SPEAKS OF THE PHILIPPINES

President Discloses Their Destiny in Speech at Santa Barbara.

FIRE CHIEF STAYS WHILE HOME BURNS

Decides to see McKinley When He Has a Chance and Repair His Losses at Most Convenient Time.

SAN LOUIS OBISPO, May 10.—The route of the president's train lay northward from Los Angeles, today, through the Santa Clara, nestling under fog-washed mountains to the coast, where it ran hours along the edge of cliffs overlooking the Pacific ocean. At every stopping place today there was a flower show rivaling in beauty the floral parade which the president witnessed yesterday at Los Angeles. At Ventura and Santa Barbara the president was overwhelmed with flowers. The carriages in which he rode were lined with them and the streets were paved with them. There was no abatement today of the enthusiasm which has attended the president's progress since he entered California. As he approaches his destination at San Francisco the programs at the different stops are more enjoyable and less fatiguing. A drive through the city was in each case the principal feature at the places where he stopped today. The president was very

much interested in the old Spanish missions, filled with historic relics, which he visited both at Ventura and at Santa Barbara. San Luis Obispo was the last stop of the day. It was reached at 7 o'clock tonight. After crossing the mountain range the train will drop down to Del Monte, on the bay of Monterey, where the party will remain tomorrow and Sunday. The program tomorrow will include a visit to the national encampment during the afternoon. Sunday will be given over to rest. At Santa Barbara President McKinley made the principal address of the day. After expressing his gratitude for the reception accorded him and commenting on the cosmopolitan character of the assembly, he said: "Concerning the Philippines. "My Fellow Citizens: What a splendid civilization comes out of the old states and from the old nationalities that are represented here today—the best civilization in the world, a civilization based upon liberty, upon equality, upon self-government and upon civilization that leads wherever it is, whether here or in the distant seas and wherever this civilization goes it carries the ark of freedom. Our liberty, our freedom, our sense of justice, are not extinguished in any clime, globe or land, and here, facing the Pacific, I am reminded that this ark of liberty has moved out into this great ocean. Referring to the Spanish war, he continued: "As the result of that war we are in the Philippines and we do not mean to come away (applause and cheering) and we mean to give to those distant peoples what we gave to California more than fifty years ago, the blessings of security and liberty. An unusual incident occurred during the president's stay at Santa Barbara. The residence of the chief of the fire brigade caught fire. The fire chief, who was on the street awaiting the coming of the president, was informed that his house was in flames. "Let it burn," he replied. "I will wait and see the president. I can build another house, but I may never have another chance to see the president," and he stoically remained while his house burned to the ground. "I saw the president," he said, when informed that his house was in ruins. "I saved the lot, anyway."

Fashions for the Season

Hint by Mrs. Lamb.

3815 Three-Piece Skirt, 22 to 30 in. waist.

Woman's Three-Piece Skirt. Tucked with Yoke Effect. No. 3815—The hip yoke is a marked feature of the season and is never more attractive nor more becoming than when formed by a succession of tiny tucks. The admirable model shown is exemplified in chiffon veiling in cream with trimming of guipure in a deeper shade and is both exceedingly effective and novel, but the skirt is suited to almost the entire range of dress materials. Fine soft cloth is so treated. All the lighter-weight wools are peculiarly adaptable and such soft silks, cottons and linens as foulard Louisiana crepe de Chine, taffeta, cotton grenadine, embroidered muslin, batiste and the like are charming. The skirt is cut in three pieces, a narrow front and wide side gores. The fullness at the upper portion is arranged in the graduated tucks over the hips, but is laid in an inverted pleat at the back which provides graceful folds and ample flare at the lower portion. To cut this skirt for a woman of medium size 6 1/2 yards of material 21 inches wide, 5 1/2 yards 27 inches wide, 4 1/2 yards 32 inches wide, 3 1/2 yards 44 inches wide or 3 1/2 yards 50 inches wide will be required. The pattern 3815 is cut in sizes for a 22, 26, 28 and 30-inch waist measure. For the accommodation of The Bee's readers these patterns, which usually retail at from 25 to 50 cents, will be furnished at a nominal price, 10 cents, which covers all expense. In order to get any pattern enclosed 10 cents, give number and name of pattern wanted and bust measure. Allow about ten days from date of your letter before beginning to look for the pattern. Address Pattern Department, Omaha Bee.

senate and house, has been completed for the second session of the Fifty-sixth congress by Messrs. Thomas P. Cleaves and James C. Courts, chief clerks respectively of those committees. A summary of the appropriations shows the grand total of \$730,238,575. The details by bills are as follows: Agricultural, \$4,582,420; army, \$115,734,049; diplomatic, \$1,849,128; District of Columbia, \$5,562,568; fortifications, \$7,364,011; Indian, \$5,747,471; legislative, \$24,594,988; military academy, \$772,653; naval, \$78,101,791; pension, \$145,245,230; postoffice, \$123,782,688; sundry civil, \$61,735,908; deficiencies, \$15,917,746; miscellaneous, \$7,996,623; permanent appropriations, \$124,358,220; total, \$730,238,575. The statement shows that in addition to the specific appropriations made, contracts are authorized to be entered into for public works requiring future appropriations by congress in the aggregate sum of \$4,524,640. These contracts include \$1,284,640 for permanent improvements and increased facilities at certain navy yards; \$2,341,500 for public buildings previously authorized to be constructed in various cities and for certain lighthouse tenders and a revenue cutter, and \$198,500 for school buildings and sewer system in the District of Columbia. The contracts authorized in excess of appropriations made at the first session of the Fifty-sixth congress amounted to \$54,215,734 more than the contract authorizations of the session just closed. New Offices Created. The new offices of a civilian character created number 3,825, with annual compensation of \$2,500,001, and those abolished

or omitted aggregate 211, at annual pay of \$245,226, a net increase of 3,803, at a yearly cost of \$2,239,075. In addition to the new civil employment shown the volume also exhibits a net increase in the military establishment over its organization as it would have existed July 1, 1901, of 77,194 officers and enlisted men, with annual pay amounting to \$16,312,910, and fifty officers and 5,900 seamen in the naval establishment, with a yearly pay of \$1,802,425. The net number of sailors increased is 528, at a cost for the year of \$70,473. The total appropriations made by the Fifty-sixth congress aggregate \$1,440,480,488, or \$127,723,108 less than the \$1,568,212,837 appropriated by the preceding congress.
