

PRENTICE TILLER IS HELD

Notorious Crook Must Go to Cincinnati and Appear for Trial.

BOUQUETS FOR THE POLICE DEPARTMENT

Pinkertons and Others Throughout the Country Regard Capture of Tiller as Being Particularly Important—His Record.

Prentice Tiller, one of the most notorious criminals in his line in the country, whose capture in Omaha was exclusively announced in The Bee of Friday, had his preliminary hearing yesterday before United States Commissioner Anderson and was held for trial in the federal court at Cincinnati under \$2,000 bonds.

Chief Donahue has received several telegrams of congratulation from postoffice inspectors and detective agencies throughout the country for his good fortune in capturing so dangerous a man. The chief fully realizes that in the person of Tiller he has an ordinary criminal, and last night, fearing that he would try to break jail, stationed an armed guard in the corridor outside his cell.

Three Witnesses Testify. Three witnesses were examined before Commissioner Anderson—C. H. Wanser, chief of police at Hastings; Frank Ollshant, cashier of the Adams Express company, Hastings, and Michael F. Dempsey, the Omaha detective who made the arrest. Dempsey testified that while he was leading Tiller to jail the latter offered to bribe him to turn him loose.

Frank Ollshant testified to the fact that Grant had called at the express office Tuesday and arranged to send a valise to a person named John R. Palmer at Omaha. This was significant, as it was evidence tending to show that the valise containing the money was sent to Palmer.

Postoffice Inspector Sinclair has received a telegram from the postoffice inspector at St. Louis, saying, among other things, that in the robbery of postoffice boxes at Cincinnati March 5 no less than twenty letters containing checks had been stolen.

The identification of Tiller was made more positive yesterday through the medium of a detective agency publication, which printed his picture, description and specimen of his handwriting. He was also identified as Prentice Tiller by L. A. Goldsmith, saloon keeper at Ninth street and Capitol avenue. He and Goldsmith were schoolboys together at Louisville, Ky.

TAKE CITY FOR EASY MARK

Many Damage Suits Are Brought Without Foundation in Fact.

"Damage cases against the city seem to be quite a fad. Not less than sixty cases are filed and new ones are coming in nearly every day. There is absolutely no ground for action in most of the personal injury claims that are presented to the council. A few lawyers who are short on clients get hold of all persons who fall down on the street and try to hatch up a case that will bring them a few dollars."

"A few months ago a claim for damages was filed by the father of a little girl who was said to have been injured on a defective board walk. Physicians examined the child and could find nothing wrong with her. I managed to get the little girl away from her father for a few minutes and she told me about her injuries. She had stepped on a brick and in falling her foot had struck the edge of the sidewalk. The father fixed up a story about a hole in the sidewalk, but the child's conscience ruined the claim."

"It seems to run in families to get hurt. Some people lie awake at night trying to figure up some way to beat the city out of money. Great care is taken in photographing all defective walks and streets where people are said to have been injured. This plan defeats many schemes to defraud the city. The pictures tell the story better than witnesses and are invaluable."

Strikes a Rich Find. "I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "I was helped by my unit, I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles, that they are a grand tonic and invigorator for weak run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Kuhns & Co.

MASS AND CONSECRATION

Impressive Ceremonies Arranged for Maundy-Thursdays at Catholic Cathedral.

Bishop Scannell has issued his request to the clergymen who are expected to take part in the pontifical mass at the cathedral April 4 (Maundy-Thursdays), at 10 a. m. During the mass the oils used in three of the sacraments of the church, baptism, consecration and extreme unction, will be consecrated. This ceremony is one of the oldest in the church. The exact date of its establishment as a regular ceremony cannot be fixed, but it is traced to apostolic times.

BURY WIRES, SAYS SCHURIG

City Electrician Draws Lesson from Friday Night's Storm.

"A storm like the one Friday night emphasizes the need of underground conduits for electric wires on the main streets of the city," City Electrician Schurig remarked Saturday. "It was a piece of good luck that the accident was averted. If the storm had kept up a few hours longer or if the wind had been high the streets would have been a tangle of wires. The Nebraska Telephone company and the New Omaha Thomson-Houston Electric Light company are to be commended for their promptness with which they put men to work. Employees of these companies watched the wires of their own companies and assisted in straightening out other wires that threatened to give trouble."

