If you go at once to your druggist and buy a package of Dr. Kay's Renovator and use it as directed above, you will make the best investment possible, which may save your life and will certainly make you feel like a new man. And then, it is such a safe remedy to use; you will enjoy it from start to finish.

B. J. Kendall, Saratoga Springs, N. Y. "After taking a course of Dr. Kay's Renovator, I am glad to add my testimonial to its merits. I can testify that it is just what it is recommended to be. I have been afflicted with sick headaches for over 20 years, sometimes having two or three each week, and tried all kinds of remedies without permanent benefit. I can truthfully say that your Dr. Kay's Renovator has done more for me than any other remedy or treatment I have ever tried. I cheerfully recommend it to any suffering with sick headache or stomach trouble." Mrs. Lulu L. Elmer, Hustler, Wisconsin.

A statement issued by the latter tonight says that the race will be at Headville, Mass., in the week beginning September 16, all the gate receipts to go to charity. The race will be handled by the New England Trotting Horse Breeders' association. Mr. Lawson said that as soon as the proposed race with the Abbot was called off he proceeded to arrange a triangular race, doing so before he knew that the Abbot's owner had changed his mind. The arrangements were immediately completed between the owners of Crescens, Charlie Herr and Borloma.

The race is to be three herts in five heats, first horse to take \$30,000, the second \$20,000, each owner to deposit \$2,500 and the remainder the night before the race, all gate receipts to be divided equally between the West End Nursery and Infants' hospital and the Industrial School for Crippled and Deformed Children, both of Boston.

FIGHT ON WESTERN SCHEDULE

Managers of Clubs Lock Horns Over the List of Dates Sent Out from Des Moines.

KANSAS CITY, March 22.—Manager George Tebeau of the Kansas City club is up in arms against the Western league schedule as it was given out by President Hickey of the American Baseball league.

W. P. Chase of the Des Moines club was requested in a semi-jocular way to figure out a schedule for the Des Moines club. He took the request seriously, and he had the schedule in not only in a few minutes, but he had it in a few minutes. Chase's schedule is to too much Des Moines for me. He wants all the holidays and the Fourth of July scheduled for Des Moines, and I have not had time to figure out how many Sundays he has claimed. Another thing to be considered is the message sent out from Des Moines, which says that it will probably be an objection from a financial standpoint. The distribution of the piums in the way of holiday and Sunday dates. That schedule of Chase's won't stand, and that's all there is to it.

FRICITION OVER SHAMROCK

Pife and Watson Dispute About Proposed Changes on the Cup Challenger.

(Copyright, 1901, by Press Publishing Co.) GLASGOW, March 22.—(New York World Cablegram—Special Telegram.)—Considerable friction has arisen between Pife and Watson over the refitting of Shamrock II, which was designed by Pife. Pife insists on certain changes which he deems advisable on account of the experience gained by his boat's performance in the race for the Gordon Bennett cup. Watson, on the other hand, is equally firm in his stand that no improvements be made on her, as they would detract from the standard of comparison for Shamrock II, which he designed.

Questions have remained open between horses on race continuously, going as far east as Boston and then returning westward for the later meetings.

CRAZY STUDENT RUNS AMUCK

Shoots Two Men Who Object to His Boisterous Conduct in a Cafe.

NEW YORK, March 22.—Two men were shot at an early hour this morning in the Rathskeller of the Fabst hotel by a man called Morris, whose name as being Hayden Morris, 25 years old, and said he is a student and a native of Tennessee, not in any business and a guest of the Critteron theatre, where he was placed in jail.

About 1:45 o'clock Morris entered the Rathskeller, where probably seventy-five men and women were eating and drinking and it is said began to talk abusively. The men present resented this, and Morris, it is alleged, drew his revolver and fired five shots, wounding two men. Morris was held until charges were reported and he exclaimed, "What have I done?" and is believed to be of unsound mind. The wounded men were removed to hospitals, where their wounds were pronounced not dangerous.

When Morris was arraigned in police court he said he was Robert H. Moulton of Springfield, Tenn., and that he had been a student for three years at Columbia university. He was held in \$5,000 bail for examination on Monday next.

Moulton gave a user of morphine and that he took a good deal of the drug yesterday. He said he remembers going to the Broadway theatre and remembers the second act of the play there, but nothing more. He also remembers coming out, but asserts he does not remember anything that happened from that time until he found himself in the patrol wagon.

It was said at the hospital that Dingwall was resting easy. After the proceedings in court were finished a statement was given out at the Broadway theatre to the effect that the woman who was with Dingwall and Leffingwell at the time of the shooting was May Buckley, a member of the company now appearing at the Broadway theatre. Miss Buckley asserts she had not been in the Fabst at all last night.

FIRE ESCAPES ARE WANTED

City Building Inspector Carter Urges Passage of Bill.

ENDORSED BY STATE LABOR COMMISSIONER

Chief Provision of Bill is that Buildings Not Properly Equipped May Be Closed—Danger in School Buildings.

City Building Inspector R. B. Carter has returned from Lincoln, where he went to urge the passage of the bill introduced by McCoy of Douglas and providing that all public buildings shall have suitable fire escapes. In its original form the bill required fire escapes for all buildings of two stories or higher. It will be amended so as to apply only to buildings of three stories or more.

"The bill is backed by the state labor commissioner," said the building inspector. "It is a bill that should be made a law. The chief provision in the measure is that buildings which are not properly equipped may be closed. This will make its enforcement possible. Under the old system of fining offenders it was almost impossible to compel the construction of fire escapes."

School Buildings Unprotected. "There are many buildings in Omaha which should be provided with fire escapes and under the proposed law many needed reforms could be made in this city. Several of the public school buildings are without escapes. Farnam, Park and Castellar schools are among the number.

The recent fire at St. Joseph is but another example of the loss of life that is possible in buildings which do not have safe fire escapes. Omaha has had similar casualties and it is high time that steps be taken to prevent any more fatalities.

Besides the public school buildings mentioned there are many other public buildings in the city which are equally bad. The Chamber of Commerce building is one of the many down-town buildings which should be provided with fire escapes. Some of the private schools are not well equipped.

He is 75 years old, has no home and rather than go to the infirmary, he wants to be locked in jail. When Carr heard that the prosecuting attorney would probably not file the indictment against him, he wept like a child and became sick worrying over his future. The services of a physician were required.

CLERGY MINISTER TO THE SICK.

From Many Parsonages Come Words of Praise for Paine's Celery Compound.

More practical work and shorter doctrinal sermons distinguish the pulpit of today. Bishops and plain ministers of the gospel are putting tremendous energy into the cause of good government and public health.

The injunction, "Minister to the sick and suffering," is being literally obeyed. Clergymen are investigating remedies as they have never done before, taking them themselves and finally, frankly recommending the valuable ones on condemning the worthless.

Rev. W. E. Aldridge, of Birmingham, Ala., says he considers it his duty to let his people know about Paine's celery compound, as he speaks from personal knowledge. He says:

Gentlemen—I have been afflicted for ten years with what I thought to be heart disease, but after having the physicians examine me, I learned that I was almost dead with indigestion. They told me that they could give me medicine that would relieve me, but there was no permanent cure. Then I began using Paine's celery compound, which gave me immediate relief, and now I am well and enjoying good health. I can recommend Paine's celery compound to be the best remedy for all ailments I ever used, and furthermore, I tell my people if they will use the compound freely they will have no doctor's bill to pay.

Merryman paid his workmen with worthless checks and in the unexpected event of being declared sane he will be prosecuted on that charge.
