ECZEMA'S ITOH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and in-flammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other exter-nal applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetter on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort Four doctors said the Tetter had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. and was completely cured. This was fifteen years his was fifteen years go, and I have never

Decree Will Not Be Repealed, but Excention of it Will Not Be Attempted by the Emperor.

NEW YORK, March 30 .- Prince Peter A. Krapotkin, the famous Russian anarchist, was in this city at the Gerard hotel last night.

"The first effective blow has been dealt to autocracy in Russia," said Prince Krapotkin in discussing the affairs of his country. "It has been struck within the last forinight. The ministers of state have notified the czar that a law he promulgated could not be enforced. This is the first time it has ever been done. It marks the first step in the progress which will eventually make Russia a federal government such as is that of the United States. "This law of the emperor's was the cause

The trouble all arose out of an incident at the University of Kieff. A student had become unpleasantly involved in some scandal there and the other students held meetings to decide what should be done to protect their fellow student from notoriety. The dean of the university arrested a number of students and the matter was reported to the minister of public instruction, who told it all to the cza. "The ezar is an irresponsible, not very clever young man, and he promptly issued an order, according to which all students who participated in meetings of any kind will be at once sent to the army for service of two or three years, as the case may be

At the present time the 12,000 university students of the empire are exempt from army duty. "Under this new law 183 students from the University of Kieff have been sent to the army. The new law is unconstitutional, for while the czar may cause a law to be made in one or two ways, the old law must first be repealed before a new law is made. The old law exempted students from army service. It has not been repealed and th

ministers of state were not consulted in the formation of the present obnoxious decree. "I have a letter from a woman of high rank in Russia, in which she says the public prosecutor at Kieff, the general of gendarmes, and a miliary general who belongs to the commission appointed to draft the students have joined in a memorial to the czar, in which they say it is impossible to condemn young men in this ruthless fashion.
