THE well-known dramatic reader writes from her residence, 20 W. 15th Street, New York City. This talented and versatile lady has made an enviable name for herself on the stage by her excellent work in support of some of the leading stars, besides being noted in literary and art circles as an adept with the pen and pencil. She is justly proud of her magnificent head of hair,

which is shown to advantage in the accompanying photograph.

"Some time ago, when my hair was brushed, I noticed more and more the increase of hair left on the comb. My scalp became dry, and my hair grew thin so rapidly that I had to change the style of wearing it. I then tried various hair tonics, the effect of which was to make my scalp exceedingly tender, and the hair stiff and brittle when dry. I resolved to try CUTICURA. The comfort I experienced before I had given it a long trial was so great that I determined to continue it. Taking care to have the room warm, I would shampoo my head with a strong lather of CUTICURA SOAP, letting it remain for some time. I would then wash it off with warm water, and dry thoroughly. After a short time my hair ceased coming out, growing soft and silky to the touch."
