Governor Dietrich Plans Release of Omaha's

## COMMUTATION OF SENTENCE AND PAROLE

Combination Scheme Necessary to Avoid the Intricacies of the Law -All May Be Done in Two Weeks.

LINCOLN, April 13.-(Special.)-The application for a commutation of the sentences of Henry Bolin will receive the attention of Governor Dietrich after he returns from Montana. Attorney General Prout has been investigating the law on parole and commutation of sentence and today he sent a written opinion on the subject to the governor's office. This opinion was prepared in response to four questions propounded by Governor Dietrich, all relating to the meaning of the law and upon which depends the action that he will

take. Until the governor returns the attorney general's interpretation will be withheld from the public.

Although he has made no public declaration in this regard, it is known here that Governor Dietrich hopes to find a way to Senator Millard at Omaha and both will release the Omaha former city treasurer. 80 immediately to the national capitol. At first it was supposed that will return from Washington in the latter he could be released on parole, but an ex- part of the month, probably to remain until amination of the statutes showed clearly

that such a course could not be pursued because of a provision which says that no prisoper shall be subject to parole until after he has served the minimum time provided by law for the crime for which he was convicted. The most likely plan will be to commute the third sentence of ten years and then immediately release the man on parole under the second sentence. the one he is now serving. Such a plan, however, is surrounded by several legal difficulties and the governor will make no effort to carry it into effect unless he sees his way clear to do so.

Notice of the application for the commutation of Bolln's sentences has been ordered published in an Omaha newspaper. and if the opinion of the attorney general is favorable to the proposed plan Bolln