HEROES OF THE REVOLUTION

Omaha Descendants Arrange for Proper Observation of Anniversary.

The Sons of the American Revolution have completed their plans for the commemoration of cardinal dates in the war of the American revolution during the present year. There will be four meetings, three of which will be held in Omaha. The first meeting will be held April 19, the anniversary of the battle of Concord. At this meeting papers will be read by John R. Webster, John A. Goff and Thomas G.

CANNOT GUARANTEE COST

Architects Find Final Estimate of Requirements Submitted by Building Committee of Auditorium.

The architects interested in the construction of the auditorium are sending in letters to the building committee of the auditorium company giving their opinion as to the terms of the proposed competition. As the preliminary plans outlined by the committee a few days ago are considered they present new difficulties to the architects. One of the insurmountable difficulties in the preliminary plans requires architects to guarantee the cost of construction at the figure fixed in the estimate. This, in the opinion of the architects, is practically impossible, and the general opinion is voiced by one who said:

"If we were contractors we might guarantee the maximum cost of the building, but as architects we have no control over prices. The contractor can secure his material and can know what it costs. He can buy on the market at today's quotations for delivery when the material is needed. We have our estimates on the price of material today. On such a building as the auditorium a change in the quotations of steel might wipe out our entire commission in one day. If we had contracts for the material we could fix prices with certainty, as it is we cannot."

THIRTY YEARS A SOLDIER

Envious Record of Solomon Holliman, Who Has Retired and Will Live in Omaha.

Solomon Holliman, who has served as a soldier for the United States for more than thirty years, is in Omaha from the Philippines, where he was retired from active service last month. Holliman is a negro and he enlisted in the army at Charleston, S. C., in 1866, being assigned to Company F of the Fortieth Infantry. Here he served his first enlistment and was then transferred to Troop A of the Ninth cavalry. While a member of that troop he was made sergeant and then first sergeant, which position he held when mustered out. He took part in every campaign against the Indians in which his regiment participated, and at the battle of Wounded Knee, and in that battle received commendation for his courage displayed in removing wounded comrades from the fire of Indian guns. He went to Cuba and served until the regiment was ordered to the Philippines. In the Orient he was under the command of General Bell and won a reputation as a fearless fighter and model soldier. Holliman will take up his residence in Omaha and draw from the government three-quarters of the regular pay of a first sergeant.

"The 'Century' is the most authoritative work of reference in the English language. Why buy inferior works and always regret it, instead of possessing 'The Century' and never be disappointed."

SPECIAL COMMITTEE NAMED

Park Board Continues Its Effort to Settle with Property Owners.

At its meeting Friday afternoon the Board of Park Commissioners named Members E. J. Cornish and J. H. Evans and City Attorney W. J. Connell as a special committee to confer with property owners who have protested against the price appraisers set upon land necessary for the extension of Southwest boulevard from Hancock park to Curtis Turner park. Settlement has been made with a majority of the interested land owners and the board hopes to be able to come to an agreement with the others in time to open the boulevard as soon as the weather will permit.

A water famine is threatened in Riverview park. The artesian well which feeds the artificial lake yielded 114,427 gallons of water per hour when it was first bored. After the sinking of the well at the smelter the park well fell off nearly one-third in capacity and the sinking of a well by the A. Booth company reduced the flow of the park well to 23,725 gallons per hour. When the Booth company struck a flow of water traces of mud were noticeable in the water from the park well and it was several days before it was restored to its natural condition. Members of the park board are of the opinion that each additional artesian well sunk in the city will reduce the flow of water in the park well and believe that their limited water supply will make it impossible to keep the lake filled.

IT MAY MEAN A TRANSFER

Joint Use of Tracks and Terminal Facilities Creates Some Anxiety.

The Milwaukee is out with the announcement of its transfer over the Davenport, Rock Island & Northwestern tracks from Clinton to Davenport, the service to be established Monday, coincident with that by the Burlington. By some peculiar arrangement, the details of which have not been made public, the Burlington and the Milwaukee are to have the joint use of the tracks and terminal facilities.

