# THE OMAHA DAILY BEE: THURSDAY, APRIL 25, 1901.

pose, and escorted to the Shoreham. The delegates conversed with the reception committee through an interpreter, though most of them speak English very well. .t was stated that arrangements for their visit to the president would be made through the War department.

General Wood, governor of Cuba, also srrived this morning, with his family, and took apartments at the Richmond. Later he had a conference at the War department with Assistant Secretary Sanger. i.e Ia., June 1. The area to be covered is sent his secretary to call on the Cuban seventy-eight square miles, containing a delegation to ascertain their desires for the population of 1.515. M. F. Hicklin, G. C. day in order that he might be able to act as their escort, either to the White House or the War department.

General Wood has no direct information from General Whiteside regarding the reported troubles at Santiago, but before he left Cuba he had been advised by General Whiteside that party strife was making some trouble in that municipality, and that disorders might be anticipated during the spring elections in other sections of the island. After that, however, it is expected that the usual tranquillity of the island will

be resumed. The delegates remained at their hotel most of the morning. Quite a number of officials called, including Assistant Secretary Hill, for the State department, and Assistant Secretary Sanger, for the War department, who left cards individually for each member of the delegation.

When inquiry was made of Mr. Tamayo, one of the delegates, as to the plans of the party he answered that the delegation felt it would be discourteous to enter upon a discussion of their business before they had called on the secretary of war. Arrangements have been made at the War department by which the secretary will receive the delegation at 11 o'clock tomorrow morning, and probably escort them to the to the approval of the maps in question White House about that time.

DR. W. D. TANNER, CURED BY DR. GREENE'S NERVURA

Here is the strongest possible testimonial of cure, the restoration to health of a widely known and eminent physician, W. D. Tanner M.D., of 280 Idaho St., Denver, Colo., who graduated in the Allopathic School of Medicine in 1852 and practiced medicine for twenty-five years. He was sick and nothing helped him until he used Dr. Greene's Nervura blood and nerve remedy. Now he is well and strong, hearty and vigorous, and he tells the world of his remarkable cure by Dr. Greene's Nervura in order that all who are sick, suffering, run down, or in any way out of health may take this surest of all remedies to cure, and be promptly restored to health. Dr. W. D. Tanner says :

"When in the City of Mexico I was sun struck, which paralyzed my nervous system and left me a wreck. Since that time all through life I have had to avoid all the pursuits of life where one is liable to be overcome by heat. I have taken care of myself, and used remedies prescribed by doctors until old age and general debility came upon me. I then became constipated, had involuntary twitchings of the muscles, palpitation of the heart, torpid liver, and indigestion, and could not sleep, and my appetite failed me.

"Under these conditions I was seeking after a good cathartic, when a friend advised me to try a bottle of Dr. Greene's Laxura Cathartic Pills. I did so and the result was entirely satisfactory. I then procured a bottle of Dr. Greene's Nervura blood and nerve remedy, and I have been using it ever since. Since that time I must confess to all the world that I enjoy better health now than I have for the past fifty years.

"My hearing, taste, and smell, and sight are good ; my appetite and digestion are all right; I sleep well, and I must say that these physical changes have taken place within me under the influence of Dr. Greene's medicines; hence, I can truthfully recommend Dr. Greene's medicines to all people who are afflicted with pervous diseases, and to all working people who are exposed to changes of heat and cold.

"I was always predjudiced against patent medicines, but must confess that since using Dr. Greene's remedies I feel as well as I did in my younger days."

the nature of their errand.

attach most importance to the subject of sugar duties. The commission is trying and Clover Valley. to secure a remission of the United States duty on Cuban sugar. It is suggested that

if this cannot be done at once, then the duty may be removed gradually, reducing a percentage each year until the sugar is duty free. The president cannot grant this request, as it involves a change in the tariff laws, and therefore application must be had to congress. This may take the shape of direct joint legislation by the two houses, or it can be accomplished by the negotiation of a reciprocity treaty. The Cubans, it is believed, prefer the latter

Tobacco, too, is another subject which the secretary of war will be obliged to discuss with the commissioners, and on that point he wanted advice. The Cubans are extremely desirous of securing a considerable abatement in favor of their own tobacco of the extremely high tariff imposed by the Dingley act upon all imported to-

After a conference lasting for more than three hours Secretary Root and General Wood left the War department together for lunch. It was stated that there was nothing regarding the conference that could be made public, and that the matters discussed rick. covered many subjects in Cuba, not alone the visit of the Cuban delegation, but everything connected with the government of the island.
