

The Blood

HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetter—in fact the majority of human ailments—are caused by poisons or humors that are engendered and fostered in a sluggish and impoverished blood. Old sores, chronic ulcers and rheumatic pains are common, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antidotes and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old, unwholesome blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

S. S. S. is the only guaranteed pure vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. All correspondence is conducted in strictest confidence.

GORDON LASTS ONE DAY

Judge of Police Court is Suspended by the City Council.

BRUCE CRAWFORD TAKES THE BENCH

Impeachment Proceedings are Instituted Against Judge Gordon and He is Cited to Appear April 10 to Answer Charges.

Police Judge Samuel J. Gordon enjoyed but one day of supremacy in the city court. Charges were filed against him last night by Mayor Moore and he was suspended by the council pending trial on these charges.

At 10 o'clock the morning of April 10 Judge Gordon will appear before the council and stand trial for misfeasance and malfeasance in office. Bryce Crawford was appointed to fill the office of police judge until the council takes action in the Gordon case.

The former impeachment charges brought against Judge Gordon covered seventy typewritten pages, but the charges filed by the mayor last night cover more than 100 closely written pages and are much more comprehensive than those presented in the first trial. Many additional cases in which the judge suspended sentences illegally have been ascertained and will be brought before the council.

Council Has Jurisdiction.

Judge Gordon was originally tried before Judge Dickinson of the district court and found guilty of misfeasance in office. The decision was reversed in the supreme court on the ground that the city council of Omaha, and not the district court, has jurisdiction in the case.

This decision restored Judge Gordon to his seat on the bench. The mayor had his original charges re-drafted. Much additional evidence has been secured since the first action, and City Attorney Connell embodied this in the papers submitted to the council last night.

Six members of the council—Karr, Hoye, Mount, Trostler, Zimman and Hascall—were present at the meeting. All voted to suspend Judge Gordon, with the exception of Zimman. The appointment of Bryce Crawford to act as police judge was approved by all the members present.

Six members of the council have been active in pushing the charges which the Board of Education originally brought against Judge Gordon. These members investigated the original charges thoroughly before carrying the case into court. With the matter entirely in the hands of the council there is but little question as to the outcome of the trial.

New Police Judge.

Judge Gordon's successor, Bryce Crawford, has been justice of the peace in Omaha since last year. He is 31 years old and has lived in Omaha fifteen years. In 1894 he was admitted to the bar. Since that time he has practiced law.

Councilmen Hascall, Mount and Zimman, the committee appointed to draft resolutions on the death of Judge William R. Learn, submitted the following resolutions, which were adopted by the council:

Resolved, By the city council of Omaha, That the announcement of the sudden death of Judge William R. Learn causes regret and sorrow. As a citizen of Omaha he was respected and as a judicial officer he was recognized for his ability, integrity and legal qualities displayed in his decisions. His early career is recorded in the public records of this city and we take this last occasion to express our appreciation of his worth, both as a citizen and a public official, and to extend our sympathy to the relatives of the deceased.

South Omaha News

Work on the new sale pavilion at the stock yards has been begun. Ground was broken Thursday and the construction of the building will be pushed as rapidly as the weather permits. When the pavilion is completed this market will have ample facilities for the sale of pure bred stock.

The pavilion and barn will occupy a ground space 140x53 feet and will be on the triangular strip immediately south of the present barn. The sale ring will be in the east end of the building and will have a seating capacity for 500 people. All of the seats will be of the opera chair pattern and will be arranged in a semi-circle and in tiers, giving all present a splendid view of the sale ring.

Speaking of the new building yesterday, General Manager Kenyon said that last year with splendid facilities Chicago held fourteen sales of pure bred stock, while South Omaha, with practically no facilities, held ten successful sales. In this new structure the good features of the sale pavilions at Chicago and Kansas City will be combined. A number of modern improvements will be added, making the pavilion here one of the best in the country.

In design the building will be attractive and modern in every respect. No expense will be spared to provide for the wants of the stock owners who desire to have sales here.

Colonel F. M. Woods, veteran live stock auctioneer, has long held that with its central location and admirable railroad facilities South Omaha was lacking only in a first-class sale pavilion. The effect of this pavilion will, it is thought, make this market the leading point for sales of pure bred stock. It is expected the pavilion will be completed May 4.

Next week sales will be as follows at the yards here:

Tuesday, April 9—F. A. Edwards, Webster City, Ia., shorthorns.
Wednesday, April 10—N. A. Lind, Rolfe, Ia., shorthorns.
Thursday, April 11—Korns & Lee, Victor, Ia., shorthorns.
Friday, April 12—C. C. Bigler & Son, Victor, Ia., shorthorns.

City Hall Bonds.