JURY ACQUITS MR. KELLER

Defendant Denies that He Ever Owned the Goods Shipped to Him by Jobbers.

Joseph Keller of Lawrence, Neb., who was tried in the criminal court on a charge of having obtained several thousand dollars worth of goods from Parlin, Orendorf & Martin under false pretenses, was found not guilty by the jury. Keller's defense was that he never owned the goods shipped to him by Parlin, Orendorf & Martin, and therefore could not have obtained them under false pretenses. The goods were sent to him under a contract that provided that the title was to remain with the firm until the goods were paid for.

RED MEN HOLD THE LAND

Omaha and Winnebago Injunction Suit is Decided in Federal Court.

The injunction case argued in the United States circuit court Friday, wherein fifty-five Indians of the Omaha and Winnebago tribes seek to restrain Indian Agent Matthews from allotting lands in which they are interested to other parties, has resulted in a victory for the aborigines. The injunction has been granted and Agent Matthews has orders not to meddle with the tracts in controversy.

EULOGIZE DEAD BROTHERS

Members of Omaha Bar Do Honor to Late W. S. Strawn and Late D. D. Gregory.

There was a large attendance at the memorial exercises for the late Judge W. S. Strawn and the late Judge D. D. Gregory, held in district court room No. 2 yesterday. Judges Keyser, Estelle and Slabaugh presided and eloquent eulogies of the departed jurists were spoken by E. R. Duffie, Charles A. Baldwin and several other members of the bar.

Oil Cloths, Linoleums

Floor Oil Cloth, sq. yd..... 30c Linoleum sq. yd..... 55c Linoleum sq. yd..... 70c

Father Finds Son Dead Beside Him

Mother is Discovered Crouching Near Window, Where She Had Groined Her Way Before Life Became Extinct.

SIoux Falls, S. D., March 30.—(Special Telegram)—Hannah, the wife of Joseph Holland, and their son, Daniel, aged 11, were found dead this morning, having been asphyxiated by escaping coal gas from their soot coal burner. The family, which lived in a single room, retired as usual Thursday evening. At 8 o'clock this morning Holland recovered sufficiently to attract the attention of neighbors. The son lay in bed beside his father, dead, while the body of the mother was discovered in a crouching position in one corner of the room, she evidently having managed to grope her way from the bed in an effort to open a window, or open the draft of the soot coal burner stove, the damper of which was found to be turned squarely off. The woman and boy had been dead many hours, as their bodies were cold and stiff. The fire had gone out, which doubtless saved Holland's life, fresh air having entered the room. The family came to Sioux Falls from Buxton, N. D., ten years ago.

SALE OF THE CHICAGO POST

Bought by Company Headed by J. C. Shaffer of Evanston.

CHICAGO, March 30.—The Evening Post was today sold by H. H. Kohlman to a company headed by J. C. Shaffer of Evanston, who will be president and publisher of the paper. Samuel T. Glover, for several years managing editor of the paper, will be its known hereafter as the Chicago Post, will appear Monday in an entirely different form. The pages will be reduced one-half from the present size, but increased in number from eight to sixteen.

INDICT ELECTION OFFICERS

St. Louis Grand Jury Starts In on the Frauds Perpetrated Last Fall.

ST. LOUIS, March 30.—The February grand jury, which yesterday made a most scathing report on fraud perpetrated at the last election, has indicted several election clerks and judges of election for alleged neglect of duty: Moses Baerech, Joseph Sieridan, J. F. Evans, Dietrich Nord, Frank Carraber, John Tracy, E. J. Coff, John W. Whalen, Edward Ferring, Joseph Franklin, James W. Johnson, Charles J. Bonroe, Frank Owen, Bernard Fries, John J. Maurer, Adolph Eppinger, John J. Callahan, H. F. Hoonet, Edward J. Feehan, Joseph Reis, Joseph Watts, Michael J. Kelly, Michael E. McFadden, Charles Brunner, Fred Vogelmann, Paul F. Mohan, Otto Kohrs, Patrick McDermott, Edward Rice, Charles Steffy and Albert G. Smith. C. L. Hogan was indicted for unlawfully acting as a challenger.
