Women's Clubs and Home Life.

"Are Women's Clubs a Beneficial Factor in Home Life?" was the subject of a paper

by Mrs. Julia Clarke Hallem of Sloux City. She pointed out how the home might suffer from the interest in the club and how it might be greatly benefited. She said the woman is the one point of contact between the club and home. Whether the club was a help or a bindrance depended upon the woman herself, but a well-balanced woman must profit by an education of her judgment such as it received by club association. "How Can the Woman's Clubs Help the Teachers " was the topic of a paper by Mrs. S. E. J. Sawyer of Creston, who expressed the opinion that the club could

greatly help the work of the teachers by beautifying the cities, towns and school rooms and so supplementing the teachers' efforts in the same direction.