On account of the crowded condition of the city hall the suggestion has been made that as soon as matters can shape themselves the city issue bonds for the purchase of a site and the erection of a city hall building. At the same time bonds for the purchase of a site for the proposed library could be voted. It is thought \$100,000 will be enough for both. A city hall large enough for all purposes could, it is asserted, be constructed for \$25,000, leaving the balance for the sites. In the present city building the officials are crowded and there is no place for a tax commissioner. The city is paying rent for the building it now occupies at the rate of \$1,500 a year and this will go a long way toward paying the interest on the bonds. While the city has a lease on its present quarters it is thought suitable arrangements can be made for a transfer. The vacant property at Twenty-fifth and M streets has been suggested as a suitable site for a city hall building.

Should Repair Paving.

The pavement on Twenty-fourth street is in bad shape and it is thought the council will take steps to have it repaired. Last summer the work was done by the city, when the holes were filled with broken stone and cement. The same plan may be pursued this year, as it is considered that the repairs made proved satisfactory. The cost last year was about \$1,900, while the asphalt company wanted something over \$2,900 to place the street in first-class condition.

Deadline Continues.

The deadline in the city council continues. At the adjourned meeting Thursday night there was no quorum. Mayor Kelly, President Adkins, Fite and Miller failed to show

up. Those who responded to roll call adjourned until Friday, but it is understood there will not be a quorum until Monday, when the vote cast at the recent election is to be canvassed. The trouble seems to be about the division of the wards. The chances are the ordinance will not be introduced until after Monday night. Three ordinances have been prepared, each differing in ward and precinct lines.

Serving Without Pay.

The filing with the city clerk of the ordinance naming the salaries of the city officials under the new charter has raised the question whether the city officials are drawing pay. Lawyers contend that as soon as the charter went into effect all its provisions were to be complied with at once. The maximum salaries to be paid had been provided for in the charter, but the exact amount of compensation is to be fixed by ordinance. As the council has not acted on this ordinance it is contended that the present officials are serving without pay.

These maximum salaries are provided for by the charter:

Mayor, \$1,500; city treasurer, \$500; city clerk, \$1,200; deputy city clerk, \$500; city attorney, \$1,500; assistant city attorney, \$500; police judge, \$1,000; tax commissioner, \$1,500; members of the city council, \$600 a year each; city engineer, \$1,200; chief of police, \$1,200; chief fire department, \$1,200; policemen, \$50; firemen, \$40.

One of the first duties of the council will be to pass the ordinance fixing salaries. It is thought in most cases the maximum salaries will be paid.

Labor Temple Hall.

A hall will be given in the dining room of the Exchange building Monday night to raise funds for the labor temple. Over 500 tickets have been sold and the building committee is pushing the sale.

James Murphy will be master of ceremonies and Frank Clark prompter. Here are the committees:

Reception—Philip McEvoy, P. C. Caldwell, A. C. Berry, James Thomas, P. P. Hill, James Lawley, A. Buckley, Stephen Vail, Ira Davis, J. C. Troutan, E. G. Smith, D. Davidson, Daniel Sullivan, Otto Wurm, Mack Anna, Novak, Miss Jennie Levy.

All committees, including the building committee, will meet in Labor hall, Packers' National bank building, Sunday afternoon at 2.

Frank Slnbaugh Home.

Dr. Frank W. Slnbaugh returned yesterday from California, where he passed a month, most of the time at Los Angeles. From there he made a number of trips to Santa Catalina island for the purpose of trying the tuna fishing. The doctor didn't succeed in landing a tuna, but he is loaded with anecdotes of this kind of sport. He said that one of the guests at the island was towed eight miles to sea by a monster tuna. At the end of this long run the tuna was tired out and was then gaffed without trouble. On his return trip the doctor came over the southern route and spent a day or two in Old Mexico. The doctor is an enthusiastic amateur photographer and secured many interesting views.

Ice Goes Higher.

A prominent dealer in ice said last evening the chances are ice will be 10 cents a hundred higher this summer than last. This increase in price is caused by the light crop harvested in the vicinity of Omaha. It is understood that for domestic use a large quantity of ice is to be shipped from Minnesota.

Maile City Gossip.

Henry Miles has returned from a western trip. Miss Giblin, Twenty-seventh and H streets, is ill. Fred Meier, son of C. A. Melcher, druggist, is sick. BODY ARRIVES AT MIAMI

Remains of Captain Marsh Expected to Reach Omaha Sunday Morning.

A telegram was received yesterday from Miami, Fla., by Mrs. W. W. Marsh, that the body of her husband, Captain Marsh, arrived at that port yesterday and was taken at once to Jacksonville. The telegram was sent by Allen Marsh, who was with his father in Nassau, Bahama islands, at his death.

He said further in the telegram that he expected to arrive in Chicago Saturday afternoon at 5 and would probably reach Omaha Sunday morning. No definite arrangements have been made for Captain Marsh's funeral. Services will be at the Marsh home, 804 Pine street, either Monday or Tuesday afternoon.

Always Tired

Of course you are. Tired when you go to bed, tired when you get up, tired all the time. Your doctor calls it nerve exhaustion, general debility. He recommends a nerve-lifter, a general tonic. Ask him what he thinks of Ayer's Sarsaparilla for this. We are willing to leave the question with him. He knows all about our Sarsaparilla and what it will do. For half-sick and half-well people there isn't a medicine its equal in the whole world.
