Diffusion of Wealth

Louisville Courier-Journal.

One of the most significant features of the day and one conclusively demonstrating the more general distribution of wealth is the fact that the note brokerage houses of New York have opened branch offices in Chicago and other western cities.

The note brokers who formerly came to New York without solicitation is now being absorbed by the banks of the west and south, and that if they are to retain the large business they have so long carried on they must seek it in the places where it originates.

During the past two years mercantile interests have made a very large amount of money, and examination of their statements shows that they have refrained from going into outside matters to any great extent.

The conditions noted in New York are gradually being duplicated here and in the west. Interest rates in the interior of Kentucky that were formerly 8 to 10 per cent are now down to 5 and 6 per cent.

AGUIBALDO'S SALUTE TO THE FLAG.

Minneapolis Journal: Had Aguinaldo discovered his mistake some time ago the Filipinos would have been saved from much tribulation.

Indianapolis News: "Glorious sovereign banner of the United States" is a pretty strong language for one in Aguinaldo's position, but perhaps his remarks are to be taken in an Oriental sense.

Chicago Post: The War department is represented as certain that field operations will soon cease and that the Aguinaldo manifesto will hasten pacification and reconciliation.

Kansas City Star: Aguinaldo's address should do much toward the speedy settlement of the military situation in the Philippines.
